This book is written keeping in view revised syllabus and Question Pattern of UGC SET/NET Exams. The book contains question papers with immediate accurate solutions. Usually immediate and accurate solutions are not provided in any book, where students find it difficult to get clarity of the concept. Only providing answer keys at the end of the question paper doesn't

serve the purpose. I faced all these limitations when I have attempted these examinations. Various states also conduct their State Eligibility Test for determining the eligibility for Assistant Professor. Usually students find it difficult to get the material for their respective state level exam. I have qualified SET for seven different states including J&K, Maharashtra, Tamilnadu, Kerala, Karnataka, Telangana, and North Eastern Region. So, through these exams I got the understanding of how to incorporate specific needs of those respective states also. This book is an attempt to provide enough practice exercises to make the students perfect and confident before the exams. This book is For Teaching and Research aptitude Paper One. It consists of all types of questions and comprehensive syllabus of NET/SET Paper one. Proposed book by the author: The next book proposed by authors is "Commerce SET/NET-A Comprehensive Look". This book is the in-depth expertise of mine in the domain of Commerce. Self-Help to CBSE 10 Years Solved Question Papers Class 10 Oswaal Books and Learning Private Limited In this book I have tried to report the experimental research work conducted by me on the use of videos in developing oral expression of students. Language is a skill and it comprises of four skills eg. Listening, Speaking, Reading and Writing. Speaking is an expression skill and this could be developed when more and

more listening is given to students. Whenever I used to see videos on YouTube I always thought about developing speaking skills with the help of videos, as this is the medium through which the student not only listens the language but also visualize the things. As a member of CTE College we have to conduct projects under the centrally sponsored scheme, to conduct this project I decided to work on the topic which I always used to think about. I took up the topic and conducted an experimental study to develop (oral expression) speaking skill of students through using videos. This book is a report of the work done by me. It is a very small effort in the field of education but I believe that this book will be very useful for the teachers who are concerned for developing language skills of students. Same type of study could be conducted to develop other skills also. Teacher educators and planners could also use the implications of research while planning curriculum/materials for teachers and students. The ensuing pages of the work are the cumulative consequence of extensive work. Hence, I wish to acknowledge and express my personal gratitude to them without whom this work could not have been reality. I am highly grateful to the Principal of School, Teachers who helped me in conducting classes and Students on whom the study was conducted. I express my gratitude and indebtedness to all those video makers, writers and researchers whose work I have used in this study. My hearty thanks to my family members, friends and well

wishers due to their blessings I have been able to write this book.
