Natural Pest Solutions - Home | Facebook

Here are simple natural solutions to pest problems that use items you may well already have around the house. Baking soda and powdered sugar mixed in equal parts is a good roach killer. Just spread around the area where you see roaches and wait for them to disappear.

What is Natural Pest Control? (with pictures)

With natural pest control, the goal is reducing and controlling pest populations without harming the environment. For example, some people may use garlic oil or red pepper spray to help control pests. These solutions are unlikely to cause illness or pollute the water when they seep into the ground as chemical pesticides do.
