As plant physiology increased steadily in the latter half of the 19th century, problems of absorption and transport of water and of mineral nutrients and problems of the passage of metabolites from one cell to another were investigated, especially in Germany. JUSTUS VON LIEBIG, who was born in Darmstadt in 1803, founded agricultural chemistry and developed the techniques of mineral nutrition in agriculture during the 70 years of his life. The discovery of plasmolysis by NAGEL! (1851), the investigation of permeability problems of artificial membranes by TRAUBE (1867) and the classical work on osmosis by PFEFFER (1877) laid the foundations for our understanding of soluble substances and osmosis in cell growth and cell mechanisms. Since living membranes were responsible for controlling both water movement and the substances in solution, "permeability" became a major topic for investigation and speculation. The problems then discussed under that heading included passive permeation by diffusion, Donnan equilibrium adjustments, active transport processes and antagonism between ions. In that era, when organelle isolation by differential centrifugation was

unknown and the electron microscope had not been invented, the number of cell membranes, their thickness and their composition, were matters for conjecture. The nature of cell surface membranes was deduced with remarkable accuracy from the reactions of cells to substances in solution. In 1895, OVERTON, in U. S. A. , published the hypothesis that membranes were probably lipid in nature because of the greater penetration by substances with higher fat solubility.

Statistics for Economics - Class 11 - CBSE (2021-22) Arihant

Publications India limited

NCERT Textbooks play the most vital role in developing student's

understanding and knowledge about a subject and the concepts or

topics covered under a particular subject. Keeping in mind this

immense importance and significance of the NCERT Textbooks in

mind, Arihant has come up with a unique book containing Questions-

Answers of NCERT Textbook based questions. This book containing

solutions to NCERT Textbook questions has been designed for the

students studying in Class XI following the NCERT Textbook for

Biology. The present book has been divided into 22 Chapters namely

Biological Classification, Plant Kingdom, Animal Kingdom,

Biomolecules, Mineral Nutrition, Respiration in Plants, Digestion &

Absorption, Anatomy of Flowering Plants, Cell Cycle & Cell Division,

Respiration in Plants, Body Fluids & Circulation, Morphology of

Flowering Plants, Locomotion & Movement, etc covering the syllabi of

Biology for Class XI. This book has been worked out with an aim of

overall development of the students in such a way that it will help

students define the way how to write the answers of the textbook based

questions. The book covers selected NCERT Exemplar Problems

which will help the students understand the type of questions and

answers to be expected in the Class XI Biology Examination. Also each

chapter in the book begins with a summary of the chapter which will help in effective understanding of the theme of the chapter and to make sure that the students will be able to answer all popular questions concerned to a particular chapter whether it is Long Answer Type or Short Answer Type Question. For the overall benefit of students the book has been designed in such a way that it not only gives solutions to all the exercises but also gives detailed explanations which will help the students in learning the concepts and will enhance their thinking and learning abilities. As the book has been designed strictly according to the NCERT Textbook of Biology for Class XI and contains simplified text material in the form of class room notes and answers to all the questions in lucid language, it for sure will help the Class XI students in an effective way for Biology.

Physics : Textbook For Class Xi Arihant Publications India limited

In the 2007 third edition of her successful textbook, Paula Rudall provides a

comprehensive yet succinct introduction to the anatomy of flowering plants.

Thoroughly revised and updated throughout, the book covers all aspects of

comparative plant structure and development, arranged in a series of

chapters on the stem, root, leaf, flower, seed and fruit. Internal structures are

described using magnification aids from the simple hand-lens to the electron

microscope. Numerous references to recent topical literature are included,

and new illustrations reflect a wide range of flowering plant species. The

phylogenetic context of plant names has also been updated as a result of

improved understanding of the relationships among flowering plants. This

clearly written text is ideal for students studying a wide range of courses in

botany and plant science, and is also an excellent resource for professional

and amateur horticulturists.

2022 Exam) Oswaal Books and Learning Private Limited

Deals partly with the establishment of the Tuskegee Normal and

Industrial Institute.

Themes in World History Bairn Learning solutions Private limited

The book has been designed topic and subtopic-wise, keeping the

students' needs in mind. The current edition has certain unique

features: Each chapter starts with a To Do list. It gives the central idea

of the chapter and the way it has been addressed. Each chapter is

divided into several sections corresponding to different components of

the syllabus. Each chapter is splashed with HOTS. This is to promote

clarity of the basics. Focus Zones in each chapter present a crux of the

concepts. Blocks in each chapter include matter of special significance.

Power Points and Revision Window offer a quick glance of the subject

matter. 'Exercise' is tuned to the pattern of examination. Answers

to important questions focus on the technique of writing. The exercise

includes: objective type questions (remembering & understanding

based questions), divided into five sections: (a) multiple choice

questions, (b) fill in the blanks, (c) true or false, (d) matching the correct

statements, (e) 'very short answer' objective type questions reason-

based questions HOTS & applications analysis & evaluation CBSE questions (with answers or reference to the text for answers) NCERT questions (with hints to answers) miscellaneous and add-on questions (with hints or reference to the text for answers) Dos and Don'ts (at the end of each chapter) should serve as a safeguard against misinterpretation of the concepts. Ability Zone is a uniquely designed section at the end of the chapter. This raises the difficulty level, of course, but should serve as a useful material for the outstanding learners. Solved & Unsolved numericals are given to boost a grip on the subject.

Textbook in History for Class XI Arihant Publications India limited NCERT Textbooks play the most vital role in developing student's understanding and knowledge about a subject and the concepts or topics covered under a particular subject.
