Foreword by M. G. Leonard: 'It's rare to find a book that's as useful as it is inspiring ... essential reading.' The indispensable guide to writing for children and young adults, this Yearbook provides inspirational articles from successful writers and illustrators, as well as details on who to contact across the media. It provides practical advice on all stages of the writing process from getting started, writing for different markets and genres, through to submission to literary agents and publishers as well as on the financial and legal aspects of being a writer. Widely recognised as the essential support for authors and illustrators working across all forms: fiction, non-fiction, poetry, screen and theatre, it is equally relevant to those wishing to self-publish as well as those seeking a traditional publisher-agent deal. Today, the meaning of literacy, what it means to be literate, has shifted dramatically. Literacy involves more than a set of conventions to be learned, either through print or technological formats. Rather, literacy enables people to negotiate meaning. The past decade has witnessed increased attention on multiple literacies and modalities of learning associated with teacher preparation and practice. Research recognizes both the increasing cultural and linguistic diversity in the new globalized society and the new variety of text forms from multiple communicative technologies. There is also the need for new skills to operate successfully in the changing literate and increasingly diversified social environment. Linguists, anthropologists, educators, and social theorists no longer believe that literacy can be defined as a concrete list of skills that people merely manipulate and use. Rather, they argue that becoming literate is about what people do with literacy—the values people place on various acts and their associated ideologies. In other words, literacy is more than linguistic; it is political and social practice that limits or creates possibilities for who people become as literate beings. Such understandings of literacy have informed and continue to inform our work with teachers who take a sociological or critical perspective toward literacy instruction.

Importantly, as research indicates, the disciplines pose specialized and unique literacy demands. Disciplinary literacy refers to the idea that we should teach the specialized ways of reading, understanding, and thinking used in each academic discipline, such as science, mathematics, engineering, history, or literature. Each field has its own ways of using text to create and communicate meaning. Accordingly, as children advance through school, literacy instruction should shift from general literacy strategies to the more specific or specialized ones from each discipline. Teacher preparation programs emphasizing different disciplinary literacies acknowledge that old approaches to literacy are no longer sufficient. Literacy in Teacher Preparation and Practice: Enabling Individuals to Negotiate Meaning introduces the reader to a collection of thoughtful, research-based works by authors that represent current thinking about literacy across disciplines and the preparation of teachers to enter classrooms. Each chapter focuses on teaching guided by literacies across disciplines and the preparation of teachers who will enter classrooms to instruct the next generation of students.

Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

*Launching the Writer's Workshop* John Wiley & Sons

"At Moreland Hills Elementary School something remarkable is taking place," writes district literacy specialist Maren Koepf. "Across the past ten years, teachers and administrators have worked together to produce a learning network supporting our students, our staff, and our parents. . . Much like the once-apprehensive peasants in the tale of Stone Soup, folks have gradually emerged from their isolated 'huts' of offices and classrooms to generate mutual resources, solutions, and innovations. Through joint endeavors, we created a Comprehensive Literacy System." In *Synchronizing Success*, Maren takes you on a tour of one school's winning strategy for developing an efficient and effective network of literacy support from kindergarten through fifth-grade. Beginning with a practical framework for continuous improvement, Maren presents three guiding principles that underlie the comprehensive system: continuity across practice, instructional language, assessment, etc.; ongoing professional development; and collaborative leadership. She illustrates how applying these guiding principles extends a school's capacity for unity and innovation. The book shows how school leaders can create a comprehensive literacy system, throughout schools and across districts, by aligning change components with a vision for literacy education, and offers tried-and-true processes for developing: job-embedded professional development; common literacy assessments; consistent instructional frameworks; prioritized curricular focus; timely and targeted intervention. Enriched with tools, tips, and planning guides for incrementally managing positive change, *Synchronizing Success* provides literacy specialists, principals, and staff developers the resources and action steps necessary for designing an integrated literacy system tailor-fit to their school setting.

This new edition of the bestseller, *Reading, Writing, and Talk*, responds to the urgent need for creating language and literacy pathways that are inclusive, intentional, and center wholeness and belonging. The authors explain, show, and offer critical reflections on the development, teaching, and learning of reading, writing, and talk in early childhood and the early grades—across language practices, dis/abilities, and contexts. This second edition troubles whose reading, writing, and talk belongs in schools, offering insights into and examples of fostering belonging in the classroom. It elucidates the racialization of academic language and analyzes school-sponsored language and literacy curricula to demonstrate the power of expansive literacies and linguistic justice in practice. Readers will enter classrooms where teachers learn from and alongside children, families, and communities about identities, practices, values, funds of knowledge, and more. This update of the popular text offers a wealth of knowledge and examples to help educators truly and fully teach reading, writing, and talk for equity and justice. Praise for the First Edition—“This book is an important read for current and future primary grade teachers who want to help children achieve their full potential through culturally-relevant and inclusive instruction.” —Teachers College Record “In *Reading, Writing, and Talk*, Souto-Manning and Martell succeed in honoring their commitment to ‘reading words, but also reading worlds—and rewriting them transformatively, in just and inclusive ways.’” —Journal of Education
