You are about to become obsolete. You think you are special, unique, and that whatever it is

that you are doing is impossible to replace. You are wrong. As we speak, millions of algorithms created by computer scientists are frantically running on servers all over the world, with one sole purpose: do whatever humans can do, but better. That is the argument for a phenomenon called technological unemployment, one that is pervading modern society. But is that really the case? Or is it just a futuristic fantasy? What will become of us in the coming years, and what can we do to prevent a catastrophic collapse of society? *Robots Will Steal Your Job, But That's OK: how to survive the economic collapse and be happy* explores the impact of technological advances on our lives, what it means to be happy, and provides suggestions on how to avoid a systemic collapse.

From an AP sports writer and author, a history of Pennsylvania State University 's Nittany Lions, with personal stories from coaches and players. In *Tales from Penn State Football*, Ken Rappoport puts you on the fifty-yard line and sometimes gets you a seat on the bench or a stall in the locker room. From the first team in the 1880s to the celebrated Joe Paterno teams of the 20th century, Penn State 's most entertaining—and legendary—football stories are chronicled here. And there is plenty to tell, considering the history of the Penn State football program. Penn State football started in 1881. These early pioneers could hardly envision the future popularity of the game, where crowds of more than 100,000 would fill Beaver Stadium to see Paterno 's nationally ranked powers play in the second-largest football stadium in

America. In between, there have been plenty of colorful stories and characters at Penn State to fill a book. There was a coach who held up a Rose Bowl game over a violent argument and another who credited a mule for his success. Also, a player who impersonated the legendary Jim Thorpe and another nicknamed "Riverboat Richie" for his gambling instincts on the football field. For many of the stories in this book, Rappoport went right to the source. In an earlier interview at the Nittany Lion Inn, Joe Paterno talked about his famous "Grand Experiment." At about the same time, Rip Engle discussed his most treasured moments at Penn State. Football aficionados will relish every tale. The perfect gift for college football buffs and Penn State fans.

He continues, "Television has a transforming effect on events. It has a transforming effect on the people who watch the transformed events—it's just hard to know what that is." *Living-Room War* is Arlen's valiant-and entertaining-attempt to figure out exactly what exactly television does to us. This timeless collection of essays provides a poetic look at 1960s television culture, ranging from the Vietnam war to *Captain Kangaroo*, from the 1968 Democratic convention to televised sports.

For six years Maya Stovall staged *Liquor Store Theatre*, a conceptual art and anthropology video project---included in the Whitney Biennial in 2017---in which she danced near the liquor stores in her Detroit neighborhood as a way to start conversations with her neighbors. In this book of the same name, Stovall uses the project as a point of departure for understanding everyday life in Detroit and the possibilities for ethnographic research, art, and knowledge creation. Her conversations with her neighbors—which touch on everything from economics, aesthetics, and sex to the political and economic racism that undergirds Detroit's history—bring to light rarely acknowledged experiences of longtime Detroiters. In these exchanges, Stovall enacts an innovative form of ethnographic engagement that offers new modes of integrating the social sciences with the arts in ways that exceed what either approach can achieve alone.

Why should there only be literary scholarship about authors who actually lived, and texts which exist? Where are the articles on Enoch Campion, Linus Withold, Redondo Panza, Darshan Singh, or Heidi B. Morton? That none of these are real authors should be no impediment to interpreting their invented writings. In the first collection of its kind, *The Anthology of Babel* publishes academic articles by scholars on authors, books, and movements that are completely invented. Blurring the lines between scholarship and creative writing, *The Anthology of Babel* inaugurates a completely new literary genre perfectly attuned to the era we live in, a project evocative of Jorge-Louis Borges, Umberto Eco, and Italo Calvino.
