The mission of the International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes, but is not limited to, inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional

educators with decision-making roles and policymakers at all levels turn since it provides a broad-based conversation between and among policymakers, practitioners, and academicians about reform goals, objectives, and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world.

GAO Study of Federal Bank Regulations Rowman & Littlefield

Teacher Education and Practice, a peer-refereed journal, is dedicated to the encouragement and the dissemination of research and scholarship related to professional education. The journal is concerned, in the broadest sense, with teacher preparation, practice and policy issues related to the teaching profession, as well as being concerned with learning in the school setting. The journal also serves as a forum for the exchange of diverse ideas and points of view within these purposes. As a forum, the journal offers a public space in which

to critically examine current discourse and practice as well as engage in generative dialogue. Alternative forms of inquiry and representation are invited, and authors from a variety of backgrounds and diverse perspectives are encouraged to contribute. *Teacher Education & Practice* is published by Rowman & Littlefield.

IJER Vol 19-N3 Rowman & Littlefield

This book offers an inside look into the notoriously tumultuous, professional relationship of two great minds: Karl Popper and Paul Feyerabend. It collects their complete surviving correspondence (1948-1967) and contains previously unpublished papers by both. An introduction situates the correspondence in its historical context by recounting how they first came to meet and an extensive editorial apparatus provides a wealth of background information along with systematic mini-biographies of persons named. Taken together, the collection presents Popper and Feyerabend's controversial ideas against the background of the postwar academic environment. It exposes key aspects of an evolving student-mentor relationship that eventually ended amidst increasing accusations of plagiarism. Throughout, readers will find in-depth discussions on a wide range of intriguing topics, including an ongoing debate over the foundations of quantum theory and Popper's repeated attempts to design an experiment that would test different interpretations of quantum mechanics. The captivating exchange between Feyerabend and Popper offers a valuable resource that will appeal to scientists, laymen, and a wide range of scholars: especially philosophers, historians of science and philosophy and, more generally, intellectual

historians.

Hearing Before a Subcommittee of the Committee on Government Operations, House of Representatives, Ninety-eighth Congress, Second Session, April 25, 1984 Rowman & Littlefield

This text explains how Islamic banking works and what it offers as an alternative model of financial intermediation. Important questions addressed include: Why Islamic banking started and where it is going? Who are the main players at present and whom it will attract in future? What are its strengths and weaknesses? Will Islamic banks survive in highly competitive and globalized financial markets? What are their prospects and potentials? How does the relative performance and efficiency of Islamic banks compare to conventional banks?

The authors have assembled some of the finest minds in the field of supervision studies to produce *Supervision as Collaboration in the Human Services*. Key aspects of a learning organization and the process of organizational learning are explored across the various human services (social, mental health, health, and aging), making this an essential core text for graduate and undergraduate students of social work and counselling, as well as for human services supervisors and practitioners.

Supervision as Collaboration in the Human Services

Rowman & Littlefield

The second half of the twentieth century saw the emergence of international economic law as a major force in the international legal system. This force has been severely tested by the economic crisis of 2008. Unable to prevent the crisis, the existing legal mechanisms have

struggled to react against its direst consequences. This book brings together leading experts to analyse the main causes of the crisis and the role that international economic law has played in trying to prevent it, on the one hand, and worsening it, on the other. The work highlights the reaction and examines the tools that have been created by the international legal field to implement international cooperation in an effort to help put an end to the crisis and avoid similar events in the future. The volume brings together eminent legal academics and economists to examine key issues from the perspectives of trade law, financial law, and investment law with the collective aim of reform of international economic governance.

The over-the-counter (OTC) derivatives market has captured the

attention of regulators after the Global Financial Crisis due to the risk it poses to financial stability. Under the post-crisis regulatory reform the concentration of business, and risks, among a few major players is changed by the concentration of a large portion of transactions in the new market infrastructures, the Central Counterparties (CCPs). This book, for the first time, analyses the regulatory response of the United Kingdom and the United States, the two largest centres of OTC derivatives transactions, and highlights their shortcomings. The book uses a normative risk-based approach to regulation as a methodological lens to analyse the UK regime of CCPs in the OTC derivatives market. It specifically focuses on prudential supervision and conduct of business rules governing OTC derivatives transactions and the move towards enhancing the use of central clearing. The resulting analysis, from a normative risk based approach, suggests that the UK regime for CCPs does not fulfil what would be expected if a coherent risk based approach was taken. Our comments on the Dodd-Frank Act highlight that the incoherent adoption of risk-based approach to regulation affects the effectiveness of the US regime for CCPs. Such a regime does not follow the pace of events of 'innovation risk'; in particular, the foreseeable changes FinTech will bring to the OTCDM and central clearing services. The second inadequacy of the US regime concerns the dual regulatory structure of the CFTC and the SEC, and the inadequate adoption of different and not well-coordinated regulatory strategies. We also analyse the cross-border implications of the US regime for non-US CCPs that provide clearing services to US market participants. Finally, we study the negative effects of the absence of a clearly defined resolution regime for CCPs.

Research in Education Routledge

The Journal of School Public Relations is a quarterly publication providing research, analysis, case studies and descriptions of best practices in six critical areas of school administration: public relations, school and community relations, community education, communication, conflict management/resolution, and human resources management. Practitioners, policymakers, consultants and professors rely on the Journal for cutting-edge ideas and current knowledge. Articles are a blend of research and practice addressing contemporary issues ranging from passing bond referenda to building support for school programs to integrating modern information.

The global financial and economic crisis which started in 2008 has had devastating effects around the globe. It has caused a rethinking in different areas of law, and posed new challenges to regulators and private actors alike. One of the emerging issues is the apparent eclipse of boundaries between different legal disciplines: financial and corporate lawyers have to learn how public law instruments can complement their traditional governance tools; conversely, public lawyers have had to come to understand the specificities of the financial markets they intend to regulate. While commentary on financial regulation and the global financial crisis abounds, it tends to remain within disciplinary boundaries. This volume not only brings together scholarship from different areas of law (constitutional and administrative law, EU law, financial law and regulation), but also from a variety of backgrounds (academia, practice, policy-making) and a number of different jurisdictions. The volume illustrates how interdisciplinary scholarship belongs at the centre of any discussion of the economic crisis, and indeed regulation theory more generally. This is a timely exploration of cutting-edge issues of financial regulation.
