What is Natural Pest Control?

(with pictures)

White Vinegar.

Ants leave a trail which makes it easier for other ants from the colony to find their way to food.

To wash away the trail, use a solution made from 1/4 cup white vinegar, 2 cups water and 10 drops of peppermint or eucalyptus oil.

Some oils can also be used to clean furniture and fight odors.

With natural pest control, the goal is reducing and controlling pest populations

without harming
the
environment.
For example,
some people
may use garlic
oil or red
pepper spray to
help control
pests. These
solutions are
unlikely to
cause illness or
pollute the
water when
they seep into
the ground as
chemical
pesticides do.
