Members of the naval service will find that at
all points in their careers they can expect to be
involved to some extent in the planning and
execution c~official ceremonies and social
events. Protocol is a code of established
guidelines on proper etiquette and precedence
which, when followed, lays the foundation for

a successfid event. From this foundation, the
host should consider the facets which make a
particular situation unique, and fi-om there, use
imagination to design a memorable occasion.
The most important consideration in planning
should always be the comfort of one's guests. A
clever hostlhostess is able to reach a proper
mixture of protocol and common sense that will
enable guests to enjoy themselves completely.
If this is accomplished, an event is truly
successful.

Why Have Four-Option Multiple Choice Questions?
The Navy Advancement Center (NAC) insists that the multiple-choice items used in Navy Enlistment Advancement System (NEAS) examinations have four options. The correct answer to each question should

have an ease of around 50 percent and the incorrect alternatives (off alts) should split the other 50% randomly. Among examination developers, the complaint is occasionally heard that the fourth option is hard to develop and is often not in play. Would it not be better to write better three-option items? The answer is "no" and this paper explains why. The Man-of-war's Man's Manual, United States Navy

The Last Thing He Told Me Simon and Schuster

Join me on my first tour of duty in the Navy - what went on in Boot camp, the schools I attended, what life was really like on board an aircraft carrier that was better known for fires than anything else! Come with me on a haze gray and underway misadventure on a guided missile destroyer that had trouble shooting its own missiles (let alone torpedoes) and all of the unimaginable things that happened to me...the people I met and what I witnessed in between. Telling things as they happened, it's a hilarious, serious, yet very straightforward look at life as a

Radioman in the U.S. Navy during the Cold War period (1980-1984). So set the sea and anchor detail, it's time to hit the high seas!

MISSION OF NAVAL HOSPITAL
CORPS SCHOOL To train Sailors to perform as basic Navy Hospital Corpsmen. The Student Handbook series was written to be used in the fourteen-week curriculum of the Basic Hospital Corps School. There are three Handbooks in the series: Handbook I - Fundamentals Handbook II - Emergency Care Handbook III - Nursing Care The Student Handbooks contain reading and study material to supplement the classroom lectures and demonstrations conducted during the course. Each topic in the course has a section in one of the Handbooks. The text is followed by a Worksheet, which provides study questions based on the learning objectives. The Worksheet questions are similar to those on the written examinations. Tips for Success, eight pages of study techniques, test taking strategies, and suggestions for time management follow the Foreword in Handbook I. The Student Handbooks are best used to read and prepare for upcoming classroom lectures, to re-read and fill-in the worksheet assignments and finally, re-reading as many times as necessary in preparation for written examinations and laboratory performance. Students who keep their Handbooks after graduation will find them to be an excellent study guide for advancement examinations and an outstanding reference during future duty assignments. Study smart or study

hard, the choice is yours.
