In the late nineteenth and early twentieth centuries, radical women's movements and the avant-gardes were often in contact with one another, brought together through the socialist internationals. Jill Richards argues that these movements were not just socially linked but also deeply interconnected. Each offered the other an experimental language that could move beyond the nation-state's rights of man and citizen, suggesting an

alternative conceptual vocabulary for women's rights. Rather than focus on the demand for the vote, *The Fury Archives* turns to the daily practices and social worlds of feminist action. It offers an alternative history of women's rights, practiced by female arsonists, suffragette rioters, industrial saboteurs, self-named terrorists, lesbian criminals, and queer resistance cells. Richards also examines the criminal proceedings that emerged in the wake of women's actions, tracing the way that citizen and human emerged as linked categories for women on the fringes of an international campaign for suffrage. Recovering a transatlantic print archive, Richards brings together a wide range of activists and artists, including Lumina Sophie, Ina Césaire, Rosa Luxemburg, Rebecca West, Angelina Weld Grimké, Elizabeth Gurley Flynn, Hannah Höch, Claude Cahun, Paulette Nardal, and Leonora Carrington. An expansive

and methodologically innovative book, *The Fury Archives* argues that the relationship of women's rights movements and the avant-gardes offers a radical alternative to liberal discourses of human rights in formation at the same historical moment.

Little People, BIG DREAMS: Black Voices Rough Guides UK Offering a comprehensive guide to economical travel in diverse regions of the world, these innovative new versions of the popular handbooks feature an all-new look, sidebars highlighting essential tips and facts, information on a wide range of itineraries, transportation options, off-the-beaten-path adventures, expanded lodging and dining

options in every price range, additional nightlife options, enhanced cultural coverage, shopping tips, maps, 3-D topographical maps, regional culinary specialties, cost-cutting tips, and other essentials.

Simply Heavenly John Wiley & Sons

In 1967, Reies Lopez Tijerina led an armed takeover of a New Mexico courthouse in the name of land rights for disenfranchised Spanish-speaking locals. The small-scale raid surprisingly thrust Tijerina and his cause into the national spotlight, catalyzing an entire generation of activists. The actions of Tijerina and his group, the Alianza Federal de Mercedes (the Federal Alliance of Land Grants), demanded that Americans attend to an overlooked part of the country's history: the United States was an aggressive empire that had conquered and colonized the Southwest and subsequently wrenched land away from border people—Mexicans and Native Americans alike. To many young Mexican American activists at the time, Tijerina and the Alianza offered a compelling and militant alternative to the nonviolence of Cesar Chavez and Martin Luther King Jr. Tijerina's place at the table among the

nation's leading civil rights activists was short-lived, but his analysis of land dispossession and his prophetic zeal for the rights of his people was essential to the creation of the Chicano movement. This fascinating full biography of Tijerina (1926–2015) offers a fresh and unvarnished look at one of the most controversial, criticized, and misunderstood activists of the civil rights era. Basing her work on painstaking archival research and new interviews with key participants in Tijerina's life and career, Lorena Oropeza traces the origins of Tijerina's revelatory historical analysis to the years he spent as a Pentecostal preacher and his hidden past as a self-proclaimed prophet of God. Confronting allegations of anti-Semitism and accusations of sexual abuse, as well as evidence of extreme religiosity and possible mental illness, Oropeza's narrative captures the life of a man--alternately mesmerizing and repellent--who changed our understanding of the American West and the place of Latinos in the fabric of American struggles for equality and self-determination.

Texas Ranger Macmillan
Mafia Murders Oxford University Press

The New York Times bestseller! “ Frank Hamer, last of the old breed of Texas Rangers, has not fared well in history or popular culture. John Boessenecker now restores this incredible Ranger to his proper place alongside such fabled lawmen as Wyatt Earp and Eliot Ness. Here is a grand adventure story, told with grace and authority by a master historian of American law enforcement. Frank Hamer can rest easy as readers will finally learn the truth behind his amazing career, spanning the end of the Wild West through the bloody days of the gangsters. ” --Paul Andrew Hutton, author of *The Apache Wars* To most Americans, Frank Hamer is known only as the “ villain ” of the 1967 film *Bonnie and Clyde*. Now, in *Texas Ranger*, historian John Boessenecker sets out to restore Hamer ’ s good name and prove that he was, in fact, a classic American hero. From the horseback days of the Old West through the gangster days of the 1930s, Hamer stood on the front lines of some of the most important and exciting periods in American history. He participated in the Bandit War of 1915, survived the climactic gunfight in the last blood feud of the Old West, battled the Mexican Revolution ’ s spillover across the border, protected African Americans from lynch mobs and the Ku Klux Klan, and ran down gangsters, bootleggers, and Communists. When at last his career came to an end, it was only when he ran up against another legendary Texan: Lyndon B. Johnson. Written by one of the most acclaimed historians of the Old West, *Texas Ranger* is the first biography to tell the full story of this near-mythic lawman.

Michel Foucault's seminal *The History of Sexuality* (1976 – 1984) has since its publication provided a context for the emergence of critical historical studies of sexuality. This collection reassesses the state of the historiography on sexuality—a field in which the German case has been traditionally central. In many diverse ways, the Foucauldian intervention has governed the formation of questions in the field as well as the assumptions about how some of these questions should be answered. It can be argued, however, that some of these revolutionary insights have ossified into dogmas or truisms within the field. Yet, as these contributions meticulously reveal, those very truisms, when revisited with a fresh eye, can lead to new, unexpected insights into the history of sexuality, necessitating a return to and reinterpretation of Foucault's richly complex work. This volume will be necessary reading for students of historical sexuality as well as for those readers in German history and German studies generally who have an interest in the history of sexuality.

Included are recipes from the region's most renowned chefs.

The King of Adobe Macmillan

Former Prussian soldier Herman “ Baron ” Lamm (1890 – 1930) adapted his military training to a much less noble occupation after moving to America, developing a reputation as one of history ’ s most brilliant and efficient bank robbers. Lamm ’ s time fell between Butch Cassidy and John Dillinger ’ s notorious careers, and Lamm never received the attention of the two famous gunslingers. This first full-length biography promotes Lamm from his supporting role, tracing his criminal exploits and his pioneering use of concepts like “ casing ” a bank and planning escape routes. Analysis of arrest records finds Lamm ’ s genius as a criminal mastermind much overrated, and a detailed examination of the trial transcript of fellow gang members Walter Detrich and James Clark brings to life Lamm ’ s spectacular downfall.

Slavery by Another Name Macmillan

“ A tour de force of storytelling. ” —Louise Penny, #1 New York Times bestselling author of the Chief Inspector Gamache series “ Jobb ’ s excellent storytelling makes the book a pleasure to read. ” —The New York Times Book Review “ When a doctor does go wrong he is the first of criminals, ” Sherlock Holmes observed during one of his most baffling investigations. “ He has nerve and he has knowledge. ” In the span of fifteen years, Dr. Thomas Neill Cream murdered as many as ten

people in the United States, Britain, and Canada, a death toll with almost no precedent. Poison was his weapon of choice. Largely forgotten today, this villain was as brazen as the notorious Jack the Ripper. Structured around the doctor ’ s London murder trial in 1892, when he was finally brought to justice, *The Case of the Murderous Dr. Cream* exposes the blind trust given to medical practitioners, as well as the flawed detection methods, bungled investigations, corrupt officials, and stifling morality of Victorian society that allowed Dr. Cream to prey on vulnerable and desperate women, many of whom had turned to him for medical help. Dean Jobb transports readers to the late nineteenth century as Scotland Yard traces Dr. Cream ’ s life through Canada and Chicago and finally to London, where new investigative tools called forensics were just coming into use, even as most police departments still scoffed at using science to solve crimes. But then, most investigators could hardly imagine that serial killers existed—the term was unknown. As the Chicago Tribune wrote, Dr. Cream ’ s crimes marked the emergence of a new breed of killer: one who operated without motive or remorse, who “ murdered simply for the sake of murder. ” For fans of Erik Larson ’ s *The Devil in the White City*, all things Sherlock Holmes, or the podcast *My Favorite Murder*, *The Case of the Murderous Dr. Cream* is an unforgettable true crime story from a master of the genre. *Development and Design of a Police Dispatch, Communication, and Records System* McFarland THE STORY: The New York Journal-American, called SIMPLY HEAVENLY ...a treat. Corruption Officer Routledge

Definition of Topic: Middle and high school teachers note that all too many adolescent students are less than proficient in reading and writing - the "twin pillars of literacy." Teaching such students to meet today's tougher educational standards can be a challenge. Emphasizing the important connections between comprehension, communication and learning, this book offers teachers in all content areas a structured approach for enabling students to strengthen their reading and writing competency - and thus boast their potential for academic success. Drawing on the author's extensive experience as a teacher and teacher trainer as well as on relevant theory and research, the book presents an arsenal of instructional strategies aimed at improving comprehension and written expression in all types of students. The approach is motivational as well as practical and features extensive tools and techniques for helping students overcome their reading and writing

fears, persist in their practice, build on their success, and finally to share what they've learned. The book features many dozens of teacher-tested activities, lessons, and exercises that can be adapted in any classroom and is abundantly illustrated with examples of student work. Lessons involving literary as well as informational texts are included as are visualization and interpretive exercises aimed at appealing to the less verbally-oriented students. The book also provides extensive guidance and tools for helping students improve their vocabulary, grammar, spelling and other language skills as well as their ability to conduct research and access on-line resources. In addition, a special reference section of the book features extensive listings of web-based instructional tools and curricular resources for teachers to use in planning lessons, activities and assignments. This book will serve as an indispensable resource for teachers seeking to build student skills in comprehension, communication, and learning. Selling Points: 1) Presents a proven instructional framework as well The Zodiac Killer Columbia University Press A Pulitzer Prize-winning history of the mistreatment of black Americans. In this

'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

Conn. : Globe Pequot Press
An innovative recasting of US legal and economic history through the power of clothing for those who lacked power and status in American society. What can dresses, bedlinens, waistcoats, pantaloons, shoes, and kerchiefs tell us about the legal status of the least powerful members of American society? In the hands of eminent historian Laura F. Edwards, these textiles tell a revealing story of ordinary people and how they made use of their material goods' economic and legal value in the period between the Revolution and the Civil War. Only the Clothes on Her Back uncovers practices, commonly known then, but now long forgotten, which made textiles--clothing, cloth, bedding, and accessories, such as shoes and hats--a unique form of property that people without rights could own and exchange. The value of textiles depended on law, and it was law that turned these goods into a secure form of property for marginalized people, who not only used these textiles as currency, credit, and capital, but also as entree into the new republic's economy and governing institutions. Edwards grounds the laws relating to textiles in engaging stories from the

lives of everyday Americans. Wives wove linen and kept the proceeds, enslaved people traded coats and shoes, and poor people invested in fabrics, which they carefully preserved in trunks. Edwards shows that these stories are about far more than cloth and clothing; they reshape our understanding of law and the economy in America. Based on painstaking archival research from fifteen states, Only the Clothes on Her Back reconstructs this hidden history of power, tracing it from the governing order of the early republic in which textiles' legal principles flourished to the textiles' legal downfall in the mid-nineteenth century when they were crowded out by the rising power of rights.

The Rough Guide to New England Icon Books
This book argues that Britain is gripped by an endemic and ongoing panic about the position of children in society – which frames them as, alternately, victims and threats. It argues the press is a key player in promoting this discourse, which is rooted in a wide-scale breakdown in social trust. After The History of Sexuality Greenhaven Publishing LLC

An ex-Marine turned corrections officer at New York's Riker's Island describes in gritty detail how his life on one side of the law led

him into a life on the other, smuggling drugs and other contraband inside the jail for a large profit. Original.

Jossey-Bass

Revenge killings, gangland shootouts, brutal executions and drownings - there was no escape from the Mob's hitmen. Featuring historical photographs, Mafia Murders details the bloody ends of these infamous gangsters. Since the late 19th century, the Mafia has used intimidation and worse to exert its control over organized crime. Mafia Murders recalls the 100 most important executions by the Mob. In a world where family, turf wars and crime were big business, the relentless murders of rival bosses, stool pigeons, snitches, good cops, and dirty cops became part of everyday life. Discover the stories of the hit-men who lived and died by the gun in this fascinating tale of the American underworld.

Whereas most countries assign jurisdiction to law enforcement agencies following Interpol guidelines, DVI is the responsibility of the medical examiner and coroner in the United States. Disaster Victim Identification in the 21st Century is the first book of its kind to directly address the needs of DVI practitioners in the United States, covering the full spectrum of DVI from traditional methods such as fingerprints, odontology, and anthropology to advanced DNA identification technology. Approaching DVI from three perspectives—academic, government, and private industry—this comprehensive volume examines the history and current state of the discipline, the ongoing formation of national standards, the various

methods of human identification, and the key challenges and future of DVI. In-depth chapters are written by leaders in the field with personal experience in human identification and mass fatality events. Provides practitioners with practical guidance on planning and taking part in DVI based on current national standards and best practices Discusses continued improvement in both traditional and emerging DVI methods Includes non-region-specific case studies and recommendations that can be easily adapted for international use Examines ethical and legal considerations in DVI, including suggestions for standardizing the victim identification process Describes the critical role of the Victim Information Center (VIC) in providing the comparative information required to go beyond presumptive identifications Part of the American Association for Forensic Sciences (AAFS) series, Disaster Victim Identification in the 21st Century: A US Perspective is an indispensable resource for forensic scientists, disaster planners, policymakers, medical examiners and coroners, law enforcement and emergency personnel, and upper-level undergraduate and graduate students in forensic sciences and emergency management.
