conflict, including European knights, Japanese samurai, Inca warriors, and the major clashes of World War I, World War II, the Cold War, the War on Terror, and so much more. This visual reference encyclopedia uses stunning photographs and supporting illustrations to trace the history of science from Ancient Greece, through the

major contributions of the Islamic world, the Scientific Revolution, the Space Race, and on to modern technology. The arts, religions, and ideas are also showcased, from Australian Aboriginal Dreamtime, the Renaissance, and Greek drama to the origins of major world religions, such as Christianity and Buddhism. Explanatorium of History is the ultimate

visual encyclopedia for kids ages 10-14, telling the story of "us," from the dawn of human history up to the present. Behind the Scenes at the Science Museum Anchor Surrealism Beyond Borders challenges conventional narratives of a revolutionary artistic, literary, and philosophical movement. Tracing Surrealism's influence and legacy from the 1920s to the late 1970s in places as geographically diverse as Colombia, Czechoslovakia,

Egypt, Japan, Korea, Mexico, the Philippines, Romania, Syria, Thailand, and Turkey, this publication includes more than 300 works of art in a variety of media by well-known figures—including Dal í , Ernst, Kahlo, Magritte, and Mir ó —as well as numerous artists who are less widely known. Contributions from more than forty distinguished international scholars explore the network of Surrealist exchange and collaboration, artists' responses to the challenges of social and political unrest, and the

experience of displacement and exile in the twentieth century. The multiple narratives addressed in this expansive book move beyond the borders of history, geography, and nationality to provocatively redraw the map of Surrealism. Dry Storeroom No. 1 Behind the Scenes at the Museum A Novel “ Only someone who deeply loves and understands the Metropolitan Museum could deliver such madcap, funny, magical, tender, intimate fables and stories. ” —Maira Kalman, artist and bestselling author of

The Principles of Uncertainty From a writer who worked at the Metropolitan Museum for more than twenty-five years, an enchanting novel that shows us the Met that the public doesn't see. Hidden behind the Picassos and Vermeers, the Temple of Dendur and the American Wing, exists another world: the hallways and offices, conservation studios, storerooms, and cafeteria that are home to the museum's devoted and peculiar staff of 2,200 people—along with a few ghosts. A surreal love letter to this private side of the Met, Metropolitan Stories

unfolds in a series of amusing and poignant vignettes in which we discover larger-than-life characters, the downside of survival, and the powerful voices of the art itself. The result is a novel bursting with magic, humor, and energetic detail, but also a beautiful book about introspection, an ode to lives lived for art, ultimately building a powerful collage of human experience and the world of the imagination.

Behind the Scenes at the Museum David R. Godine

What goes on behind closed doors at museums? How

are decisions about exhibitions made and who, or what, really makes them? Why are certain objects and styles of display chosen whilst others are rejected, and what factors influence how museum exhibitions are produced and experienced? This book answers these searching questions by giving a privileged look behind the scenes at the Science Museum in London. By tracking the history of a particular exhibition, Macdonald takes the reader into the world of the

museum curator and shows in vivid detail how exhibitions are created and how public culture is produced. She reveals why exhibitions do not always reflect their makers original intentions and why visitors take home particular interpretations. Beyond this local context, however, the book also provides broad and far-reaching insights into how national and global political shifts influence the creation of public knowledge through exhibitions. University of Chicago Press
Take an exclusive backstage tour of the world's most exciting museums and discover their hidden treasures. This behind-the-scenes guide showcases a huge range of incredible artifacts from history and reveals the hard work, care, and effort that goes into collecting, preserving, and storing them. Ever wondered what happens to an astronaut's space suit after it's been worn on the Moon? Or how the world's most valuable diamond is looked after? Find out all about how museums work and the people who make it happen--from historians preserve and care for Anne Frank's diary to what it takes for an archaeologist and curator to excavate and exhibit an enormous woolly mammoth skeleton. You'll even find out about the bugs and pests that museum workers have to guard against to protect the future of history's most precious

artifacts. Behind the Scenes at the Museum gives the reader exclusive access to hidden objects that aren't normally on public display. It lets you into a world of animal specimens pickled and preserved in jars, priceless gems and jewelry too valuable to be on display, and fragile

documents and techniques, fabrics that must be kept in carefully controlled conditions. Along the way, you'll learn about the techniques and processes that keep these objects in good condition, preserved and safe for future generations. Filled with incredible images, step-by-step explanations of exciting

and job profiles of the people who make it happen, Behind the Scenes at the Museum offers unique, behind-the-curtain access to the secret delights of the world's most interesting museums. **The Boston Raphael** Vintage The mystery of what lies behind a museum's closed doors has intrigued

visitors and perpetuated museum mythology for decades. Whether it's peeking into collections storage, or being guided through rooms off the exhibition floor, visitors want unique access to museum collections. This Master's Capstone project investigates the topic of behind-the-scenes tours within museums, asks what they look like today, and how they will develop in the future. Using this research I have created a

project proposal to film a behind-the-scenes tour that will solve questions of public visibility and collection access for a San Francisco area history museum. A successful implementation of this project will enable organizations and museums to engage with their audiences in a profound new way. *A Novel* Routledge The #1 New York Times Bestseller (October 2017) from the author of *The Da Vinci*

Code. Robert Langdon, Harvard professor of symbology, arrives at the ultramodern Guggenheim Museum Bilbao to attend the unveiling of a discovery that "will change the face of science forever." The evening's host is Edmond Kirsch, a forty-year-old billionaire and futurist, and one of Langdon's first students. But

the meticulously orchestrated evening suddenly erupts into chaos, and Kirsch's precious discovery teeters on the brink of being lost forever. Facing an imminent threat, Langdon is forced to flee. With him is Ambra Vidal, the elegant museum director who worked with Kirsch. They travel to Barcelona on a perilous

quest to locate a cryptic password that will unlock Kirsch's secret. Navigating the dark corridors of hidden history and extreme religion, Langdon and Vidal must evade an enemy whose all-knowing power seems to emanate from Spain's Royal Palace. They uncover clues that ultimately bring them face-to-face with Kirsch's shocking

discovery...and the breathtaking truth that has long eluded us.

from our museums? In doing so, it offers enjoyable insights, which will add depth to our future visits through the front door (which is usually closed on Mondays) and will make us question what is shown, why it's shown where (and how) it is, what's written about it and how the interaction between museums and their

designers has encouraged each to change. The Secret Museum Abrams Published to celebrate The Metropolitan Museum of Art's 150th anniversary, Making The Met, 1870-2020 examines the institution's evolution from an idea—that art can inspire anyone who has access to it—to one of the most

beloved global collections in the world. Focusing on key transformational moments, this richly illustrated book provides insight into the visionary figures and events that led The Met in new directions. Among the many topics explored are the impact of momentous acquisitions , the

central importance of education and accessibility, the collaboration that resulted from international excavations, the Museum's role in preserving cultural heritage, and its interaction with contemporary art and artists. Complementing this fascinating history are more than

two hundred works that changed the very way we look at art, as well as rarely seen archival and behind-the-scenes images. In the final chapter, Met Director Max Hollein offers a meditation on evolving approaches to collecting art from around the world, strategies for reaching new and diverse

audiences, and the role of museums today. **The Secret Life of the Natural History Museum** St. Martin's Press Museum lovers know that energy and mystery run through every exhibition. Steven Lubar explains work behind the scenes—collecting, preserving, displaying, and using art and artifacts in

Scenes at the British Museum Harvard University Press Smithsonian's National Museum of African American History and Culture is truly groundbreaking The first national museum whose mission is to illuminate for all people, the rich, diverse, complicated, and important experiences and contributions of African

Americans in America is opening. And the history of NMAAHC--the last museum to be built on the National Mall--is the history of America. The campaign to set up a museum honoring black citizens is nearly 100 years old; building the museum itself and assembling its incredibly far-reaching collections is a modern

story that involves all kinds of people, from educators and activists, to politicians, architects, curators, construction workers, and ordinary Americans who donated cherished belongings to be included in NMAAHC's thematically-organized exhibits. Award-winning author Tonya Bolden has written a fascinating chronicle of how all of these ideas, ambitions,

and actual objects came together in one incredible museum. Includes behind-the-scenes photos of literally "how to build a museum" that holds everything from an entire segregated railroad car to a tiny West African amulet worn to ward off slave traders. **The Routledge Companion to Media and Tourism** DK Children How do you keep the

cracks in Starry Night from spreading? How do you prevent artworks made of hugs or candies from disappearing? How do you render a fading photograph eternal—or should you attempt it at all? These are some of the questions that conservators, curators, registrars, and exhibition designers dealing with contemporary art face on a daily basis. In *Still Life*, Fernando Domínguez Rubio delves into one of the most important museums of the world, the Museum of Modern Art (MoMA) in New York, to explore the day-to-day dilemmas that museum workers face when the immortal artworks that we see in the exhibition room reveal themselves to be slowly unfolding disasters. *Still Life* offers a fascinating and detailed ethnographic account of what it takes to prevent these disasters from happening. Going behind the scenes at MoMA, Domínguez Rubio provides a rare view of the vast technological apparatus—from climatic infrastructures and storage facilities, to conservation labs and machine rooms—and teams of workers—from conservators and engineers to guards and couriers—who fight to hold artworks still. As MoMA reopens after a massive expansion and rearranging of its space and collections, *Still Life* not only offers a much-needed account of the spaces, actors, and forms of labor
