This is the biography of Professor N. Kasturi, the chosen biographer of Bhagawan Sri Sathya Sai Baba. This book is his autobiography, his story, his journey to the feet of the Lord, Bhagawan Sri Sathya Sai Baba. In his own words, "Each of us has to live the volume of biography, which we bring with us, as often as we are born, page after page, chapter after chapter, howsoever punctuated with dots and dashes, interrogations and exclamations, commas and colons, until the sentence ends ultimately with a Full Stop. But, luckily, I have as my inseparable companion and counsel, Bhagawan Himself; He dots the i ' s and crosses the t ' s as I live the lines on every page. He has made the Book of Life, my biography – momentous and meaningful for me. I must, however, confess that I do not deserve this book on me, by me. There are, I know, millions, who are absorbing the Love of the Living Loving God much deeper, who can, therefore, stand forth as messengers of His Love. They can lead the unloved and the unloving with surer and firmer steps, to the Presence of the Redeemer, the Comforter, the Saviour, the Avatar, the Sai. Nevertheless, when Bhagawan manifested a faint, favourable interest, when someone ventured to whisper to me in His Presence, that a bunch of my reminiscences may be welcomed by many, I was promoted by that smile to embark on this audacious adventure. My memory assumed the role of Chief Editor and hence, the chronicle suffers from imperfect chronology. Since the four parts of " Sathyam Sivam Sundram " relate most of that I have

yearned to communicate, this book has become a personal testament, often perhaps too personal to be tolerated, for which act of indiscretion, I ask for pardon. Flattery is the food of fools, say those, who are denied that pabulum. I dare not deny my taste, for I have been fooled by flatterers, who threw appellations like poet, scholar, linguist, humourist, philosopher, and even ant-hill sage! Please dear reader, remember that I am struggling my best to eliminate the poison of the ego and sympathise with me, whenever you find the reptile raising its hood between the lines of this book. A few ' old students ' of my classes at the University, my grandson, his wife, and a few brothers at Prasanthi Nilayam demanded that I should not give up the work and insisted on the completion of the book. As a result, this book, ' Loving God ' is now placed at the Feet of the Lord and on the palms of those, who live in the Love of the Lord. Jai Sai Ram."

This important volume on the history of sociology in India locates scholars, scholarship, theories, perspectives, and practices of the discipline in different cities and regions of the country over a century. It argues that this history is enmeshed in political projects of constructing a 'society', which took place as a result of colonialism and dominant nationalism. The book affirms the existence of both strong and weak traditions of scholarship in India and underscores three processes that have aided this development at various points of time: reflexive interrogation of received scholarship; probing ideal types of theories within classrooms; and questioning existing debates on society and its language by the public.

Most of the Educational Institutions are following the old pattern of examination based on rote memorization. A national discussion was aimed to suggest practically implementable reform related to examination system, paper-

setting, evaluation techniques and conduct of examination and particularly to comprehensive and continuous evaluation. The National Policy on Education (NPE) and Programme of Action (POA)-1986 have also emphasized this theme.

This book, in its third edition, continues to focus on the basics of civil engineering and engineering mechanics to provide students with a balanced and cohesive study of the two areas (as needed by them in the beginning of their engineering education). A basic undergraduate textbook

for the first-year students of all branches of engineering, this book is specifically designed to conform to the syllabus of Visvesvaraya Technological University (VTU). Each chapter introduces the concepts to the reader, stepwise. Providing a wealth of practice examples, the book emphasizes the importance of building strong analytical skills. Practice problems, at the end of each chapter, give students an opportunity to absorb concepts and hone their problem-solving skills. The book comes with a companion CD containing the software developed using MS-Excel, to work out the problems on Forces, Centroid, Friction and Moment of Inertia.
