Nature is an essay written by Ralph Waldo Emerson, and published by James Munroe and Company in 1836. In the essay Emerson put forth the foundation of transcendentalism, a belief system that espouses a non-traditional appreciation of nature. Transcendentalism suggests that the divine, or God, suffuses nature, and suggests that reality can be understood by studying nature. Emerson's visit to the Mus é um National d'Histoire Naturelle in Paris inspired a set of lectures he later delivered in Boston

Every year Emerson made a lecture tour; and these lectures were the source of most of his essays. Nature (1836), his first published work, contained the essence of his transcendental philosophy, which views the world of phenomena as a sort of symbol of the inner life and emphasizes individual freedom and self-reliance. Emerson's address to the Phi Beta Kappa society of Harvard (1837) and another address to the graduating class of the Harvard Divinity School (1838) applied his doctrine to the ...

About Nature and Selected Essays. An indispensible look at Emerson ' s influential life philosophy. Through his writing and his own personal philosophy, Ralph Waldo Emerson unburdened his young country of Europe ' s traditional sense of history and showed Americans how to be creators of their own circumstances. His mandate, which called for harmony with, rather than domestication of, nature, and for a reliance on individual integrity, rather than on materialistic institutions, is echoed in ...
