Surgery vs. radiotherapy in patients with uveal melanoma ...

Purpose: The effect of microsatellite instability (MSI) on the response to radiotherapy remains unknown. The aim of this study was to investigate the association between the MSI status and the outcomes of gastric cancer (GC) treated by surgical resection with or without postoperative adjuvant chemoradiotherapy.
Methods: The records of patients who underwent

surgical resection of stage IB–III ...

atory properties. The objective of this study was to determine whether ingestion of NAB polyphenols for 3 wk before and 2 wk after a marathon would attenuate postrace inflammation and decrease URTI incidence. **Methods** Healthy male runners (N = 277, age = 42 ± 9 yr) were randomly assigned to 1–1.5 L·d⁻¹ of NAB or placebo (PL) beverage (double-blind

design) for 3 wk before and 2 wk after ...

Study of Nivolumab and

Relatlimab in Patients With ...

Another study of the incidence of MSI in patients with multiple primary GI cancers showed that patients with multiple cancers in different organs had a tendency to exhibit the MSI-L or MSS phenotypes. 25 Taken together, MSI-L is frequently accompanied by oncogene and tumor suppressor gene mutations during the slow process of gastric carcinogenesis, therefore increasing the risk of synchronous ...

Body composition changes in bodybuilders: a method ...

Introduction: Few studies report on validation of body composition changes using the four-compartment model (4C), and no such studies are available in strength training. Here we present such a validation study for the determination of body fat and fat-free mass changes in bodybuilders, who used exercise and androgenic-anabolic steroids.

This study investigated the effects of inserting a 45-min vigorous cycling bout into the

daily schedule versus a controlled resting day on 24-h energy expenditure in a metabolic chamber. Methods: Ten male subjects (age = 22-33 yr) completed two separate 24-h chamber visits (one rest and one exercise day), and energy balance was maintained for each visit condition.
