She is expected to marry, cook, and have children—and instead she ’ s sneaking off to war. Can she manage to stay alive, save her mother, and keep the handsome son of a duke from discovering her secret? The Warrior Maiden is a reimagining of the classic Mulan tale in medieval Europe. When Mulan takes her father ’ s place in battle against the besieging Teutonic Knights, she realizes she has been preparing for this journey her whole life—and that her life, and her mother ’ s, depends on her success. As the adopted daughter of poor parents, Mulan has little power in the world. If she can ’ t prove herself on the battlefield, she could face death—or, perhaps worse, marriage to the village butcher. Disguised as a young man, Mulan meets the German duke ’ s son, Wolfgang, who is determined to save his people even if it means fighting against his own brother. Wolfgang is exasperated by the new soldier who always seems to be one step away from disaster—or showing him up in embarrassing ways. From rivals to reluctant friends, Mulan and Wolfgang begin to share secrets. But war is an uncertain time and dreams can die as quickly as they are born. When Mulan receives word of danger back home, she must make the ultimate choice. Can she be the son her bitter father never had? Or will she become the strong young woman she was created to be? This fresh twist on the classic tale takes us to fifteenth-century Lithuania where both love and war challenge the strongest of heroes. Masculinity without men. In *Female Masculinity* Judith Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years. Providing the first full-length study on this subject, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. She rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity. She considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities. She also explores issues of transsexuality among "transgender dykes"--lesbians who pass as men--and female-to-male transsexuals who may find the label of "lesbian" a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. *Female Masculinity* signals a new understanding of masculine behaviors and identities, and a new direction in interdisciplinary queer scholarship. Illustrated with nearly forty photographs, including portraits, film stills, and drag king performance shots, this book provides an extensive record of the wide range of female masculinities. And as Halberstam clearly demonstrates, female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders.
