and Terry Contralto have
been a couple for exactly two
months when they get 'the
call'. It's an unexpected one.
"Darling, do you remember
that silly little traditional
shifter ceremony you went
through with Tabitha Polson
when you were fourteen?"

His mother brays with nervous laughter. 'Turns out that it's binding after all.' No shit. Thanks to a clause in shifter laws, Jake must marry the blonde and bimbo-esque Tabitha Polson by January or his father stands to lose his entire fortune, worth almost a million, to Tabitha's Dad. And what about Terry? She is his true mate, the one that he loves - shifter contracts be damned. There is only one thing that Jake can do. He and Terry must get a million dollars to bail his Dad out and set Jake free of marrying Tabitha. They must hatch a plan so devious (but law-abiding), so clever, and so fraught with shifting, ever-changing alliances, and physical and emotional perils that the odds of them succeeding are a thousand to one. Or more. Will they succeed? Just like its predecessor, you will not have read anything like this shifter romance before! Filled with laughter and fuzzy romance, this book is filled with more twists than a pretzel stick. See if you can spot them coming! The Horse and his Boy

Random House
The fourth book in the sexy, "hilariously fun," (RT Book Reviews) romantic comedy series about a children's librarian turned vampire—perfect for fans of Katie Macalister and MaryJanice Davidson. Just as Jane Jameson's unlife seems to be stabilizing, fate sinks its fangs firmly into her butt. Despite her near-phobia of wedding planning, her no-frills night time nuptials to her sexy

boyfriend, Gabriel, are coming along smoothly. That is, until she turns a fatally wounded teenage acquaintance, and the Council pronounces her responsible for the newborn vamp until he can control his thirst. Jane's kitchen barely holds enough Faux Type O to satiate the cute teen's appetite and maintain Gabriel's jealous streak at a slow simmer. As if keeping her hyperactive child from sucking the blood out of the entire neighborhood isn't enough to deal with, the persnickety ghost of Jane's newly deceased grandma Ruthie has declared war on the fanged residents of River Oaks. Suddenly choosing monogrammed cocktail napkins and a cake she can't even eat seem downright relaxing in comparison. Tensions inside the house are

growing...and outside, a sinister force is aiming a stake straight for the center of Gabriel's heart. Most brides just have to worry about choosing the right dress, but Jane fears that at this rate, she'll never make it down the aisle for the wedding all nice girls dream of.

We Microcosm Publishing The ocean has always been a place of freedom for Lisa Whelan, and after her newborn son passes away, she returns to her family home by the sea to seek freedom from her grief. She's not expecting to meet anyone, and is caught off guard by the attraction she feels for Rachel, the part-owner of a local restaurant. That initial spark is dampened, however, when Lisa realizes that Rachel has a child. Rachel Murray has

worked hard to build a life for herself and her son but raising Declan has not been without its challenges. Each day when Rachel picks him up from school, she says a silent prayer that he will be waiting for her in his classroom, and not in the principal's office. Again. Her son's behavior has grown increasingly disruptive, and Rachel is at a loss at how to help him. Despite her grief, Lisa finds herself drawn to both Rachel and Declan. She thinks she can keep her emotions at bay—keep from drowning in grief and keep from falling in love—but she finds both to be a tidal wave, washing over her, sweeping her off her feet. Lisa never intended on falling in love with anyone, and she

certainly cannot allow herself to fall for someone whose son is a constant reminder of the child she lost. Or can she?

D-503 is the Builder of the Integral, the United State's first spaceship. A life of calculations and equations in the United State leaves little room for emotional expression outside of the pink slips that give one private time with another Number.

The façade however starts to crack when I-330, a mysterious she-Number with a penchant for the Ancients, enters the picture. We, Yevgeny Zamyatin's fourth novel, was written in 1920-21, but remained unpublished until its English release in 1924 due to conditions in the Soviet Union at the

time (it was eventually published there in 1988). Its dystopian future setting predates Orwell's 1984 and Huxley's Brave New World, and it's now considered a founding member of the genre. It has been translated into English and other languages many times; presented here is the original 1924 translation by Gregory Zilboorg.

"Machine learning has great potential for improving products, processes and research. But computers usually do not explain their predictions which is a barrier to the adoption of machine learning. This book is about making machine learning models and their decisions

interpretable. After exploring the concepts of interpretability, you will learn about simple, interpretable models such as decision trees, decision rules and linear regression. The focus of the book is on model-agnostic methods for interpreting black box models such as feature importance and accumulated local effects, and explaining individual predictions with Shapley values and LIME. In addition, the book presents methods specific to deep neural networks. All interpretation methods are explained in depth and discussed critically. How do they work under the hood? What are their strengths and weaknesses? How can their outputs be

interpreted? This book will enable you to select and correctly apply the interpretation method that is most suitable for your machine learning project. Reading the book is recommended for machine learning practitioners, data scientists, statisticians, and anyone else interested in making machine learning models interpretable."--Cover.

[Russian Nazi Troll Bots!](#)

Entangled: Teen

It's beyond dispute that trolls and automated "bots" helped Donald Trump win the White House in 2016. Some of the troll operations involved were based in Russia, but domestic interests also participated in the invasion. In fact, trolls of all types, from all

corners of the internet, came together in a perfect storm of propaganda, disinformation, and political dissent. The confusion wrought by the multi-pronged troll invasion still affects our online spaces today, leaving many questions unanswered. Who are the trolls? What do they want? How do they operate? Why couldn't our intelligence agencies put a stop to Russian and right-wing trolling? Can trolling be stopped? And what's with all the freakin' Nazis? One thing is certain: the troll invasions wouldn't have succeeded if America hadn't been divided on many pressing issues. Deep cultural woes, such as racism, our "New Generation Gap," and the slow destruction

of the middle class, were part of the toxic environment that allowed trolls to flourish. This book – the first from software expert, award-winning internet troll and long-time underground-culture fixture Eric Saeger – examines all these issues with an impartial eye. The limitations and realities of current technology are explained in clear, simple language, revealing the tactics of everyday trolls and describing how future technology promises to make the internet a safe, livable place for everyone. Most important of all, along the way, you'll see the humor in our dire but salvageable situation. Once we understand the invaders, we'll no longer fear RUSSIAN NAZI TROLL BOTS!

A raw and funny memoir about sex, dating, and relationships in the digital age, intertwined with a brilliant investigation into the challenges to love and intimacy wrought by dating apps, by firebrand New York Times–bestselling author Nancy Jo Sales At forty-nine, famed Vanity Fair writer Nancy Jo Sales was nursing a broken heart and wondering, "How did I wind up alone?" On the advice of a young friend, she downloaded Tinder, then a brand-new dating app. What followed was a

raucous ride through the world of online dating. Sales, an award-winning journalist and single mom, became a leading critic of the online dating industry, reporting and writing articles and making her directorial debut with the HBO documentary *Swiped: Hooking Up in the Digital Age*. Meanwhile, she was dating a series of younger men, eventually falling in love with a man less than half her age. Nothing Personal is Sales's memoir of coming-of-middle-age in the midst of a new dating revolution. She is unsparingly honest about her own experience of addiction to dating apps and hilarious in her musings about dick pics, sexting, dating FOMO, and more. Does Big Dating really want us to find love, she asks, or just keep on using its apps? Fiercely feminist, Nothing

Personal investigates how Big Dating has overwhelmed the landscape of dating, cynically profiting off its users' deepest needs and desires. Looking back through the history of modern courtship and her own relationships, Sales examines how sexism has always been a factor for women in dating, and asks what the future of courtship will bring, if left to the designs of Silicon Valley's tech giants—especially in a time of social distancing and a global pandemic, when the rules of romance are once again changing. **Ladies' Night** Bywater Books In this groundbreaking bestseller, Lundy Bancroft—a counselor who specializes in working with abusive men—uses his knowledge about how abusers think to help women recognize when

they are being controlled or devalued, and to find ways to get free of an abusive relationship. He says he loves you. So...why does he do that? You've asked yourself this question again and again. Now you have the chance to see inside the minds of angry and controlling men—and change your life. In *Why Does He Do That?* you will learn about:

- The early warning signs of abuse
- The nature of abusive thinking
- Myths about abusers
- Ten abusive personality types
- The role of drugs and alcohol
- What you can fix, and what you can't
- And how to get out of an abusive relationship safely

"This is without a doubt the most informative and useful book yet written on the subject of abusive men. Women who are armed with the insights found in these pages will be on the road to recovering control of their lives."—Jay G. Silverman, Ph.D., Director, Violence Prevention Programs, Harvard School of Public Health

The Kite Runner
Macmillan + ORM
National Book Award
Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch

At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this

revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. “Don’t be put off by the academic title of Julian Jaynes’s *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor.”—The New York Times “When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis.”—John Updike, *The New Yorker* “He is as

startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior.”—*American Journal of Psychiatry* *The Song of the Sea* McGraw-Hill Education *Boys Love Manga and Beyond* looks at a range of literary, artistic and other cultural products that celebrate the beauty of adolescent boys and young men. In Japan, depiction of the “beautiful boy” has long been a romantic and sexualized trope for both sexes and commands a high degree of cultural visibility today across a range of genres from pop music to animation. In recent decades, “Boys Love” (or simply BL) has

emerged as a mainstream genre in manga, anime, and games for girls and young women. This genre was first developed in Japan in the early 1970s by a group of female artists who went on to establish themselves as major figures in Japan's manga industry. By the late 1970s many amateur women fans were getting involved in the BL phenomenon by creating and self-publishing homoerotic parodies of established male manga characters and popular media figures. The popularity of these fan-made products, sold and circulated at huge conventions, has led to an increase in the number of commercial titles available. Today, a wide range of products

produced both by professionals and amateurs are brought together under the general rubric of "boys love," and are rapidly gaining an audience throughout Asia and globally. This collection provides the first comprehensive overview in English of the BL phenomenon in Japan, its history and various subgenres and introduces translations of some key Japanese scholarship not otherwise available. Some chapters detail the historical and cultural contexts that helped BL emerge as a significant part of girls' culture in Japan. Others offer important case studies of BL production, consumption, and circulation and explain

why BL has become a
controversial topic in
contemporary Japan.
