A troubled gargoyle plays matchmaker in this paranormal romance short story by the author of *Fear the Darkness*. Gargoyles do not admire difference—and Levet is undeniably different. Of miniscule stature, rather beastly looks, and with fragile, delicate wings, even his family has shunned him, banished him from his beloved Paris. That he is the only gargoyle ever to help defeat the Dark Lord and his hordes of minions makes no impression. But now Levet has come home, determined to be restored to the official Gargoyle Guild. To do so, he must confront

the most feared gargoyle in all of Europe. The one who tried to kill him as a child: his own mother . . . With few allies, Levet's survival may depend on the aid of two strangers: Valla, a beautiful but damaged nymph, and Elijah, the fiercely possessive, love-struck vampire clan chief to whom she can't quite surrender—unless Levet has something to do with it . . .

Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a

biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
