He never looks back, and he doesn't miss a thing about South Carolina—nothing but Ms. Emily Marsh.

They want Rick back, and they'll stop at nothing to pull him from the shadows. Rick's love for Emily draws him into the open. He can't hide anymore, not when the woman he loves is in peril. Tech giants and automakers have been teaching robots to drive. Robot-controlled cars have already logged millions of miles. These technological marvels promise cleaner air, smoother traffic, and tens of thousands of lives saved. But even if robots turn into responsible drivers, are we ready to be a nation of passengers? In *Are We There Yet?*, Dan Albert combines historical scholarship with personal narrative to explore how car culture has suffused America's DNA. The plain, old-fashioned, human-driven car built our economy, won our wars, and shaped our democratic creed as it moved us about. Driver's ed made teenagers into citizens; auto repair made boys into men. Crusades against the automobile are nothing new. Its arrival sparked battles over street space, pitting the masses against the millionaires who terrorized pedestrians. When the masses got cars of their own, they learned to love driving too. During World War II, Washington nationalized Detroit and postwar Americans embraced car and country as if they were one. Then came 1960s

environmentalism and the energy crises of the 1970s. Many predicted, even welcomed, the death of the automobile. But many more rose to its defense. They embraced trucker culture and took to Citizen Band radios, demanding enough gas to keep their big boats afloat. Since the 1980s, the car culture has triumphed and we now drive more miles than ever before. Have we reached the end of the road this time? Fewer young people are learning to drive. Ride hailing is replacing car buying, and with electrification a long and noble tradition of amateur car repair—to say nothing of the visceral sound of gasoline exploding inside a big V8—will come to an end. When a robot takes over the driver's seat, what's to become of us? *Are We There Yet?* carries us from muddy tracks to superhighways, from horseless buggies to driverless electric vehicles. Like any good road trip, it's an adventure so fun you don't even notice how much you've learned along the way.

9/11 Vigilantes tells the action-packed story of the reaction of ordinary Americans to the senseless slaughter on September 11, 2001. Although fiction, much of 9/11 Vigilantes is based on actual post 9/11 events. The story is told by Ryan, a teenager in a small western resort town whose father is the local Sheriff, but this definitely isn't Opie in Mayberry. Following 9/11, the concerned citizens of Hermosa are up in arms about the failure of law enforcement to stop

illegal immigration and protect them from terrorists. Street justice"the kind dispensed by vigilantes and militias" is preferable to no justice whatsoever. Prepare to enter a world of what fashion designer Michael Kors has called "stylish intrigue, glamorous machinations, and such juicy fun." Take a wild ride with Amanda Goldberg and Ruthanna Hopper, who have culled their insider's purview to peel back Oscar's legendary curtain and reveal what really goes on under the sheets of Young Hollywood. Do Happy Hollywood Endings really exist, or does everyone end up on the cutting room floor sooner or later? It's a shocking,

entertaining race to the end of the red carpet... Twenty-six-year-old Lola Santisi, daughter of an Academy Award-winning mega-director and a former cover model, is Hollywood Royalty without a kingdom—or even a condo—to call her own. This "Actorholic," who also suffers from "Career Deficit Disorder," is looking for more from life than what her famous last name has offered, namely her mother's last-season Chanel hand-me-downs and the lurking shadow of her father's fame. In her latest gig as a Hollywood ambassador, Lola's stepping out of her Louboutins and into fashion's ultimate combat boots to engage in LA's cruelest blood sport: convincing celebrities to wear an unknown designer's gowns to the Oscars. Providing advice, emotional support, and even a new mantra or two are her BFF (Best Friend Forever) Kate Woods, an obsessively ambitious talent agent desperate to go from unter to über, and her BAF (Best Actress Forever) Cricket Curtis, a struggling up-and-comer trying to surpass her role as a coma victim on Grey's Anatomy and overcome one rejection after another to become the next Cameron Diaz or Nicole Kidman, or the next anybody. Together, they dodge fashion roadkill while navigating General Motors' Annual Fashion Show, the Gagosian dinner at Mr. Chow, and more.

Ultimately, the week culminates at the über-exclusive Vanity Fair Oscar party, where the allotted time slot on your invitation marks how far in or out you really are. But who will be left standing with job, heart, and stilettos still intact at the after-after-Oscar party?
