## Natural Pest Control Solutions

Natural Pest Control We believe the logical solution to organic pest control is to create a balance of organisms in your yard or garden. In a diverse ecosystem pest populations are regulated naturally. Development of this balance relies on products that minimize harm to pollinators and other beneficial insects.

### Organic Pest Management Solutions

For a hotter kind of pest control in the garden, try mixing 1 gallon of water and 3 tablespoons of hot pepper flakes or 10 peppers chopped up finely if you're using fresh peppers (cayenne works the best but other varieties work as well). Simmer ingredients in a pan for 15 minutes and then let it sit for 24 hours before straining.

## Pest Control Services: Natural Solutions to Repel Termites ...

Another way to control this pest in the Philippines is to use wet cardboard as bait when trapping and getting rid of termites. Place wet cardboard on top of or near the area you think the termite colony is. The cellulose in the cardboard will easily attract the termites.

## Natural Pest Solutions - Home | Facebook

Uses for this natural garden pest control are unlimited. Because it has oil and dishwashing liquid in it, it sticks to plants as well as suffocating pests such as scale and mealy bug. It will kill ants, aphids, caterpillars, grubs, bugs and just

about any little invader.

Natural Solutions Pest Control, LLC - Welcome to Natural ...

With natural pest control, the goal is reducing and controlling pest populations without harming the environment. For example, some people may use garlic oil or red pepper spray to help control pests. These solutions are unlikely to cause illness or pollute the water when they seep into the ground as chemical pesticides do.
