A compassionate, shame-free guide for your darkest days “ A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized. ” —Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn ’ t cure you of

depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “ choose joy ” and “ pray more. ” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you ’ re left wondering if God has abandoned you. You just want a way out. But there ’ s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple

practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn ’ t look like what you expect.

A thrilling new voice in fiction injects the absurd into the everyday to present a startling vision of modern life, "[as] if Kafka and Camus and Bradbury were penning episodes of *Black Mirror*" (Chang-Rae Lee, author of *My Year Abroad*). "Stories so sharp and ingenious you may cut yourself on them while reading."—Kelly Link, author of *Get In Trouble* With a focus on the weird and eerie forces that lurk beneath the surface of ordinary experience, Kate Folk's debut collection is perfectly pitched to the madness of our current moment. A medical ward for a mysterious bone-melting disorder is the setting of a perilous love triangle. A curtain of void

obliterates the globe at a steady pace, forcing Earth's remaining inhabitants to decide with whom they want to spend eternity. A man fleeing personal scandal enters a codependent relationship with a house that requires a particularly demanding level of care. And in the title story, originally published in *The New Yorker*, a woman in San Francisco uses dating apps to find a partner despite the threat posed by "blots," preternaturally handsome artificial men dispatched by Russian hackers to steal data. Meanwhile, in a poignant companion piece, a woman and a blot forge a genuine, albeit doomed, connection. Prescient and wildly imaginative, *Out There* depicts an uncanny landscape that holds a mirror to our subconscious fears and desires. Each story beats with its own fierce heart, and together they herald an exciting new arrival in the

tradition of speculative literary fiction.

As a romance novelist, I'm facing my worst nightmare-writer's block. No matter what I write, I hit delete, knowing it's not worth publishing. The future of my career rests on the success of this new book. So, here I am, looking at Tumblr, desperate for inspiration, when I hear a thumping. Annoyed by the music blaring through the walls, I barge into the hall and bang on my neighbor's door. My very hot, very naughty neighbor, Jake Morreau. Jake is romantic, charming, and the bane of my existence. I need to work, yet he refuses to let me. When he greets me in the hallway, ideas of a sinfully hot hero come to mind. When he takes me out on the town, the words flow as soon as I come home. The more time I spend with this entertaining and quick-witted man, the more I'm able to

write. My neighbor is my muse, and before I know it, I slowly become the heroine of my own story, but I don't know how to end it. As I write the epilogue, I'm afraid our romance won't pan out as I've written. Jake Morreau is my hero. Then again, in my life, heroes don't exist.

Bataille's first novel, published under the pseudonym

'Lord Auch', is still his most notorious work. In this explicit pornographic fantasy, the young male narrator and his lovers Simone and Marcelle embark on a sexual quest involving sadism, torture, orgies, madness and defilement, culminating in a final act of transgression. Shocking and sacrilegious, *Story of the Eye* is the fullest expression of Bataille's obsession with the closeness of sex, violence and death. Yet it is also hallucinogenic in its power, and is one of the erotic classics of the twentieth century.

He was the tutor who helped Eric graduate, but he's always been more than that. He's the one who got away. Except, as it turns out, it wasn't just the omega who got away, but his son. A Favor for a Favor WaterBrook From the USA TODAY bestselling author of *Sweet Thing* and *Nowhere But Here* comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make

money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like

to get a drink with me and catch up on the last decade and a half? M
New York Wednesday Books Jovinianus, about whom little more is known than what is to be found in Jerome's treatise, published a Latin treatise outlining several opinions: That a virgin is no better, as such, than a wife in the sight of God. Abstinence from food is no better than a thankful partaking of food. A person baptized with the Spirit as well as with water cannot sin. All sins are equal. There is but one grade of punishment and one of reward in the future state. In addition to this, he held the birth of Jesus Christ to have been by a "true parturition," and was thus refuting the orthodoxy of the time, according to which, the infant Jesus passed through

the walls of the womb as his Resurrection body afterwards did, out of the tomb or through closed doors.

This book is about making machine learning models and their decisions interpretable. After exploring the concepts of interpretability, you will learn about simple, interpretable models such as decision trees, decision rules and linear regression. Later chapters focus on general model-agnostic methods for interpreting black box models like feature importance and accumulated local effects and explaining individual predictions with Shapley values and LIME. All interpretation methods are explained in depth and discussed critically. How do they work under the hood? What are their strengths and weaknesses? How can their outputs be interpreted? This book will enable you to select and correctly apply

the interpretation method that is most suitable for your machine learning project.
