R. K. Narayan (1906—2001) witnessed nearly a century of change in his native India and captured it in fiction of uncommon warmth and vibrancy. Swami and Friends introduces us to Narayan's beloved fictional town of Malgudi, where ten-year-old Swaminathan's excitement

about his country's initial stirrings for independence competes with his ardor for cricket and all other things British. Written during British rule, this novel brings colonial India into intimate focus through the narrative gifts of this master of literary realism.

Rakesh plants a cherry seedling in his garden and watches it grow. As seasons go by, the small tree survives heavy monsoon showers, a hungry goat that eats most of the leaves and a grass cutter who splits it into two with one

sweep. At last, on his ninth birthday, Rakesh is rewarded with a miraculous sight—the first pink blossoms of his precious cherry tree! This beautifully illustrated edition brings alive the magical charm of one of Ruskin Bond's most unforgettable tales.

This volume brings together articles based on experimental and theoretical research from teachers working in diverse teaching backgrounds with varying experience, from research scholars to school teachers, from college and university teachers in India to a British native teaching in

China. The contributions here provide a mix of global and local teaching scenarios, addressing the need for diagnostic tests, developing need-based material, using the mother tongue to ensure active participation of the masses, and re-examining the language policies in Asian countries. The papers collected here also explore the implementation of

Task-based Language Teaching, the integration of technology in developing language skills, and the use of games and activities to engage the interest of low level learners while teaching both literature and language, further linking them with their culture and society. The book offers a reflection of the changes that have taken place in

the teaching environment in the last two decades, with the introduction of Communicative Language Teaching, and, as such, will be of immense help for policy framers and educators in South-Asian countries and in countries where English is a second or foreign language. Furthermore, the volume offers valuable information for researchers working in the field

of English Language Teaching (ELT), which can be used for reviewing literature and exploring the directions in which the new teaching methods and approaches are leading, and establishing the validity of research.

The Collected Works of Mahatma Gandhi
Oswal Publishers

This book is graphically illustrated with beautiful, multi-

coloured pictures. Most of the stories have a moral which will inculcate in children sublime virtues and worldly wisdom, besides entertaining them. The stories have been taken from traditional sources, viz. Aesop's fables, the Panchatantra, the Hitopadesh, etc. Other titles available in this series are: Pink

book, Green book,
Red book, Brown
book, Violet book
and Blue book.

Don't Judge a Book by Its Cover Upkar Prakashan

The Grammar of the English Tense System forms the first volume of a four-volume set, The Grammar of the English Verb

Phrase. The other volumes, to appear over the next few years, will deal with mood and modality, aspect and voice. The book aims to provide a grammar of tense which can be used both as an advanced reference grammar (for example by MA-level or postgraduate students of English or linguistics) and as a scientific

study which can act as a basis for stimulus to further research. It provides not only a wealth of data but also a unique framework for the study of the English tense system, which achieves great predictive and explanatory power on the basis of a limited number of relatively simple rules. The

framework provided allows for an analysis of the semantics of individual tenses which reflects the role of tenses not only in locating situations in time relative to speech time but also in relating situations in time relative to one another to form temporally coherent discourse. Attention is paid to the relations

between tenses. On the one hand, we can identify sets of tenses linked to particular temporal areas such as the past or the future. These sets of tenses provide for the expression of a system of temporal relations in a stretch of discourse in which all the situations are located within the same temporal area. On the other

hand, there are many make within a adverbials. Original
