Medical literature for health care practitioners on the evaluation and treatment of breastfeeding issues has been disjointed, conflicting, and difficult to find. The field of breastfeeding medicine itself is nonexistent—there are no "breastfeeding doctors" who are specifically trained to understand this complex and interactive process. While much of the literature about breastfeeding describes how it "should" work, there is currently nothing available to explain why it often fails and how to treat it. **Clinician 's Guide to Breastfeeding: Evidence-based Evaluation and Management** is written for health care practitioners who work with breastfeeding mothers; physicians, nurses, nurse practitioners, and lactation consultants. It provides clear information and clinically tested strategies to help professionals guide new mothers to breastfeed successfully. The first of its kind to consider the entirety of the breastfeeding experience, **Clinician 's Guide to Breastfeeding** is written by Dr. Linda D. Dahl, a leading expert on the subject. It is a comprehensive review of breastfeeding, covering objective analyses of ideal or "normal" nursing, as well as the evaluation and treatment of abnormal nursing, including case studies to illustrate the treatment decision-making process.

The case study approach will help midwives, doctors, midwifery and medical students to ground their clinical skills training on each specific situation by working through the questions and answer format. Of particular importance is the emphasis on inter-professional team working and the links between theory and practice." Dr. Rita Borg Xuereb, Head of Department of Midwifery, Faculty of Health Sciences, University of Malta, Malta "The authors are to be commended as this is the first book of its kind and is well overdue ... The content is excellent, well referenced and covers all of the important issues ... 'This is a wonderful novel, both uplifting and heartbreaking.' Good Reading Magazine (5 star review)

SHORTLISTED FOR THE INDIE BOOK AWARD FOR DEBUT FICTION 2020 You can talk

about living in the Mallee. And you can talk about a Mallee tree. And you can talk about the Mallee itself: a land and a place full of red sand and short stubby trees. Silent skies. The undulating scorch of summer plains. Quiet, on the surface of things. But Elise wasn't from the Mallee, and she knew nothing of its ways. Discover the world of a small homestead perched on the sunburnt farmland of northern Victoria. Meet Elise, whose urbane 1950s glamour is rudely transplanted to the pragmatic red soil of the Mallee when her husband returns to work the family farm. But you cannot uproot a plant and expect it to thrive. And so it is with Elise. Her meringues don't impress the shearers, the locals scoff at her Paris fashions, her husband works all day in the back paddock, and the drought kills everything but the geraniums she despises. As their mother withdraws more and more into herself, her spirited, tearaway daughters, Marjorie and Ruby, wild as weeds, are left to raise themselves as best they can. Until tragedy strikes, and Marjorie flees to the city determined to leave her family behind. And there she stays, leading a very different life, until the boy she loves draws her back to the land she can't forget... PRAISE FOR WEARING PAPER DRESSES 'In the same vein as Rosalie Ham, Brinsden weaves a compelling story of country Australia with all its stigma, controversy and beauty.' Fleur McDonald 'This heartbreaking, melancholy and hopeful debut novel is full of inventive, haunting imagery and is beautifully written.' Books+Publishing 'a sharply focused portrait of a stoic Mallee farmer, his highly-strung city wife, their two very different daughters, in an austere place and time.' Sydney Morning Herald
