From the author of *Models Don't Eat Chocolate Cookies* comes a middle grade novel hailed by Linda Urban as “A perfect blend of laugh out loud funny and real-world heart.” Elsie Wyatt wants to be an orchestra superstar, like her dad and grandfather. The first step? Get into a super-selective summer music camp. In order to

qualify, Elsie must “expand her musical horizons” by joining her high school’s marching band. Not only does this mean wearing a plumed hat and polyester pants, but it also means she can’t play her own instrument, can’t sit down, and can’t seem to say the right thing to anyone...let alone Jake, the cute trumpet player she meets on the first day. Plus, everything she does seems to cause a disaster. Surviving marching band is going to be way harder than Elsie thought. For fans of funny, realistic, every-girl novels like Wendy Mass’s *13 Gifts* and Lisa Greenwald’s *My Life in Pink & Green*. “It has humor, heart, and a touch of romance that will provide ample fodder for booktalks.”—School Library Journal “Marching-band kids everywhere will enjoy this believable celebration of a life-changing, musical rite of passage.”—Kirkus

“People like myself, who truly feel at home in several countries, are not strictly at home anywhere,” writes Abraham Pais, one of the world’s leading theoretical physicists, near the beginning of this engrossing chronicle of his life on two continents. The author of an immensely popular biography of Einstein, *Subtle Is the Lord*, Pais writes engagingly for a general audience. His “tale” describes his period of hiding in Nazi-occupied Holland (he ended the war in a Gestapo prison) and his life in America, particularly at the newly organized Institute for Advanced Study in Princeton, then directed by the brilliant and controversial physicist Robert Oppenheimer. Pais tells fascinating stories about Oppenheimer, Einstein, Bohr, Sakharov, Dirac, Heisenberg, and von Neumann, as well as about nonscientists like Chaim Weizmann, George Kennan, Erwin Panofsky, and Pablo Casals. His enthusiasm about science and life in general pervades a book that is partly a memoir, partly a travel commentary, and partly a history of science. Pais’s charming recollections of his years as a university student become somber with the German invasion of the Netherlands in 1940. He was presented with an unusual deadline for his graduate work: a German decree that July 14, 1941, would be the final date on which Dutch Jews could be granted a doctoral degree. Pais received the degree, only to be forced into hiding from the Nazis in 1943, practically next door to Anne Frank. After the war, he went to the Institute of Theoretical Physics in Copenhagen to work with Niels Bohr. 1946 began his years at the Institute for Advanced Study, where he worked first as a Fellow and then as a Professor until his move to Rockefeller University in 1963. Combining his understanding of disparate social and political worlds, Pais comments just as insightfully on Oppenheimer’s ordeals during the McCarthy era as he does on his own and his European colleagues’ struggles during World War II. A novel that describes, with devastating, darkly comic clarity, its narrator’s experience of being diagnosed with AIDS. First published by Gallimard in 1990, *To the Friend Who Did Not Save My Life* describes, with devastating, darkly comic clarity, its narrator’s experience of being diagnosed with AIDS. Guibert chronicles three

months in the penultimate year of the narrator's life as, in the wake of his friend Muzil's death, he goes from one quack doctor to another, describing the progression of the disease and recording the reactions of his many friends. The novel scandalized the French media, which quickly identified Muzil as Guibert's close friend Michel Foucault. To the Friend became a bestseller, and Guibert a celebrity. Guibert continued to document the daily experiences of his body in a series of novels and diaries, mostly published posthumously. To the Friend has since attained a cult following for its intimate and candid tone, its fragmented and slippery form. As Edmund White observed,

" [Guibert's] very taste for the grotesque, this compulsion to offend, finally affords him the necessary rhetorical panache to convey the full, exhilarating horror of his predicament. " In his struggle to piece together a language suited to his suffering, Hervé Guibert catapulted himself into notoriety and sealed his reputation for uncompromising, transgressive prose.

Bruce Sterling, one of the founding fathers of the cyberpunk genre, now presents a novel of vivid imagination and invention that proves his talent for creating brilliant speculative fiction is sharper than ever.

Forty years from now, Earth's climate has been drastically changed by the greenhouse effect. Tornadoes of almost unimaginable force roam the open spaces of Texas. And on their trail are the Storm Troupers: a ragtag band of computer experts and atmospheric scientists who live to hack heavy weather -- to document it and spread the information as far as the digital networks will stretch, using virtual reality to explore the eye of the storm. Although it's incredibly addictive, this is no game. The Troupers' computer models suggest that soon an "F-6" will strike -- a tornado of an intensity that exceeds any existing scale; a storm so devastating that it may never stop. And they're going to be there when all hell breaks loose.

As atrocity has become characteristic of modern history, testimonial writing has become a major twentieth-century genre. Untimely Interventions relates testimonial writing, or witnessing, to the cultural situation of aftermath, exploring ways in which a culture can be haunted by its own history. Ross Chambers argues that culture produces itself as civilized by denying the forms of collective violence and other traumatic experience that it cannot control. In the context of such denial, personal accounts of collective disaster can function as a form of counter-denial. By investigating a range of writing on AIDS, the First World War, and the Holocaust, Chambers shows how such writing produces a rhetorical effect of haunting, as it seeks to describe the reality of those experiences culture renders unspeakable. Ross Chambers is Professor of Romance Languages at the University of Michigan. His other books include Facing It: AIDS Diaries and the Death of the Author.

Anna Broadway ’ s “ Sexless in the City ” blog has become a popular Internet destination, attracting readers with its amusing tales of romantic misadventures and candid, far-from-prissy reports on the difficulties of trying to reconcile Christian beliefs with the mores and temptations of the modern world. In SEXLESS IN THE CITY, Broadway offers a lighthearted, yet unflinching, look at the realities of life as a twentysomething urbanite. She writes about her youthful ambition of writing or editing bodice-rippers, struggles with debt and loneliness, the pleasures and perils of meeting men in singles bars, and other urban outposts, and about her friendships with women searching, as she is, for a good man to spend the rest of their lives with. Guided by her trust in God and the teachings of the Bible, Broadway navigates romantic entanglements with the Harvard Lickwit, Hippie the Groper, Ad Weasel, 5 Percent Man, and various others who wander in and

out her life—but never into her bed. As Broadway discovered, romance novels don ’ t quite prepare you for love in the real world. For Christian women looking for guidance through the land of contemporary romance, SEXLESS IN THE CITY is the ideal place to start.
