Natural Garden Pest Control: Safe, Non-Toxic Methods ...

Another way to control this pest in the Philippines is to use wet cardboard as

bait when trapping and getting rid of termites. Place wet cardboard on top of or near the area you think the termite colony is.

The cellulose in the cardboard will easily attract the termites.

5 Natural Pest Control Options That Work | Wellness Mama

With natural pest control, the goal is reducing and controlling pest populations without harming the environment. For example, some people may use garlic oil or red pepper spray to help control pests. These solutions are unlikely to cause illness or

pollute the water when they seep into the ground as chemical pesticides do.

Natural Pest Control Solutions

Natural Pest Control Solutions for Your Garden - My ...

White Vinegar. Ants leave a trail which makes it easier for other ants from the colony to find their way to food. To wash away the trail, use a solution made from 1/4 cup white vinegar, 2 cups water and 10 drops of peppermint or eucalyptus oil. Some oils can also be used to clean furniture and fight odors.

What is Natural Pest Control? (with pictures)

For a hotter kind of pest control

in the garden, try mixing 1 gallon of water and 3 tablespoons of hot pepper flakes or 10 peppers chopped up finely if you're using fresh peppers (cayenne works the best but other varieties work as well). Simmer ingredients in a pan for 15 minutes and then let it sit for 24 hours before straining.
