Why we need to stop wasting public funds on education Despite being immensely popular—and immensely lucrative—education is grossly overrated. Now with a new afterword by Bryan Caplan, this explosive book argues that the primary function of education is not to enhance students' skills but to signal the qualities of a good employee. Learn why students hunt for easy As only to forget most of what they learn after the final exam, why decades of growing access to education have not resulted in better jobs for average workers, how employers reward workers for costly schooling they rarely ever use,

and why cutting education spending is the best remedy. Romantic notions about education being "good for the soul" must yield to careful research and common sense—The Case against Education points the way.

• From the author of *Uprooted* and *Spinning Silver* comes the first book of the Scholomance trilogy, the story of an unwilling dark sorceress who is destined to rewrite the rules of magic. FINALIST FOR THE LODESTAR AWARD • “The dark school of magic I’ve been waiting for.” —Katherine Arden, author of the *Winternight Trilogy* I decided that

Orion Lake needed to die after the second time he saved my life. Everyone loves Orion Lake. Everyone else, that is. Far as I ' m concerned, he can keep his flashy combat magic to himself. I ' m not joining his pack of adoring fans. I don ' t need help surviving the Scholomance, even if they do. Forget the hordes of monsters and cursed artifacts, I ' m probably the most dangerous thing in the place. Just give me a chance and I ' ll level mountains and kill untold millions, make myself the dark queen of the world. At least, that ' s what the world expects. Most of the other students in here would be delighted

if Orion killed me like one more evil thing that ' s crawled out of the drains. Sometimes I think they want me to turn into the evil witch they assume I am. The school certainly does. But the Scholomance isn ' t getting what it wants from me. And neither is Orion Lake. I may not be anyone ' s idea of the shining hero, but I ' m going to make it out of this place alive, and I ' m not going to slaughter thousands to do it, either. Although I ' m giving serious consideration to just one. With flawless mastery, Naomi Novik creates a school bursting with magic like you ' ve never seen before, and a heroine for the ages—a character so

sharply realized and so richly nuanced that she will live on in hearts and minds for generations to come. The magic of the Scholomance trilogy continues in *The Last Graduate* “The can’t-miss fantasy of fall 2020, a brutal coming-of-power story steeped in the aesthetics of dark academia. . . . A Deadly Education will cement Naomi Novik’s place as one of the greatest and most versatile fantasy writers of our time.” —BookPage (starred review) “A must-read . . . Novik puts a refreshingly dark, adult spin on the magical boarding school. . . . Readers will delight in the push-and-pull of El and Orion’s relationship,

the fantastically detailed world, the clever magic system, and the matter-of-fact diversity of the student body.” —Publishers Weekly (starred review)

A compelling story of a mad bomber, a suspect scientist, and paranoia in the age of terror from the National Book Award-winning author of *Trust Exercise* and *My Education Professor* Lee, an Asian-born mathematician near retirement age would seem the last person to attract the attention of FBI agents. Yet after a colleague becomes the latest victim of a serial bomber, Lee must endure the undermining power of suspicion and face the ghosts of his past. With its propulsive drive, vividly realized characters, and profound observations about

soul and society, Pulitzer Prize-finalist Susan Choi's third novel is as thrilling as it is lyrical, and confirms her place as one of the most important novelists chronicling the American experience. Intricately plotted and psychologically acute, *A Person of Interest* exposes the fault lines of paranoia and dread that have fractured American life and asks how far one man must go to escape his regrets.

I am an optometrist. I owned a very traditional medical, white coat practice in Pittsburgh, Pennsylvania near the University of Pittsburgh for 10 years. I became bored and uninspired in this vanilla business environment and sterile space. Feeling restless, I sold my

practice and began the search for a new place to start a fresh concept in optometry. I found Frederick, Maryland, which is a historic, walkable little city that tops the triangle with DC and Baltimore. I relocated to a new town, in a new state with a brand new practice - Unique Optique. I was an outsider and a transplant, trying to win Frederick's trust and convince the residents of this town to come to my practice to spend money on high-end glasses. To accomplish this feat, I decided that I needed to show our authenticity, exude genuine sincerity, and smile through adversity. I embraced my flaws; I was vulnerable and real. I used social media, in-house events and the decor of the office to display the

---

business's personality. People instantly related to the practice. They saw that I was not perfect, but I was earnest and that I truly cared. I was proud of my venture. Unique Optique's reviews were stellar and real. The practice grew steadily and by the end of the first year, I was recognized as the Start Up Entrepreneur of Frederick County. Soon, I had requests from business owners and entrepreneurs to come and visit the practice and discuss our unique image strategies. People wanted this quality for their own businesses. I realized that I had helpful and valuable information and put my techniques down on paper. While developing my brand and marketing my business, I have made

mistakes, learned from them, and attempted to fix them. I have worked through adversity and difficulties. In the end, I cultivated a brand to which people could relate. This is my experience. I hope it helps you find your Unique Technique."

In 1848 Karl Marx published his infamous pamphlet, *The Communist Manifesto*. In this pamphlet Marx outlined the basic principles of Communism as well as the goals to be achieved in establishing Communism in a targeted nation. In 1932 William Z. Foster, the National Chairman of the Communist Party, USA, published his book, *Toward Soviet America*. In his book Foster revealed the Communist plan to build a Soviet

America, or an American version of the Soviet Union. Foster provided the reader with a general plan along with many specific details. In 1958 former FBI agent W. Cleon Skousen published his book, *The Naked Communist*. In his 1962 edition Skousen listed 45 goals Communists planned to achieve in building a Communist America. This book, *Welcome To Soviet America: Special Edition*, explores the alarming extent to which many of the goals outlined by Karl Marx, William Z. Foster, W. Cleon Skousen - and others - have been achieved in the America that was once described as "the land of the free and the home of the brave!"

**My Overdue Book: Too many stories not to tell:** spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. Building Equitable STEM Transfer Pathways is the first book of its kind to provide a detailed, on-the-ground examination of the difficult paths--curricular, interpersonal, and institutional--that students must chart through community college. The book follows 1,670 two-year college students over four years as they begin STEM programs in the Midwest and documents their educational and life experiences as they moved toward, or away, from the prospect of transfer to a four-year institution. Their stories reveal that they were on their own, left to navigate the pathways to transfer without meaningful institutional support. The students pursued one of four pathways, or momentum trajectories: linear upward, detoured, deferred, or taking a break. The preexisting and lasting disparities in their access to education and financial resources, their experiences with teaching and advising, and the conundrum between support from and for family, among others, propelled them onto different trajectories in their quest for transfer. As this book makes painfully clear, the current state of transfer acts as a mechanism that perpetuates and worsens inequities in educational outcomes. As Xueli Wang argues, to cultivate an equitable STEM transfer pathway, culturally relevant and responsive supports that are accessible, welcoming, and validating must be put in place at the institutional level and appeal to the talent, motivation, and unique needs of historically marginalized students. In doing so, two-year colleges will be better positioned to fulfill their promise as an equitable pathway to bachelor's degrees and beyond.

with a surfeit of idealism, a handful of old ER episodes for reference, and some vague notion about "helping people." This *Won't Hurt a Bit* is the story of how she grew up and became a real doctor. It's a no-holds-barred account of what a modern medical education feels like, from the grim to the ridiculous, from the heartwarming to the obscene. Unlike most medical memoirs, however, this one details the author's struggles to maintain a life outside of the hospital, in the small amount of free time she had to live it. And, after she and her husband have a baby early in both their medical residencies, Au explores the demands of being a parent with those of a physician, two all-consuming jobs in which the lives of others are very literally in her hands. Au's stories range from hilarious to heartbreaking and hit every note in between, proving more than anything that the creation of a new doctor (and a

new parent) is far messier, far more uncertain, and far more gratifying than one could ever expect.

Life is full of tough calls and daunting decisions. The question isn't if you'll face a big decision in the future, but how you'll face the tough call that's guaranteed to come your way. Think about it. There are wedding proposals to ponder, college applications to submit, career moves to make, homes to sell, and confrontations to consider. And, knowing how poorly things could go, we sometimes find ourselves facing these decisions with a deep fear of future regret. The pressure is on. Or is it? Short and straightforward, yet full of practical insight and spiritual truths, *Tough Call*, will help you see that the Christian faith offers a mindset to

---

confidently and joyfully make your next big decision. More importantly you'll see that you can face life with your fears recognized, your peace maximized, and your hope anchored in something greater than your ability to "get it right." Readers familiar with authors like Acuff, Chan, and Tchividjian will resonate with Matt Popovits's witty, practical, and gospel-centered take on complicated topics. Tough Call is an enjoyable and essential read for any and all facing a major decision. Educated Harvard Education Press An intimately charged novel of desire and disaster from the National Book Award-winning author of Trust Exercise and A Person of Interest Regina Gottlieb had been warned about Professor Nicholas Brodeur long before arriving as a graduate student at

his prestigious university high on a pastoral hill. He 's said to lie in the dark in his office while undergraduate women read couplets to him. He 's condemned on the walls of the women 's restroom, and enjoys films by Roman Polanski. But no one has warned Regina about his exceptional physical beauty—or his charismatic, volatile wife. My Education is the story of Regina 's mistakes, which only begin in the bedroom, and end—if they do—fifteen years in the future and thousands of miles away. By turns erotic and completely catastrophic, Regina 's misadventures demonstrate what can happen when the chasm between desire and duty is too wide to bridge. The Education of Millionaires St. Martin's Press Turning This Thing Around is an inspiring

---

memoir of overcoming personal struggles. This brutally honest, deeply personal account of redemption takes readers on a moving spiritual journey. Confronted with a myriad of obstacles – a debilitating arthritic disease, narcolepsy, anxiety and depression – the author was outwardly happy, but inwardly miserable. Pushed to the lowest point of his life, Maginn shares how he gradually turned things around and used his experiences to grow as a person. Supplemented by heartfelt poetry by the author and with quotes from Gandhi to Dr. Wayne Dyer to Eckhart Tolle, *Turning This Thing Around* has universal themes that speak to nearly everyone, as we all must face challenges as part of being human. It is a self-help memoir of sorts: the author discusses not only what he overcame, but also how he did so – and how others can, too. Unlike many popular memoirs

on the market, this is a story that more people can relate to. Maginn was not raised in an eccentric family (Jeannette Walls in *The Glass Castle*, memoirs by Augusten Burroughs), nor did he travel to Italy, India and Indonesia, as Elizabeth Gilbert did in *Eat, Pray, Love*. Rather, *Turning This Thing Around* is a story of a normal young man's resiliency when battling extraordinary circumstances.

*Tough Call Del Rey*

An essential book for parents to help their children get the education they need to live happy, productive lives from The New York Times bestselling author of *The Element* and *Creative Schools* Parents everywhere are deeply concerned about the education of their children, especially now, when education has become a minefield of politics and controversy. One of the world's most influential educators, Robinson has had countless conversations with parents about the dilemmas they face. As a

---

parent, what should you look for in your children's education? How can you tell if their school is right for them and what can you do if it isn't? In this important new book, he offers clear principles and practical advice on how to support your child through the K-12 education system, or outside it if you choose to homeschool or un-school. Dispelling many myths and tackling critical schooling options and controversies, *You, Your Child, and School* is a key book for parents to learn about the kind of education their children really need and what they can do to make sure they get it.

What happens when a young Wall Street investment banker spends a small fortune to have lunch with Warren Buffett? He becomes a real value investor. In this fascinating inside story, Guy Spier details his career from Harvard MBA to hedge fund manager. But the path was not so straightforward. Spier

reveals his transformation from a Gordon Gekko wannabe, driven by greed, to a sophisticated investor who enjoys success without selling his soul to the highest bidder. Spier's journey is similar to the thousands that flock to Wall Street every year with their shiny new diplomas, aiming to be King of Wall Street. Yet what Guy realized just in the nick of time was that the King really lived 1,500 miles away in Omaha, Nebraska. Spier determinedly set out to create a new career in his own way. Along the way he learned some powerful lessons which include: why the right mentors and partners are critical to long term success on Wall Street; why a topnotch education can sometimes get in the way of your success; that real learning doesn't begin until you are on your own; and how the best lessons from

---

Warren Buffett have less to do with investing and more to do with being true to yourself. Spier also reveals some of his own winning investment strategies, detailing deals that were winners but also what he learned from deals that went south. Part memoir, part Wall Street advice, and part how-to, Guy Spier takes readers on a ride through Wall Street but more importantly provides those that want to take a different path with the insight, guidance, and inspiration they need to carve out their own definition of success.
