Hi, I'm new to your forum.

I bought an eMachine

T6524 with an MSI

MS-7184 (RS482M2 series)

mobo. I plan to put in a

dual monitor card and need

to upgrade the power supply

(Would you beleive,

eMachine puts a 300 Watt

unit on a board that

recommends a minimum of

350!). I notice that the

original power supply has a

20 pin ATX plug.
