This booklet provides advice and guidance to employers for

assessment of their activities under the Control of Substances Hazardous to Health Regulations 1988 (COSHH). It replaces COSHH Assessments: A Step by Step Guide to Assessment and the Skills Needed for it published by HSE when COSHH was first introduced. This guidance takes note of the experience in assessment that has been gained since 1988 and the new requirement for regular review. The principles of assessment have not changed since COSHH first appeared, but this booklet illustrates them with extensive examples.

For the NEBOSH Certificate in Environmental Management International Labour Organization Health and Safety: Risk Management is the clearest and most comprehensive book on risk management available today. This newly revised fifth edition takes into account new developments in legislation, standards and good practice. ISO 45001, the international health and safety management system standard, is given comprehensive treatment, and the latest ISO 9004 and ISO 19011 have also been addressed. The book is divided into four main parts. Part 1.1 begins with a basic introduction to the techniques of health and safety risk management and continues with a description of ISO 45001. Part 1.2 covers basic human factors including how the sense organs work and the psychology of the individual. Part 2.1 deals with more advanced techniques of risk management including advanced incident investigation, audit and risk assessment, and Part 2.2 covers a range of advanced human factors topics including human error and decision making. This authoritative treatment of health and safety risk management is essential reading for both students working towards degrees, diplomas and postgraduate or vocational qualifications, and experienced health and safety professionals, who will find it invaluable as a reference.

The Costs of Accidents at Work Partridge Publishing Singapore

This publication forms part of the extended series on railway safety principles and guidance dealing with staff competence, management and organization, railway operations, and human factors. Part 4A centres around a number of principles, each with underlying factors and guidance on each principle, offering explanations and examples. It is primarily aimed at those who are responsible for managing the competence of individuals and teams in the railway industry, whose work has an impact on operational safety (including the safety of the public, themselves and their co-workers). It is of particular interest to railway infrastructure controllers, all train/tram operating companies, maintenance/renewal companies, and their contractors/subcontractors. Successful Health & Safety Management Routledge This revised version of HS(G)96 (0 7176 1343 7) continues to publicize the message that most companies do not realize the extent of their losses due to accidents. It emphasizes that there is no contradiction between profitability and good health and safety management. TUC figures show that unions secured damage awards totalling 304m for workplace injuries and ill health to their members in 1995. The revision is aimed primarily at management and applies to all industries. It replaces 0 7176 1343 7, with the same series number.
