An innovative recasting of US legal and economic history through the power of clothing for those who lacked power and status in American society. What can dresses, bedlinens, waistcoats, pantaloons, shoes, and kerchiefs tell us about the legal status of the least powerful members of American society? In the hands of eminent historian Laura F. Edwards, these textiles tell a revealing story of ordinary people and how they made use of their material goods' economic and legal value in the period between the Revolution and the Civil War. Only the Clothes on Her Back uncovers practices, commonly known then, but now long forgotten, which made textiles--clothing, cloth, bedding, and accessories, such as shoes and hats--a unique form of property that people without rights could own and exchange. The value of textiles depended on law, and it was law that turned these goods into a secure form of property for marginalized people, who not only used these textiles as currency, credit, and capital, but also as entree into the new republic's economy and governing institutions. Edwards grounds the laws relating to textiles in engaging stories from the lives of everyday Americans. Wives wove linen and kept the proceeds, enslaved people traded coats and shoes, and poor

people invested in fabrics, which they carefully preserved in trunks. Edwards shows that these stories are about far more than cloth and clothing; they reshape our understanding of law and the economy in America. Based on painstaking archival research from fifteen states, *Only the Clothes on Her Back* reconstructs this hidden history of power, tracing it from the governing order of the early republic in which textiles' legal principles flourished to the textiles' legal downfall in the mid-nineteenth century when they were crowded out by the rising power of rights.

The cultural and narrative turn has had a considerable impact upon research in the social sciences as well as in the arts and humanities, with Ken Plummer's *Documents of Life* constituting a central text in the turn towards to narrative, biographical and qualitative methodologies, challenging and changing the nature of research in sociology and further afield. Bringing together the latest research on auto/biographical and narrative methods, *Documents of Life Revisited* offers a sympathetic yet critical engagement with Plummer's work, exploring a range of different kinds of life documents and delineating a critical humanist methodology for researching and writing about these. A rich examination of the methods and methodologies associated with contemporary research in the social sciences and humanities, this book will be of interest to those concerned with the use and importance of biographical and narrative sources and documents of life investigations. As such, it will appeal to sociologists, social anthropologists and geographers, as well as scholars of cultural studies and cultural history, literary studies and library, archive and cultural management, social policy and medical studies.

Michel Foucault's seminal *The History of Sexuality* (1976-1984) has since its publication provided a context for the emergence of critical historical studies of sexuality. This collection reassesses the state of the historiography on sexuality—a field in which the German case has been traditionally central. In many diverse ways, the Foucauldian intervention has governed the formation of questions in the field as well as the assumptions about how some of these questions should be answered. It can be argued, however, that some of these revolutionary insights have ossified into dogmas or truisms within the field. Yet, as these contributions meticulously reveal, those very truisms, when revisited with a fresh eye, can lead to new, unexpected insights into the history of sexuality, necessitating a return to and reinterpretation of Foucault's richly complex work. This volume will be necessary reading for students of historical sexuality as well as for those readers in German history and German studies generally who have an interest in the history of sexuality.

In the early 1930s women practicing criminal law were often held in the same low regard as the clients they served. When a corrupt prosecutor was determined to send as many of the notorious John Dillinger gang to death row as possible, female attorneys Jessie Levy and Bess Robbins rose to the challenge. They skillfully represented six of the gang members, a number far greater than any of their male counterparts. And yet, their story of deals gone bad, wrongful convictions and success against the odds has all but vanished from history. The recent discovery of interviews, personal correspondence, and court transcripts—a treasure trove untouched for over

80 years--forms the basis for this book, which traces the careers of Jessie Levy, Bess Robbins and the John Dillinger gang in detail for the first time. **Editor & Publisher** Columbia University Press

A Pulitzer Prize-winning history of the mistreatment of black Americans. In this 'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

A comprehensive examination of all critical aspects of Disaster Victim Identification (DVI) As the frequency of both natural and man-made mass fatality disasters increases worldwide, the establishment of clear standards and best practices within the field of Disaster Victim identification (DVI) is of vital importance. Whereas most countries assign jurisdiction to law enforcement agencies following Interpol guidelines, DVI is the responsibility of the medical examiner and coroner in the United States. Disaster Victim Identification in the 21st Century is the first book of its kind to directly address the needs of DVI practitioners in the United States, covering the full spectrum of DVI from traditional methods such as fingerprints, odontology, and anthropology to advanced DNA identification technology. Approaching DVI from three perspectives—academic, government, and private industry—this comprehensive volume examines the history and current state of the discipline, the ongoing formation of national standards, the various methods of human identification, and the key challenges and future of DVI. In-depth chapters are written by leaders in the field with personal experience in human identification and mass fatality events. Provides practitioners with practical guidance on planning and taking part in DVI based on current national standards and best practices Discusses continued improvement in both traditional and emerging DVI methods Includes non-region-specific case studies and recommendations that can be easily adapted for international use Examines ethical and legal considerations in DVI, including suggestions for standardizing the victim identification process Describes the critical role of the Victim Information Center (VIC) in providing the comparative information required to go beyond presumptive identifications Part of the American Association for Forensic Sciences (AAFS) series, Disaster Victim Identification in the 21st Century: A US Perspective is an indispensable resource for forensic scientists, disaster planners, policymakers, medical examiners and coroners, law enforcement and emergency personnel, and upper-level undergraduate and graduate students in forensic sciences and emergency management.

In 1967, Reies Lopez Tijerina led an armed takeover of a New Mexico courthouse in the name of land rights for disenfranchised Spanish-speaking locals. The small-scale raid surprisingly thrust Tijerina and his cause into the national spotlight, catalyzing an entire generation of activists. The actions of Tijerina and his group, the Alianza Federal de Mercedes (the Federal Alliance of Land Grants), demanded that Americans attend to an overlooked part of the country's history: the United States was an aggressive empire that had conquered and colonized the Southwest and subsequently wrenched land away from border people—Mexicans and Native Americans alike. To many young Mexican American activists at the time, Tijerina and the Alianza offered a compelling and militant alternative to the nonviolence of Cesar Chavez and Martin Luther King Jr. Tijerina's place at the table among the nation's leading civil rights activists was short-lived, but his analysis of land dispossession and his prophetic zeal for the rights of his people was essential to the creation of the Chicano movement. This fascinating full biography of Tijerina (1926–2015) offers a fresh and unvarnished look at one of the most controversial, criticized, and misunderstood activists of the civil rights era. Basing her work on painstaking archival research and new interviews with key participants in Tijerina's life and career, Lorena Oropeza traces the origins of Tijerina's revelatory historical analysis to the years he spent as a Pentecostal preacher and his hidden past as a self-proclaimed prophet of God. Confronting allegations of anti-Semitism and accusations of sexual abuse, as well as evidence of extreme religiosity and possible mental illness, Oropeza's narrative captures the life of a man--alternately mesmerizing and repellent--who changed our understanding of the American West and the place of Latinos in the fabric of American struggles for equality and self-determination.

The New York Times bestseller! “Frank Hamer, last of the old breed of Texas Rangers, has not fared well in history or popular culture. John Boessenecker now restores this incredible Ranger to his proper place alongside such fabled lawmen as Wyatt Earp and Eliot Ness. Here is a grand adventure story, told with grace and authority by a master historian of American law enforcement. Frank Hamer can rest easy as readers will finally learn the truth behind his amazing career, spanning the end of the Wild West through the bloody days of the gangsters.” --Paul Andrew Hutton, author of *The Apache Wars* To most Americans, Frank Hamer is known only as the “villain” of the 1967 film *Bonnie and Clyde*. Now, in *Texas Ranger*, historian John Boessenecker sets out to restore Hamer's good name and prove that he was, in fact, a classic American hero. From the horseback days of the Old West through the gangster days of the 1930s, Hamer stood on the front lines of some of the most important and exciting periods in American history. He participated in the Bandit War of 1915, survived the climactic gunfight in the last blood feud of the Old West, battled the Mexican Revolution's spillover across the border, protected African Americans from lynch mobs and the Ku Klux Klan, and ran down gangsters, bootleggers, and Communists. When at last his career came to an end, it was only when he ran up against another legendary Texan: Lyndon B. Johnson. Written by one of the most acclaimed historians of the Old West, *Texas Ranger* is the first biography to tell the full story of this near-mythic lawman.
