*Mx 13 Engine Egr Cooler*  
PACCAR MX-13 engines The 12.9 litre Euro 6 PACCAR MX-13 engine uses ultra-modern common rail technology, a turbo with variable geometry and advanced controls for maximum efficiency. In order to comply with the strict Euro 6 emissions requirements, it features exhaust gas recirculation, together with SCR technology and an active soot filter.

connector at the EGR valve so you don't get full temp exhaust gases into your intake. I have been driving around with this setup for a week now while I await my new cooler from England. the only issue is a slower warm up and an engine light indicating an improper potentiometer signal due to disconnecting the EGR valve.
