"An extraordinary saga." --David Grann, New York Times bestselling author of Killers of the Flower Moon The mesmerizing account of a granddaughter's search for a World War II family history hidden for sixty years Growing up in Paris as the daughter of a German mother and an Irish father, Svenja O'Donnell knew little of her family's German past. All she knew was that her great-grandparents, grandmother, and mother had fled their home city of Königsberg near the end of World War II, never to return. But everything changed when O'Donnell traveled to the city--now known as Kaliningrad, and a part of Russia--and called her grandmother, who uncharacteristically burst into tears. "I have so much to tell you," Inge said. In this transporting and illuminating book, the award-winning journalist vividly reconstructs the story of Inge's life from the rise of the Nazis through the brutal postwar years, from falling in love with a man who was sent to the Eastern Front just after she became pregnant with his child, to spearheading her family's flight as the Red Army closed in, her young daughter in tow. Ultimately, O'Donnell uncovers the act of violence that separated Inge from the man she loved; a terrible secret hidden for more than six decades. A captivating World War II saga, Inge's War is also a powerful reckoning with the meaning of German identity and inherited trauma. In retracing her grandmother's footsteps, O'Donnell not only discovers the remarkable story of a woman caught in the gears of history, but also comes face to face with her family's legacy of neutrality and inaction--and offers a rare glimpse into a reality too long buried by silence and shame.

One of the most surprising and controversial social debates of the past two decades has been about the meaning and importance of marriage and the family in contemporary American life. Referred to by some as a culture "war over the family," the debate has pitted those concerned about the weakening of the traditional married-parent nuclear family, especially in its impact on children, against those arguing that nothing has gone wrong with families--that they are merely "diversifying." David Popenoe has been one of the most influential figures in laying out for a wide audience the importance of "family decline," and what it means for our children, our society, and our future.

Writers have been writing about war since the siege of Troy, but few, if any, have captured the first-person experience of war as deeply as *My Vietnam War*. Set in 1967 (the deadliest year of the Vietnam War), this memoir-style novel depicts the psychological journey of a young man whose carefree days of studying philosophy at the university are ended by the draft. The story follows him from his initial rear-echelon assignment in Saigon, where he falls for a mysterious storytelling bar girl, to his eventual posting at an isolated front-line firebase in one of the deepest parts of the Vietnam jungle. While recovering from a leg wound (he is hit by a piece of bone from a fellow soldier who stepped on a booby trap mine), he becomes the assistant medic and sees the horrors of war close up. The experience begins his steady spiral down into PTSD. After he is seriously wounded, he ends up back in Saigon where, after an old friend from Arizona gets him involved in the underground drug trade, the mysterious bar girl may be his only hope for salvation. It is a powerful story, well-written, with vivid detail that you will never forget.

The War that Saved My Life Zondervan

An award-winning author and poet traces the history of his relatives lost in the Holocaust in a personal, powerful narrative with resonance for readers today. "They were there at the beginning of the war, but they were gone by the end. I suppose they died in the camps." That's all young Michael Rosen, born in England just after the end of the Second World War, was told about the six great-aunts and great-uncles who had been living in Poland or France at the beginning of that war. This wasn't enough for him. So, as an adult, he started to search. He asked relatives for any papers they might have. He read book after book. He searched online, time and again, as more information was digitized and suddenly there to be found. In a unique mix of memoir, history, and poetry, scholar and children's literature luminary Michael Rosen explores his family history, digging up more details than he ever thought he would and sharing them with readers so that now, a lifetime after the Nazis tried to make the world forget the Rosen family and the rest of Europe's Jews, his readers can do something essential: remember. With an extensive list of titles for further reading, maps of France and Poland, a family tree, and an introduction by lauded author and anthologist Marc Aronson, this immensely readable narrative offers a vital tool for talking to children about the Holocaust against the background of the ongoing refugee crisis.

The War Against the Family Penguin

"A brutally real and unrelentingly raw memoir."--Kirkus (starred review) War photographer Lynsey Addario's memoir *It's What I Do* is the story of how the relentless pursuit of truth, in virtually every major theater of war in the twenty-first century, has shaped her life. What she does, with clarity, beauty, and candor, is to document, often in their most extreme moments, the complex lives of others. It's her work, but it's much more than that: it's her singular calling. Lynsey Addario was just finding her way as a young photographer when September 11 changed the world. One of the few photojournalists with experience in Afghanistan, she gets the call to return and cover the American invasion. She makes a decision she would often find herself making--not to stay home, not to lead a quiet or predictable life, but to set out across the world, face the chaos of crisis, and make a name for herself. Addario finds a way to travel with a purpose. She photographs the Afghan people before and after the Taliban reign, the civilian casualties and misunderstood insurgents of the Iraq War, as well as the burned villages and countless dead in Darfur. She exposes a culture of violence against women in the Congo and tells the riveting story of her headline-making kidnapping by pro-Qaddafi forces in the Libyan civil war. Addario takes bravery for granted but she is not fearless. She uses her fear and it creates empathy; it is that feeling, that empathy, that is essential to her work. We see this clearly on display as she interviews rape victims in the Congo, or photographs a fallen soldier with whom she had been embedded in Iraq, or documents the tragic lives of starving Somali children. Lynsey takes us there and we begin to understand how getting to the hard truth trumps fear. As a woman photojournalist determined to be taken as seriously as her male peers, Addario fights her way into a boys' club of a profession. Rather than choose between her personal life and her career, Addario learns to strike a necessary balance. In the man who will become her husband, she finds at last a real love to complement her work, not take away from it, and as a new mother, she gains an all the more intensely personal understanding of the fragility of life. Watching uprisings unfold and people fight to the death for their freedom, Addario understands she is documenting not only news but also the fate of society. *It's What I Do* is more than just a snapshot of life on the front lines; it is witness to the human cost of war.

The Family War Wendy Lamb Books

Married . . . with Children premiered on Fox TV in 1987 and updated the Don Ameche and Frances Langford radio comedy series, *The Bickersons*, and Jackie Gleason's TV classic, *The Honeyymooners*, with a raunchy, cutting-edge slant that focused on a lovable yet laughable family headed by endearingly flawed Al (Ed O'Neill), his housework-hating wife, sexy daughter, and randy son. For 11 seasons, the brilliant team of talent put the funk in dysfunctional. Rediscover the exhilarating humor and intellectual excitement in Denise Noe's first book. She delves behind-the-scenes with Michael Moye, Ron Leavitt, Ed O'Neill, Katey Sagal, Christina Applegate, David Faustino, David Garrison, Amanda Bearse, E. E. Bell, and Ritch Shydney. You'll be fascinated by the story of how two rogue writers created a deliberately off-the-wall program; how it almost got derailed before production began; how a controversy could have plucked the series off the air but ended up injecting a much needed shot in the arm; how a reality-based show occasionally--and courageously--ventured into comedy with a fantasy, horror, and/or science fiction spin. The War After Little, Brown

Believing it is high time for someone to speak out in defense of the family, William Gairdner, the author of *The Trouble with Canada*, has turned his attention to what he calls the "civil war of values" that is weakening the soul of the family in Canada. Among his findings: Traditional marriage is being demoted in our children's textbooks as only one choice among many types of "family" relationships; Massive funding is given to radical lobby groups devoted to destroying the family, while those supporting it go begging; "Sex education," at one time the concern of families, has become the property of "sexologists" and peer groups; The mainline churches have abandoned souls for political causes and pagan theories; The law and the courts of the land are decimating the traditional privileges of the family in the name of individual "rights." In writing that is vigorous and compelling, Gairdner traces the war against the family to a political ideology springing from Plato, Rousseau, and a utopian liberalism that has become a caricature of itself, everywhere promoting rights but forgetting duties. Powered by this ideology, the modern State, eager for votes and hostile to freedom, effectively weakens the family unit, which it sees as a bastion of privacy, privilege, and authority. In *The War Against the Family*, Gairdner throws down the gauntlet, forcing into the open a much-needed debate about the future of the family in Western societies. The family of today and future generations are sure to benefit. - Jacket flap.
