Chapter I 'A fair vestal,  
throned in the west' Elfride  
Swancourt was a girl whose  
emotions lay very near the  
surface. Their nature more  
precisely, and as modified by

the creeping hours of time,  
was known only to those who  
watched the circumstances of  
her history. Personally, she  
was the combination of very  
interesting particulars,  
whose rarity, however, lay in  
the combination itself rather  
than in the individual  
elements combined. As a  
matter of fact, you did not  
see the form and substance of  
her features when conversing  
with her; and this charming  
power of preventing a  
material study of her  
lineaments by an  
interlocutor, originated not

in the cloaking effect of a  
well-formed manner (for her  
manner was childish and  
scarcely formed), but in the  
attractive crudeness of the  
remarks themselves. She had  
lived all her life in  
retirement—the monstrari  
gigito of idle men had not  
flattered her, and at the age  
of nineteen or twenty she was  
no further on in social  
consciousness than an urban  
young lady of fifteen. One  
point in her, however, you  
did notice: that was her  
eyes. In them was seen a  
sublimation of all of her; it

---

was not necessary to look further: there she lived. These eyes were blue; blue as autumn distance—blue as the blue we see between the retreating mouldings of hills and woody slopes on a sunny September morning. A misty and shady blue, that had no beginning or surface, and was looked INTO rather than AT. As to her presence, it was not powerful; it was weak. Some women can make their personality pervade the atmosphere of a whole banquet hall; Elfride's was no more pervasive than that of a kitten. Elfride had as her own the thoughtfulness which appears in the face of the Madonna della Sedia, without its rapture: the warmth and spirit of the type of woman's feature most common to the beauties—mortal and immortal—of Rubens, without their insistent

fleshiness. The characteristic expression of the female faces of Correggio—that of the yearning human thoughts that lie too deep for tears—was hers sometimes, but seldom under ordinary conditions.

This book is a must-read for every language teaching professional and researcher working in a multilingual context. *Multilingualism and Education in Africa: The State of the State of the Art* is an up-to-date exploration and wide-ranging review of the symbiotic relationship between multilingualism and education in Africa. The African continent is rich in languages. Most of her inhabitants are multilingual and many of the nations have embraced multilingual education. This book examines multilingualism in education from three broad perspectives: multilingualism and language in education policy in Africa; multilingualism as an educational resource in Africa; and attitudes and challenges of multilingualism and education in Africa.

The book's nineteen chapters discuss these three perspectives from East, West, Central and South Africa. All the contributors are leading authorities in multilingualism and education. The chapters combine a wide range of viewpoints based on theoretical, empirical and personal experiences. The reader is left with a deeper understanding of the unique features of multilingualism and education in Africa that have seldom been addressed by those who experience them first-hand. The book demonstrates successful practices in multilingualism and education; showing how African nations have determined what works for them without ignoring challenges such as policies on paper, attitudes towards African languages and limited resources. The benefits of multilingual education override the challenges. The book's extensive coverage makes it an important resource for scholars and policy makers in the field of multilingualism and education. Overall, this book represents an important contribution to an important subject in education globally. The editors have provided an introductory overview to the book and commentaries on the three sections.

Reality is deadly when you go off script. Bliss Island seems like an idyllic place to live - especially to the people suffering on the war-torn mainland. What's not so idyllic about Bliss is the fact that the Island is a set, and everyone's life is a performance; they're all stars of a hit reality TV show, *Blissful Days*. Characters on the show think they're better off on Bliss than the mainland, but they're always in danger of being cut if their ratings dip too low. And no one really knows what happens to cut characters. Nettie Starling has never had great ratings, so it seems lucky when a producer offers suggestions to help her improve. But she'll soon have to decide how far she'll go to preserve her ratings ... especially when she learns what could happen to her if she doesn't.

A dazzling short story collection from the person Chimamanda Ngozi Adichie calls “one of the greatest writers of our time” Ng?g? wa Thiong’o, although renowned for his novels, memoirs, and plays, honed his craft as a short story writer. From “The Fig Tree,” written in 1960, his first year as an undergraduate at Makerere University College in Uganda, to the playful “The Ghost of Michael Jackson,” written as a professor at the University of California, Irvine, these collected stories reveal a master of the short form. Covering the period of British colonial rule and resistance in Kenya to the bittersweet experience of independence—and including two stories that have never before been published in the United States— Ng?g?’s collection features women fighting for their space in a patriarchal society, big men in their Bentleys who have inherited

power from the British, and rebels who still embody the fighting spirit of the downtrodden. One of Ng?g?’s most beloved stories, “Minutes of Glory,” tells of Beatrice, a sad but ambitious waitress who fantasizes about being feted and lauded over by the middle-class clientele in the city’s beer halls. Her dream leads her on a witty and heartbreaking adventure. Published for the first time in America, *Minutes of Glory and Other Stories* is a major literary event that celebrates the storytelling might of one of Africa’s best-loved writers.

**Disaster Resilience and Sustainability** Routledge  
Written in the same style and spirit as the classic best-seller *The Faith Explained* by Leo Trese, *The Faith Explained Today* by Joe Babendreier offers an explanation of the faith that is easily accessible to modern readers, especially students and young adults. The book is in six parts and covers the full spectrum of Church teaching over the last 2,000 years. These parts include: What Christians Believe How God Reveals Morality The Way Christians Worship The Human Person Prayer Complete with review questions at the end of each chapter and frequent use of writings from Sacred Scripture, the saints, spiritual writers, and the Magisterium, this book will help you understand what God revealed through Jesus Christ, as the Church has believed it, preserved it, and treasured it from the beginning.

Disasters undermine societal well-being, causing loss of lives and damage to social and economic infrastructures. Disaster resilience is central to achieving the 2030 Sustainable Development Goals, especially in regions where extreme inequality combines with the increasing frequency and intensity of natural disasters. Disaster risk reduction and resilience requires participation of wide array of stakeholders ranging from academicians to policy makers to disaster managers. Disaster Resilient Cities: Adaptation for Sustainable Development offers evidence-based, problem-solving techniques from social, natural, engineering and other disciplinary perspectives. It connects data, research, conceptual work with practical cases on disaster risk management, capturing the multi-sectoral aspects of disaster resilience, adaptation strategy and sustainability. The book links disaster risk management with sustainable development under a common umbrella, showing that effective disaster resilience strategies and practices lead to achieving broader sustainable development goals. Provides foundational knowledge on integrated disaster risk reduction and management to show how resilience and its associated concept such as adaptive and transformative strategies can foster sustainable

development Brings together disaster risk reduction and resilience scientists, policy-makers and practitioners from different disciplines Case studies on disaster risk management from natural science, social science, engineering and other relevant disciplinary perspectives

This edition of Swokowski's text is truly as its name implies: a classic. Groundbreaking in every way when first published, this book is a simple, straightforward, direct calculus text. It's popularity is directly due to its broad use of applications, the easy-to-understand writing style, and the wealth of examples and exercises which reinforce conceptualization of the subject matter. The author wrote this text with three objectives in mind. The first was to make the book more student-oriented by expanding discussions and providing more examples and figures to help clarify concepts. To further aid students, guidelines for solving problems were added in many sections of the text. The second objective was to stress the usefulness of calculus by means of modern applications of derivatives and integrals. The third objective, to make the text as accurate and error-free as possible, was accomplished by a careful examination of the exposition, combined with a thorough checking of each example and

exercise.

Notable author Katsuhiko Ogata presents the only new book available to discuss, in sufficient detail, the details of MATLAB® materials needed to solve many analysis and design problems associated with control systems. Complements a large number of examples with in-depth explanations, encouraging complete understanding of the MATLAB approach to solving problems. Distills the large volume of MATLAB

information available to focus on those materials needed to study analysis and design problems of deterministic, continuous-time control systems. Covers conventional control systems such as transient response, root locus, frequency response analyses and designs; analysis and design problems associated with state space formulation of control systems; and useful MATLAB approaches to solve optimization problems. A useful self-study guide for practicing control engineers.

Linguists estimate that there are currently nearly 2,000 languages in Africa, a staggering figure that is belied by the relatively few national languages. While African national politics, economics, and law are all conducted primarily in the colonial languages, the cultural life of the majority of citizens is conducted in a bewildering Babel of local and regional dialects, making language itself the center of debates over multiculturalism, gender studies, and social theory. In *The Power of Babel*, the noted Africanist scholar Ali Mazrui and linguist Alamin Mazrui explore this vast territory of African language. *The Power of Babel* is one of the first comprehensive studies of the complex linguistic constellations of Africa. It draws on Ali Mazrui's earlier work in its examination of the "triple heritage" of African culture, in which indigenous, Islamic, and Western traditions compete for influence. In bringing the idea of the triple heritage to language, the Mazruis unravel

issues of power, culture, and modernity as they are embedded in African linguistic life. The first section of the book takes a global perspective, exploring such issues as the Eurocentrism of much linguistic scholarship on Africa; part two takes an African perspective on a variety of issues from the linguistically disadvantaged position of women in Africa to the relation of language policy and democratic development; the third section presents a set of regional studies, centering on the Swahili language's exemplification of the triple heritage. *The Power of Babel* unites empirical information with theories of nationalism and pluralism—among others—to offer the richest contextual account of African languages to date. *Telephone Directory, Tanzania* ???

*Betrayal in the City*, first published in 1976 and 1977, was Kenya's national entry to the Second World Black and African Festival of Arts and Culture in Lagos, Nigeria. The play is an incisive, thought-provoking examination of the problems of independence and freedom in post-colonial African states, where a sizeable number of people feel that their future is either blank or bleak. In the words of Mosese, one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future."--Page 4 of cover.

Summary Taming Text, winner of the 2013 Jolt Awards for Productivity, is a hands-on, example-driven guide to working with unstructured text in the context of real-world applications. This book explores how to automatically organize text using approaches such as full-text search, proper name recognition, clustering, tagging, information extraction, and summarization. The book guides you through examples illustrating each of these topics, as well as the foundations upon which they are built. About this Book There is so much text in our lives, we are practically drowning in it.

Fortunately, there are innovative tools and techniques for managing unstructured information that can throw the smart developer a much-needed lifeline. You'll find them in this book. Taming Text is a practical, example-driven guide to working with text in real applications. This book introduces you to useful techniques like full-text search, proper name recognition, clustering, tagging,

information extraction, and summarization. You'll explore real use cases as you systematically absorb the foundations upon which they are built. Written in a clear and concise style, this book avoids jargon, explaining the subject in terms you can understand without a background in statistics or natural language processing. Examples are in Java, but the concepts can be applied in any language. Written for Java developers, the book requires no prior knowledge of GWT. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.
