Nonthermal Processing Technologies for Food offers a comprehensive review of nonthermal processing technologies that are commercial, emerging or over the horizon. In addition to the broad coverage, leading experts in each technology serve as chapter authors to provide depth of coverage. Technologies covered include: physical processes, such as high pressure processing (HPP); electromagnetic processes, such as pulsed electric field (PEF), irradiation, and UV treatment; other nonthermal processes, such as ozone and

chlorine dioxide gas phase treatment; and combination processes. Of special interest are chapters that focus on the "pathway to commercialization" for selected emerging technologies where a pathway exists or is clearly identified. These chapters provide examples and case studies of how new and nonthermal processing technologies may be commercialized. Overall, the book provides systematic knowledge to industrial readers, with numerous examples of process design to serve as a reference book. Researchers, professors and upper level students will also find the book a valuable text on the subject.

Rakugo, a popular form of comic storytelling, has played a major role in Japanese culture and society.

Developed during the Edo (1600–1868) and Meiji (1868–1912) periods, it is still popular today, with many contemporary Japanese comedians having originally trained as rakugo artists. Rakugo is divided into two distinct strands, the Tokyo tradition and the Osaka tradition, with the latter having previously been largely overlooked. This pioneering study of the Kamigata (Osaka) rakugo tradition presents the first complete English translation of five classic rakugo stories, and offers a history of comic storytelling in Kamigata (modern Kansai, Kinki) from the seventeenth century to the present day. Considering the art in terms of gender, literature, performance, and society, this volume grounds Kamigata rakugo in

its distinct cultural context and sheds light on the 'other' rakugo for students and scholars of Japanese culture and history.
