Ellen's stopped talking. She thinks she may have killed her dad. Her brother's barricaded himself in his room. Their mother, a successful actress, carries on as normal. We're a family of light! she insists. But darkness seeps in everywhere and in their separate worlds each of them longs for togetherness. Welcome to America is a scintillating portrait of a sensitive, strong-willed child and a young mind in the throes of trauma, a family on the brink of implosion, and the love that threatens to tear them apart. In 680 C.E., a small band of the Prophet Muhammads family and their followers, led by his grandson, Husain, rose up in a rebellion against the ruling caliph, Yazid. The family and its supporters, hopelessly outnumbered, were massacred at Karbala, in modern-day Iraq. The story of Karbala is the cornerstone of institutionalized devotion and mourning for millions of Shii Muslims. Apart from its appeal to the Shii community, invocations of Karbala have also come to govern mystical and reformist discourses in the larger Muslim world. Indeed, Karbala even serves as the archetypal resistance and devotional symbol for many non-Muslims. Until now, though, little scholarly attention has been given to the widespread and varied employment of the Karbala event. In *Reliving Karbala*, Syed Akbar Hyder examines the myriad ways that the Karbala symbol has provided inspiration in South Asia, home to the worlds largest Muslim population. Rather than a unified reading of Islam, Hyder reveals multiple, sometimes conflicting, understandings of the meaning of Islamic religious symbols like Karbala. He ventures beyond traditional, scriptural interpretations to discuss the ways in which millions of very human adherents express and practice their beliefs. By using a panoramic array of sources, including musical performances, interviews, nationalist drama, and other literary forms, Hyder traces the evolution of this story from its earliest historical origins to the beginning of the twenty-first century. Today, Karbala serves as a celebration of martyrdom, a source of

personal and communal identity, and even a tool for political protest and struggle. Hyder explores how issues related to gender, genre, popular culture, class, and migrancy bear on the cultivation of religious symbols. He assesses the manner in which religious language and identities are negotiated across contexts and continents. At a time when words like martyrdom, jihad, and Shiism are being used and misused for political reasons, this book provides much-needed scholarly redress. Through his multifaceted examination of this seminal event in Islamic history, Hyder offers an original, complex, and nuanced view of religious symbols.

Shared Margins tells of writers, writing, and literary milieus in Alexandria, Egypt's second city. It de-centres cosmopolitan avant-gardes and secular-revolutionary aesthetics that have been intensively documented and studied since 2011. Instead, it offers a fieldwork-based account of various

milieus and styles, and their common grounds and lines of division. Structured in two parts, Shared Margins gives an account of literature as a social practice embedded in milieus that at once enable and limit literary imagination, and of a life-worldly experience of plurality in absence of pluralism that marks literary engagements with the intimate and social realities of Alexandria after 2011. Literary writing, this book argues, has marginality as an at once enabling and limiting condition. It provides shared spaces of imaginary excess that may go beyond the taken-for-granted of a societal milieu, and yet are never unlimited. Literary imagination is part and parcel of such social conflicts and transformations, its role being neither one of resistance against power nor of guidance towards norms, but rather one of open-ended complicity.

A searing, beautiful novel meditating on war, violence, memory, and the sufferings of the Palestinian people. Finalist for the National Book Award Longlisted for the International Booker Prize Minor Detail begins during the summer of 1949, one year after the war that the Palestinians mourn as the Nakba—the catastrophe that led to the displacement and exile of some 700,000 people—and the Israelis celebrate as the War of Independence. Israeli soldiers murder an encampment of Bedouin in the Negev desert, and among their victims they capture a Palestinian teenager and they rape her, kill her, and bury her in the sand. Many years later, in the near-present day, a young woman in Ramallah tries to uncover some of the details surrounding this particular rape and murder, and becomes fascinated to the point of obsession, not only because of the nature of the crime, but

because it was committed exactly twenty-five years to the day before she was born. Adania Shibli masterfully overlays these two translucent narratives of exactly the same length to evoke a present forever haunted by the past. *Mourning* Springer Nature

An emblematic story of the shipwreck of the Arab Spring At his father's funeral, to the great consternation of all present, Abdel Nasser beats the imam who is celebrating the funeral rite. The narrator, a childhood friend of the protagonist, retraces the story of "the Italian" from his days as a free and rebellious adolescent spirit to the leader of a student movement and then affirmed journalist. Those were crucial years in Tunisia, years of great tension, change, and repression. Against this background full of revolutionary ferments stands the tormented love story between Abdel Nasser and Zeina, a brilliant and beautiful philosophy student. Their dreams will unfortunately end up being wrecked under the ruthless gears of a corrupt and chauvinist society. Abdel

Nasser's transformation from a young idealist with high hopes to a successful, but disillusioned and tired journalist is masterfully narrated in a stream of stories, digressions and flashbacks in which the narrative tension is always high. Mirza Asadullah Khan (1797–1869), popularly, Ghalib, is the most influential poet of the Urdu language. He is noted for the ghazals he wrote during his lifetime, which have since been interpreted and sung by different people in myriad ways. Ghalib's popularity has today extended beyond the Indian subcontinent to the Hindustani diaspora around the world. In this book, Gopi Chand Narang studies Ghalib's poetics by tracing the archetypal roots of his creative consciousness and enigmatic thought in Buddhist dialectical philosophy, particularly in the concept of shunyata. He underscores the importance of the Mughal era's Sabke Hindi poetry, especially through Bedil, whom Ghalib considered his mentor. The author also engages with Ghalib criticism that has flourished since his death and analyses the

important works of the poet, including pieces from early Nuskhas and Divan-e Ghalib, strengthening this central argument. Much has been written about Ghalib's life and his poetry. A marked departure from this dominant trend, Narang's book looks at Ghalib from different angles and places him in the galaxy of the great Eastern poets, stretching far beyond the boundaries of India and the Urdu language. *The Indus Saga and the Making of Pakistan* Other Press, LLC

In this poignant novel, a man guilty of a minor offense finds purpose unexpectedly by way of his punishment—reading to others. After an accident—or “the misfortune,” as his cancer-ridden father’s caretaker, Celeste, calls it—Eduardo is sentenced to a year of

community service reading to the elderly and disabled. Stripped of his driver’s license and feeling impotent as he nears thirty-five, he leads a dull, lonely life, chatting occasionally with the waitresses of a local restaurant or walking the streets of Cuernavaca. Once a quiet town known for its lush gardens and swimming pools, the “City of Eternal Spring” is now plagued by robberies, kidnappings, and the other myriad forms of violence bred by drug trafficking. At first, Eduardo seems unable to connect. He movingly reads the words of Dostoyevsky, Henry James, Daphne du Maurier, and more, but doesn’t truly understand them. His eccentric listeners—including two brothers, one mute, who moves his lips while the other acts as ventriloquist; deaf parents raising children they don’t know are hearing; and a beautiful, wheelchair-bound mezzo soprano—sense his detachment. Then Eduardo comes across a poem his father had copied by the Mexican poet Isabel Fraire, and it affects him as no literature has before. Through these fascinating characters, like the practical, quick-witted Celeste, who intuitively grasps poetry even though she never learned to read, Fabio Morábito shows how art can help us rediscover meaning in a corrupt, unequal society.

Things Springer Nature Weapons of the Weak is an ethnography by James C. Scott that studies the effects of the Green Revolution in rural Malaysia. One of the main objectives of the study is to make an argument that the Marxian and Gramscian ideas of false consciousness and hegemony are incorrect. He develops this conclusion throughout the book, through the different scenarios and characters that come up during his time of fieldwork in the village. This publication, based on 2 years of fieldwork (1978-1980), focuses on the local class relations in a small rice farming community of 70 households in the main paddy-growing area of Kedah in Malaysia. Introduction of the Green Revolution in 1976 eliminated 2/3 of the wage-earning opportunities for smallholders and landless laborers. The main ensuing class struggle is analyzed being the ideological struggle in the village and the practice of resistance itself consisting of: foot-dragging, dissimulation, desertion, false compliance, pilfering, feigned ignorance and sabotage acts. Rich and poor are engaged in an unremitting if silent struggle

to define changes in land tenure, mechanization and employment to advance their own interests, and to use values that they share to control the distribution of status, land, work and grain. Guide to Islamist Movements Springer Nature Accessible, informative, and easy to use, The Encyclopedia of Pakistan is a one volume compendium of information about Pakistan-its history, people, places, culture, heritage, politics, economics and much more. A distinctive group of 113 scholars and writers have contributed clear, concise, in-depth and scholarly entries on all aspects of the country. This book contains more than 1,000 entries in addition to fifteen feature essays which shed light on indigenous topics otherwise thought to be alien to Pakistan, like Dance, Puppetry, Visual Arts, etc. A Theory of ISIS Springer This work of research by Taj Hashmi puts the issue of women's position in society in historical as well as Islamic perspectives to relate it to the objective conditions in Bangladesh. In eight illuminating chapters, he narrates how Quranic edicts about women have through the ages been misinterpreted by the power elites and the mullahs to suppress women. Even NGOs are not immune

from exploiting them. Hope, according to the author, lies in the literacy and economic self-reliance of the Bangladeshi women. *No god but God: The Origins and Evolution of Islam* Institute for Ethical The book proves the absurdity of the Koran and the prophetship of Mohammed. It substantiates that the Koran is saturated with illogical and mendacious absurdities that cannot be believed. The goal of Mohammed was to gain power by pretending prophethood. He founded Islam by the dint of sword and prompted the nomads of Arabia to Islam by plundering the properties of those who rejected Islam. Thus, Islam is founded on the bases of terrorism and bloodshed. No one can disbelieve that Allah - the God of Islam - represents himself as a deceitful entity, an avenger, subduer, tyrant, killer, and so on. The verses of the Koran openly encourage Islamic followers to mercilessly kill non-Muslims. Allah also disavows pacifists, but promises to help those who fight in his name. Non-Muslims are unclean and should not be loved. Muslims who befriend infidels can no longer be considered Muslims. Opponents of Allah and His Apostle should be mutilated, executed, and crucified. Mohammed said, Paradise is under the shadow of swords.

Mohammed ordered his opponents to be murdered inhumanly. Allah permitted Mohammed to commit any crime against his opponents. In brief, the Koran is actually a manual for terrorism and Hadith is the terrorist manifesto of Islam.

This is the first comprehensive guide to today's most important, yet least understood transnational ideology -- political Islamism. The movement takes many forms, ranging from electoral participation to revolutionary terrorism and global jihad, and influences the politics of virtually every country around the globe. The guide examines the movement's diverse groups, ideas, and activities, including the beliefs, organizational structures, and interactions of the different groups. It focuses on thinkers and ideologies, movements and parties, and responding government policies and repression. The guide begins with two general essays. The first is an overview of contemporary Islamism that assesses its roots in the history of Islam and traces the rise of Islamist thought through the twentieth century to contemporary times. The second essay addresses the

concept of global jihad and jihadist movements, especially in relationship to terrorism, and provides background to the various groups and movements discussed in the book.

Following these introductions, sections are organized geographically and cover the areas of intense, and known, Islamist activity -- Sub-Saharan Africa, Asia, Australia and the Pacific, Central Asia, North Africa and the Middle East, Europe, and the Western Hemisphere. Essays within the sections examine specific countries and regions, and detail the groups and activities within these areas. The essays include detailed bibliographic information for further research.
