This thoroughly updated 4th Edition of this highly regarded text continues to provide the latest therapeutic and surgical information on nail disease and disorders. It expands and updates all areas of onychology, including the newest in diagnostic techniques for nail diseases, a segment of dermatology that not only proves more difficult than cutaneous disorders but also is an exciting and innovative area on the frontier of skin research. Scher and Daniel's Nails: Diagnosis, Surgery, Therapy provides an update of therapeutic advances to help the resident, practitioner, and related healthcare provider (podiatrist, nurse, primary care physician, and all involved in nail care). A major section is devoted to nail surgery and nail pathology, both of which have been behind compared to other aspects of dermatology. There is also extensive information on the billion dollar nail cosmetics industry, which will bring this text to the attention of all nail technicians (several hundred thousand in the US alone) as well as to cosmeticians and manufacturers.

MILADY STANDARD ESTHETICS FUNDAMENTALS, 11E International Edition is the essential source for basic esthetics training. This new edition builds upon Milady's strong tradition of providing students and instructors with the best beauty and wellness education tools for their future. The rapidly expanding field of esthetics has taken a dramatic leap forward in the past decade, and this up-to-date text plays a critical role in creating a strong foundation for the esthetics student. Focusing on introductory topics, including history and opportunities in skin care, anatomy and physiology, and infection control and disorders, it lays the groundwork for the future professional to build their knowledge. The reader can then explore the practical skills of a skin care professional, introducing them to the treatment environment, basic facial treatments, hair removal, and the technology likely to be performed in the salon or spa setting.

We create these self-practice test questions module referencing the concepts and principles currently valid in the Nail Technology exam. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to "simulate" actual exam questions. "realistic" or actual questions that are for cheating purpose are not available in any of our products.

Milady's Standard Nail Technology Cambridge University Press

Cosmetics for skin, hair, and nails play a vital part in the management and treatment of many dermatological conditions; unfortunately, they may also at times be the cause of some dermatological problems. They are therefore subjects where dermatologists need to be aware of the major commercial developments taking place, in addition to the many common Over The Counter products already available, in order to be vigilant in checking the possible benefits or disadvantages for patients. This text takes a serious look at the integration of skin care products, cosmetics, hair adornments, and nail cosmetics in the daily practice of dermatology, expanding the realm of disease treatment beyond diagnosis and treatment into the maintenance phase of healthy skin, hair, and nails.
