Court Officer New York State (NYS Court Officer-Trainee) Westminster John Knox Press

This report provides a method to define and measure the costs of personal immobility at a local level and contains a compendium of public transportation practices that address immobility, help reduce costs, and possibly provide economic benefits to both the riders and the larger community. The focus is on practices that assist people who need transportation to health care or who are transitioning from welfare to work. This report should be of interest to planners, decision makers, and social service and transportation providers. It should also serve as a resource to assist decision makers and transportation service providers in using their services more effectively to address the issue of personal immobility.

Using Public Transportation to Reduce the Economic, Social, and Human Costs of Personal Immobility JHU Press

The first complete introduction to the technology and business issues surrounding m-commerce With the number of mobile phone users fast approaching the one billion mark, it is clear that mobile e-commerce (a.k.a. "m-commerce") is the next business frontier. Authored by a recognized international authority in the field, this book describes the brave new world of m-commerce for technical and business managers alike. Readers learn about the driving forces behind m-commerce, the impact of WAP, 3G, mobile payment, and emerging location-sensitive and context-aware technologies. A comprehensive look at emerging m-commerce services and business models, as well as the changing role of mobile network operators, content providers, and other key players. The author concludes with informed predictions about the future of m-commerce.

Newly updated: " An enjoyable introduction to American working-class

history. " —The American Prospect Praised for its " impressive even-handedness " , From the Folks Who Brought You the Weekend has set the standard for viewing American history through the prism of working people (Publishers Weekly, starred review). From indentured servants and slaves in seventeenth-century Chesapeake to high-tech workers in contemporary Silicon Valley, the book " [puts] a human face on the people, places, events, and social conditions that have shaped the evolution of organized labor " , enlivened by illustrations from the celebrated comics journalist Joe Sacco (Library Journal). Now, the authors have added a wealth of fresh analysis of labor ' s role in American life, with new material on sex workers, disability issues, labor ' s relation to the global justice movement and the immigrants ' rights movement, the 2005 split in the AFL-CIO and the movement civil wars that followed, and the crucial emergence of worker centers and their relationships to unions. With two entirely new chapters—one on global developments such as offshoring and a second on the 2016 election and unions ' relationships to Trump—this is an " extraordinarily fine addition to U.S. history [that] could become an evergreen . . . comparable to Howard Zinn ' s award-winning A People ' s History of the United States " (Publishers Weekly).

" A marvelously informed, carefully crafted, far-ranging history of working people. " —Noam Chomsky

First to the Party Berrett-Koehler Publishers

While upbeat lingo abounds about “ complementing strategic objectives ” and “ driving productivity, ” the fact is that most training does not make a significant enough impact on business results, and when it does, training professionals fail to make a convincing case about the value added to the bottom line. The vaunted “ business partnership model ” has yet to be realized—and in tough economic times, when the training budget is often the first to be cut, training is on trial for its very existence. Using a courtroom trial as a metaphor, Training on Trial seeks to get to the truth about why training fails and puts the business partnership model to work for real. Readers on both sides of the “ courtroom ” will learn how to stop viewing training as a cost center, and bridge the gulf between what learning functions deliver and what business units need to execute their strategies. A thought-provoking read for trainers and business unit leaders alike, Training on Trial provides a new application of the Kirkpatrick Four-Level Evaluation Model and a multitude of tips and techniques that allow lessons learned to be put into action now.

M-Commerce Passbooks

Most of our communities are fragmented and at odds within themselves. Businesses, social services, education, and health care each live within their own worlds. The same is true of individual citizens, who long for connection but end up marginalized, their gifts overlooked, their potential contributions lost. What keeps this from changing is that we are trapped in an old and tired conversation about who we are. If this narrative does not shift, we will never truly create a common future and work toward it together. What Peter Block provides in this inspiring new book is an exploration of the exact way community can emerge from fragmentation. How is community built? How does the transformation occur? What fundamental shifts are involved? What can individuals and formal

leaders do to create a place they want to inhabit? We know what healthy communities look like—there are many success stories out there. The challenge is how to create one in our own place. Block helps us see how we can change the existing context of community from one of deficiencies, interests, and entitlement to one of possibility, generosity, and gifts. Questions are more important than answers in this effort, which means leadership is not a matter of style or vision but is about getting the right people together in the right way: convening is a more critical skill than commanding. As he explores the nature of community and the dynamics of transformation, Block outlines six kinds of conversation that will create communal accountability and commitment and describes how we can design physical spaces and structures that will themselves foster a sense of belonging. In *Community*, Peter Block explores a way of thinking about our places that creates an opening for authentic communities to exist and details what each of us can do to make that happen.
