Monte Cook's Ptolus Crown Forum

This student-friendly book provides an accessible overview of

the primary debates about the effects of video games. It expands on the original *The Video Game Debate* to address the new technologies that have emerged within the field of game studies over the last few years. Debates about the negative effects of video game play have been evident since their introduction in the 1970s, but the advent of online and mobile gaming has revived these concerns, reinvigorating old debates and generating brand new ones. *The Video Game Debate 2* draws from the latest research findings from the top scholars of digital games research to address these concerns. The book explores key developments such as virtual and augmented reality, the use of micro-transactions, the integration of loot boxes, and the growth of mobile gaming and games for change (serious games). Furthermore, several new chapters explore contemporary debates around e-sports, gamification, sex and gender discrimination in games, and the use of games in therapy. This book offers students and scholars of games studies and digital media, as well as policymakers, the essential information they need to participate in the debate.

The unvarnished and unbiased inside story of President Donald Trump and his White House by New York Times bestselling author Ronald Kessler Based on exclusive interviews with the president and his staff, *The Trump White House: Changing the Rules of the Game* tells the real story of what Donald Trump is like, who influences him, how he makes decisions, what he says about the people around him, and how he operates when the television lights go off, while portraying the inside story of the successes that have already brought solid results as well as the stumbles that have turned off even longtime supporters and undercut his agenda. *The Trump White House* reveals:

- Trump aides Ivanka Trump and her husband Jared Kushner have been responsible for Trump's most disastrous decisions. Trump is aware that his daughter and son-in-law are problems and has hinted to them that they should go back to New York. Seeing Jared on TV, Trump said, "Look at Jared, he looks like a little boy, like a child."
- First Lady Melania Trump has a tremendous impact on policy and strategy. She sits in on meetings and is widely admired by aides for her judgment.
- Kellyanne Conway is the No. 1 White House leaker.
- Trump's Secret Service Director Randolph "Tex" Altes proposed withdrawing protection from some Trump family members and aides

to save money. Horrified White House staffers shot down the idea.

- Trump has told friends that billionaires are constantly asking him to fix them up with longtime Communications Director Hope Hicks, a former model, but he says he refuses.
- Trump calls certain reporters directly, feeding them stories attributed to "a senior White House official," creating the impression that the White House leaks even more than it already does. Never before has an American president had so much impact on the country and the world in so short a time as Donald Trump. Yet no president has stirred so much controversy, dominating media coverage and conversation both pro and con. Months after Trump took office, consumer confidence hit a seventeen-year high, unemployment plummeted to the lowest level in seventeen years, and the stock market zoomed to repeated record highs. At the same time, ISIS was nearly defeated, Arab countries banded together to stop financing terrorists and promoting radical Islamic ideology, and Trump's decision to send missiles into Syria because of its use of chemical weapons and his strident warnings to North Korean leader Kim Jong-un made it clear to adversaries that they take on the United States at their peril. Yet for all the media coverage, Trump remains a cipher. Ronald Kessler has known Trump and First Lady Melania Trump for two decades and understands him better than any other journalist. The book includes an exclusive interview with Trump, the only interview he says he has given or will give for a book as president. Crammed with media-grabbing revelations. *The Trump White House* is the unvarnished and unbiased inside story that answers the question: Who is Donald Trump?

The mark of a great coach is a constant desire to learn and grow. A hunger to use whatever can make them better. The best-selling author of *Teach Like a Champion* and *Reading Reconsidered* brings his considerable knowledge

about the science of classroom teaching to the sports coaching world to create championship caliber coaches on the court and field. What great classroom teachers do is relevant to coaches in profound ways. After all, coaches are at their core teachers. Lemov knows that coaches face many of the same challenges found in the classroom, so the science of learning applies equally to them. Unfortunately, coaches and organizations have a mixed level of understanding of the research and study of the science of learning. Sometimes coaches and organizations build their teaching on myths and platitudes more than science. Sometimes there isn't any science applied at all. While there are thousands of books and websites a coach can consult to better understand technical and tactical aspects of the game, there is nothing for a coach to consult that explicitly examines the teaching problems on the field, the court, the rink, and the diamond. Until now. Intended to offer lessons and guidance that are applicable to coaches of any sporting endeavor including everyone from parent volunteers to professional coaches and private trainers, Lemov brings the powerful science of learning to the arena of sports coaching to create the next generation of championship caliber coaches.

The Diet Compass: The 12-Step Guide to Science-Based Nutrition for a Healthier and Longer Life Triumph Books

The answer to all questions about aging and nutrition. When science journalist Bas Kast collapsed with chest pains when he was only 40, he was faced with an existential question: had he ruined his health with junk food? He decided to radically change his eating habits in order to heal himself. But what is really good for you? This was the beginning of a journey of discovery into the latest research into aging and nutrition--and it lasted several years. What do people with a particularly long life span eat? How can you lose weight efficiently? Are afflictions typical of old age avoidable? Can you "eat yourself young" with certain foods? Much of what we think is healthy can even be harmful. Bas Kast

has compared thousands of sometimes contradictory studies to deliver scientifically founded findings about what really makes for healthy eating.

Possible Worlds in Video Games: From Classic Narrative to Meaningful Actions Routledge

NATIONAL BESTSELLER "Doug Smith always gets the first

question in any Raptors press conference--as the dean of our press corps, he's been in the front row for every development over the past 25 years. There's no one better placed to write a history of our team's first quarter century." --Nick Nurse, head coach, Toronto Raptors Bringing Jurassic Park to your home, a celebration of Canada's most exciting team. When the Toronto Raptors first took the court back in 1995, the world was a very different place. Michael Jordan was tearing up the NBA. No one had email. And a lot of people wondered whether basketball could survive in Toronto, the holy city of hockey. More than two decades later, the Raptors are the heroes not only of the 416, but of the entire country. That is the incredible story of We the North, told by Doug Smith, the Toronto Star reporter who has been covering the team since the press conference announcing Canada's new franchise and the team's beat reporter from that day on. Comprising twenty-five chapters to mark the team's first twenty-five years, We the North celebrates the biggest moments--from Vince Carter's amazing display at the dunk competition to the play-off runs, the major trades, the Raptors' incredible fans, including Nav Bhatia and Drake, and, of course, the challenges that marked the route to the championship-clinching Game 6 that brought the whole country to a standstill. We the North: 25 Years of the Toronto Raptors tells the story of Canada's most exciting team, charting their rise from a sporting oddity in a hockey-mad country to the status they hold today as the reigning NBA champions and national heroes.

Towards Creative Learning Spaces Emerald Group Publishing

This book offers new ways of investigating relationships between learning and the spaces in which it takes place. It suggests that we need to understand more about the distinctiveness of teaching and learning in post-compulsory education, and what it is that matters about the design of its spaces. Starting from contemporary educational and architectural theories, it suggests alternative conceptual frameworks and methods that can help map the social and spatial practices of education in universities and colleges; so as to enhance the architecture of post-compulsory education.
