When novelist Bertice Berry set out to write a history of her family, she initially believed she'd uncover a story of slavery and black pain, but the deeper she dug, the more surprises she found. There was heartache, yes, but also something unexpected: hope. Peeling away the layers, Berry came to learn that the history of slavery cannot be quantified in simple, black-and-white terms of "good" and "evil" but is rather a complex tapestry of roles and relations, of choices and individual responsibility. In this poignant, reflective memoir, Berry skillfully relays the evolution of relations between the races, from slavery to Reconstruction, from the struggles of the Civil Rights movement and the Black Power 1970s, and on to the present day. In doing so, she sheds light on a picture of the past that not only liberates but also unites and evokes the need to forgive and be forgiven.

An engrossing, personal view of the public events that have shaped India's recent history From Partition to Operation Bluestar provides an engrossing, personal view of the public events that have shaped India's recent history, written by a man who had a ringside view of these. As we follow Som Nath Dhar's career in journalism, government and the world of covert intelligence, the book transports us from pre-Partition Punjab to Delhi and Kashmir, with side trips to East Africa and Europe. Dhar writes in a compelling, journalistic style about the turbulence of Partition; the heady experience of working closely with India's first prime minister, Jawaharlal Nehru; the dramatic events leading up to the 1947 invasion and accession of Kashmir; and later developments such as Indira Gandhi's accession to power, her fall from grace and eventual return to power, and much else. Full of charming anecdotes, the book deepens our understanding of recent Indian history and provides insights into the character of many of the personalities who shaped it.

If movies and books like *Belle*, *Twelve Years a Slave*, *The Butler*, *The Help*, *A Time to Kill*, and *Amistad* have moved you, you'll love *A Complicated Legacy*, a novel by Baltimore writer Robert H. Stucky based on the true story of Elijah Willis, a white South Carolina planter, and Amy- the love of his life, the mother of his children, and his slave. Taking place in the decade leading up to the Civil War, it is written with a cinematic eye for atmosphere and setting, a linguist's ear for dialogue, and a historian's grasp of the powerful social forces and momentous events of the time. It is a riveting tale of personal transformation in facing the tide of sweeping social change. Elijah Willis fought family opposition, public opinion, and the law to free his family of choice and leave them his entire inheritance. In so doing, his and Amy's story becomes a microcosm of the human struggles that made the Civil War and the Abolition of Slavery both necessary and inevitable. Set in rural South Carolina, Baltimore, and Cincinnati, this vivid saga weaves history and humanity in a compelling testimony to the power of relationships to shape our destinies, even a century and a half later.

Mildred Hunter Thiermann's life story and spiritual journey span multiple worlds. Born a century ago in central Ontario, she experienced the twentieth century as an adventure of religious exploration and political discovery. The daughter of a progressive minister in the United Church of Canada, Mildred's early embrace of the Quaker faith and her marriage to an American conscientious objector at the close of WW II opened her heart to transformative spiritual awakenings as she traveled from Canada to sojourns in the United States, Europe, New York City, and finally her spiritual world. "Among birthright Quakers I call myself a birthright Methodist," she quotes. Her story reflects the quest of feminist religious seekers throughout the Western World "who seek to know God" through the lens of political action, social justice, international organization, and family.

Now an Award-Winning Finalist in the Non-Fiction: Narrative category of The 2012 USA Best Book Awards, sponsored by USA Book News. Obtain a free 40-page excerpt on www.kirschstonebooks.com. Against the backdrop of World War II tragedy and devastation in Latvia, Poland and Germany and three decades of European history, this true narrative provides a window into the palpating heart of wartime upheaval through the lives of Rolf Dutzmann and Lilo Wassull—two people fatefully positioned "on the other side." In December of 1939, swept along on a tide of dire necessity and circumstance due to the imminent Soviet takeover of his homeland, Rolf, a young Latvian aeronautical engineering student, flees with his family to Germany, a country fully under Hitler's control and already engaged in a brutal war. While the account chronicles Rolf's pursuit of his technical dream against daunting wartime odds, it is first and foremost a poignant love story that plays out against a panorama of worldwide chaos and destruction. It is also a story of the seen and unseen forces that coalesce to keep Rolf and Lilo alive after they meet in 1940 Berlin, leading them through a chain of cataclysmic events including Rolf's draft into the Luftwaffe and his father's assignment as chief inspector of V-2

rocket production; the bombing of Berlin; the destruction of their homes; their numerous desperate, cross-country escapes from the bombing, the advancing Soviet troops from the east, and other Allied forces from the west; the POW camp hardships; and the deprivation of the postwar years. Despite the immeasurable evil, suffering and desolation of World War II, a synchronistic chain of events provides an uplifting reminder that love and hope may take wing even out of the ashes of life's most terrifying adversities.
