How can educators improve assessment practices so that the results are accurate, meaningful, informative, and fair? Educator and best-selling author Myron Dueck draws from his firsthand experience and his work with districts around the world to provide a simple but profound answer: put student voice and choice at the center of the process. In this engaging and well-researched book, Dueck reveals troubling issues related to traditional approaches and offers numerous examples of educators at all levels who are transforming assessment by using tools and methods that engage and empower students. He also shares surprising revelations about the nature of memory and learning that speak to the need for rethinking how we measure student understanding and achievement. Readers will find sound advice and detailed guidance on how to * Share and cocreate precise learning targets, * Develop student-friendly rubrics linked to standards, * Involve students in ongoing assessment procedures, * Replace flawed grading systems with ones that better reflect what students know and can do, and * Design structures for students' self-reporting

on their progress in learning. Inspired by the origins of the word assessment—derived from the Latin for "to sit beside"—Dueck urges educators to discard old habits and instead work with students as partners in assessment. For those who do, the effort is rewarding and the benefits are significant

CONTENTS This practice book is designed to help students develop proficiency in adding, subtracting, multiplying, and dividing fractions by offering ample practice. This book is conveniently divided up into four parts - one for addition, subtraction, multiplication, and division - such that students can focus on one arithmetic operation at a time. An introduction describes how parents and teachers can help students make the most of this workbook. A multiplication table is provided to help students who are just learning their multiplication facts.

PHOTOCOPIES The copyright notice permits parents/teachers who purchase one copy or borrow one copy from a library to make photocopies for their own children/students only. This is very convenient if you have multiple children/students or if a child/student needs additional practice.
