Multiple choice or objective response is a form of an objective assessment in which respondents are asked to select only correct answers from the choices offered as a list. The multiple choice format is most frequently used in educational testing, in market research, and in elections, when a person chooses between multiple candidates, parties, or policies. Although E. L. Thorndike developed an early scientific approach to testing students, it was his assistant Benjamin D. Wood who developed the World History Multiple Choice Questions and Answers ...

A Lesson Multiple Choice or Multianswer question type looks the same to the student but is very different in the teacher's edit mode. A lesson question offers the teacher the chance to both grade a student's answer, give feedback and also to send the student to another specific page based upon the student's choice. There are other differences.
