Does music make kids
smarter? At what age
should a child begin
music lessons? Where
should you purchase an

instrument? What should parents expect from a child's teachers and lessons? How can you get kids to practice? Raising Musical Kids answers these and many other questions as it guides parents through everything from assembling a listening library for kids, to matching a child's personality with an instrument's personality, to finding musical resources in your community. Knowing that children can—and often do—get most of their music education from their school, parent and educator Robert Cutietta explores the features and benefits of elementary and secondary school programs, and shows how parents can work with the schools to provide the best possible music program. Throughout the book, Cutietta emphasizes the joy of participating in music for its own sake. The first edition of Raising Musical Kids delighted and informed parents to equal degrees, and this fully-revised second edition is a book that parents everywhere will treasure as a complete road map for developing their child's musical abilities.

Now in its sixth edition, *Managing Your Band* has long since been the standard bearer for aspirants and hardened vets alike. From dive bars to festivals, from branding and merchandising to

marketing and publicity, from publishing and licensing to rights and contracts, Marcone and Philp leave no stone unturned in this comprehensive guide to artist management. A lofty claim, eh? No need to take our word for it luminaries in every corner of the industry are willing to testify. To put it mildly, the book has a reputation with record labels. John Butler, Vice President of Promotion at Curb, believes that "Marcone and Philp take on our ever-changing business with a fresh and complete approach. The breadth of information here is as important to veterans as it is to the new entrepreneurs that will

power the current and next versions of the music industry." Paul Sinclair, the EVP of Digital Strategy & Innovation at Atlantic, attests that "the 6th edition of *Managing Your Band* provides an excellent blueprint to follow paths of flexibility and specificity toward a successful career in music. In this book, you find the framework. Implement it well and you have a better shot of finding success with your musical art." Joe Riccitelli, the EVP/GM of RCA, considers the book "a must for new and established managers who may need a brush-up on topics they have forgotten," as "Stephen's & David's vast experience pays off in the 6th

edition." Hell, this is "the only book" music mogul Harvey Leeds "took to Israel to teach the Israelis about the international music and entertainment business!" In the end, we think Doc McGhee, the man who whisked Bon Jovi and Motley Crue to superstardom, says it best: "I wish I had something like this when I was starting out!" What more can we say? Pick up the latest edition of *Managing Your Band* and chase that wild dream!

International migration and urbanization as economic processes can provide great opportunities to solve local and regional economic and social problems and lead to the leveling of global economic unfairness and multi-complexity. However, uncontrolled migration and urbanization can easily destroy market stability and create many new social and economic problems both in developed (due to migration) and developing

(due to urbanization) countries. Migration and Urbanization: Local Solutions for Global Economic Challenges is a collection of innovative research that sets basic rules and patterns for state regulation of urbanization and international migration and for increasing the economic efficiency of developed and developing countries. Additionally, the book evaluates the economic impact of urbanization and international migration at the global, national, and regional

levels. While highlighting topics including economic security, modern mechanisms, and migration policy, this book is ideally designed for government officials, economists, educators, policymakers, industry leaders, business managers, academicians, researchers, and students.
