This book is a unique and candid look at human nature. These are eight composite sketches, some humorous, some heart-warming, some shocking and maybe a little melodramatic, and some even a little self-effacing, but they are all unabashed tributes to existentialism. They focus on a range of individuals as part of the author's voyage down memory lane. They touch upon diverse challenges that have underscored life in the later part of the twentieth century. Each character marches to the beat of a different drum and underscores the richness of the individuality of man and the impact of lives touching upon others in this journey we call life. This is indeed a labor of love to be shared with all.

Michael McKeegan has assembled his eight favorite Ken Martinez (Indie-poet / indie prose writer, Ken Martinez who has also written numerous culinary and (very droll) satirical articles) stories plus a prize-winning interview that he did with Ken Martinez into this eBook. These stories differ in style and

theme but they are all autobiographic in some way. Many are from Ken Martinez autobiography, "Koko Ken" but what sets them apart from the Paperback / eBook is McKeegan's comments that give these stories a different twist. In "Koko Ken", Ken Martinez writes about his life threatening birth defect, Spina-bifida, downplaying the hurt and loneliness that so many writers would have written about but in "Zippy: My Most Unforgettable Character", the reader can really feel these real feelings. Ken Martinez is very sincere in that he does not once blame God in any way for his handicap but praises Him for what he [Ken Martinez] can do and for his many accomplishments. This book, in Michael's opinion, has the best pearls among the pearls.

Psychoanalytic Theory, Research and Clinical Practice: Reading Joseph D. Lichtenberg explores both Lichtenberg's psychoanalytic theoretical contributions and innovations in clinical technique, and how these have influenced the work of other psychoanalysts and researchers. Lichtenberg's approach integrates a developmental perspective on the life cycle, self-psychology, attachment theory, and his theory of motivational systems. The commentaries in this volume are divided into several sections. Section One is devoted to informal interviews with Lichtenberg that portray an account of the evolution of psychoanalysis through Lichtenberg's eyes interwoven with the development of his own psychoanalytic identity. Section Two celebrates the role of friendship within his psychoanalytic circle, and Section Three highlights his leadership

role in the development of creative structures: the journal Psychoanalytic Inquiry; The Institute for Contemporary Psychotherapy and Psychoanalysis (ICP&P) and its training programs; and the ongoing Creativity Seminar. Additional sections provide commentary by psychoanalysts and researchers which demonstrate Lichtenberg's theoretical and clinical impact on his colleagues.

Psychoanalytic Theory, Research and Clinical Practice provides an in-depth encounter with a major contributor to the psychoanalytic field. Engagement with the openness, flexibility, and inquiring spirit of Joseph D. Lichtenberg offers respect for and hope in the psychoanalytic process. This book is essential reading for psychoanalysts, mental health professionals, and graduate students interested in how theory, research and technique are creatively integrated by a renowned psychoanalytic clinician and teacher.

**A Journey Through Existence** Moody Publishers  
One of the most beloved radio show hosts of the 1940s and 1950s, Mary Margaret McBride (1899–1976) regularly attracted between six and eight million listeners to her daily one o'clock broadcast. During her twenty years on the air she interviewed tens of thousands of people, from President Harry Truman and Frank Lloyd Wright to Rachel Carson and Zora Neale Hurston. This is her story. Five decades after their broadcast, her shows remain remarkably fresh and interesting. And yet McBride—the Oprah Winfrey of her day—has been practically forgotten, both in radio history and in the history of twentieth-century popular culture, primarily because she was a woman and because she was on daytime radio. Susan Ware explains how Mary Margaret McBride was one of the first to exploit the cultural and political importance of talk radio, pioneering the magazine-style format that many talk shows still use. This radio biography recreates the world of daytime radio from the 1930s through the 1950s, confirming the enormous significance of radio to everyday life, especially for women. In the first in-depth treatment of McBride, Ware starts with a description of how widely McBride was revered in the mid-1940s—the fifteenth anniversary party for her show in 1949 filled Yankee Stadium. Once the readers have gotten to know Mary Margaret (as everyone called her), Ware backtracks to tell the story of McBride's upbringing, her early career, and how she got her start in radio. The latter part of the

book picks up McBride's story after World War II and through her death in 1976. An epilogue discusses the contemporary talk show phenomenon with a look back to Mary Margaret McBride's early influence on the format.

Winner of the Anisfield-Wolf Book Award for Fiction Winner of the Gotham Book Prize One of Barack Obama's "Favorite Books of the Year" Oprah's Book Club Pick Named one of the Top Ten Books of the Year by the New York Times, Entertainment Weekly and TIME Magazine A Washington Post Notable Novel From the author of the National Book Award-winning *The Good Lord Bird* and the bestselling modern classic *The Color of Water*, comes one of the most celebrated novels of the year. In September 1969, a fumbling, cranky old church deacon known as Sportcoat shuffles into the courtyard of the Cause Houses housing project in south Brooklyn, pulls a .38 from his pocket, and, in front of everybody, shoots the project's drug dealer at point-blank range. The reasons for this desperate burst of violence and the consequences that spring from it lie at the heart of *Deacon King Kong*, James McBride's funny, moving novel and his first since his National Book Award-winning *The Good Lord Bird*. In *Deacon King Kong*, McBride brings to vivid life the people affected by the shooting: the victim, the African-American and Latinx residents who witnessed it, the white neighbors, the local cops assigned to investigate, the members of the Five Ends Baptist Church where Sportcoat was deacon, the neighborhood's Italian mobsters, and Sportcoat himself. As the story deepens, it becomes clear that the lives of the characters—caught in the tumultuous swirl

of 1960s New York—overlap in unexpected ways. When the truth does emerge, McBride shows us that not all secrets are meant to be hidden, that the best way to grow is to face change without fear, and that the seeds of love lie in hope and compassion. Bringing to these pages both his masterly storytelling skills and his abiding faith in humanity, James McBride has written a novel every bit as involving as *The Good Lord Bird* and as emotionally honest as *The Color of Water*. Told with insight and wit, Deacon King Kong demonstrates that love and faith live in all of us.

Utopia. New Jersey. For most people—even the most satisfied New Jersey residents—these words hardly belong in the same sentence. Yet, unbeknown to many, history shows that the state has been a favorite location for utopian experiments for more than a century. Thanks to its location between New York and Philadelphia and its affordable land, it became an ideal proving ground where philosophical and philanthropical organizations and individuals could test their utopian theories. In this intriguing look at this little-known side of New Jersey, Perdita Buchan explores eight of these communities.

Adopting a wide definition of the term utopia—broadening it to include experimental living arrangements with a variety of missions—Buchan explains that what the founders of each of these colonies had in common was the goal of improving life, at least as they saw it. In every other way, the communities varied greatly, ranging from a cooperative colony in Englewood founded by Upton Sinclair, to an anarchist village in Piscataway centered on an educational experiment, to the fascinating Physical Culture City in Spotswood, where drugs, tobacco, and corsets were banned, but where nudity was widespread. Despite their grand intentions, all but one of the utopias—a single-tax colony in Berkeley Heights—failed to survive. But Buchan shows how each of them left a legacy of much more than the buildings or street names that remain today—legacies that are inspiring, surprising, and often outright quirky. *Historian of the American Borderlands* Univ of California Press

Howard Norman spent the fall of 1977 in Churchill, Manitoba, translating into English two dozen "Noah stories" told to him by an Inuit elder. The folktales reveal what happened when the biblical Noah sailed his Ark into Hudson Bay in search of woolly mammoths and lost his way. By turns startling, tragic, and comical, these inimitable narratives tell the history of the Arctic and capture the collision of cultures precipitated by the arrival of a hapless stranger in a strange land. Norman himself was then a stranger in a strange land, but he was not alone. In Churchill he encountered Helen Tanizaki, an Anglo-Japanese woman embarked on a similar project—to translate the tales into Japanese. An extraordinary linguist and an exact and compelling friend, Tanizaki became Norman's guide through the characters, stories, and customs he was coming to know, and a remarkable intimacy sprang up between them—all the more intense because it was to be fleeting;

Tanizaki was fatally ill. Through a series of overlapping panels of reality and memory, Howard Norman's *In Fond Remembrance of Me* recaptures with vivid immediacy a brief but life-shifting encounter and the earthy, robust stories that occasioned it.

Preface I explicitly do not affirm the truth of any statement made or implied herein concerning any actual people, including myself; or any actual relationships, including my own; or any concrete situations depicted. Everything I have written is either about or based upon my perceptions, memories, imagining, suppositions, assessments of poetic and dramatic appropriateness, and the like,

all such, qua sources of factual truth, being notoriously fallible. The only truth that I do affirm herein is that of the universals that can be abstracted from the particulars of my subjective experience, the universals call them poetic truths whereby my audience can better understand and perfect themselves as I, hopefully, have been able to do for myself in the living and subsequent describing of all that follows. If anything I have written happens to occasion any people pain, I express in anticipation my deepest compassion; such people must know, however, that I would not have written as I have if I did not suppose that I would thereby have caused, in potentiality, far greater good than harm.
