This booklet provides advice and guidance to employers for assessment of their activities under the Control of Substances Hazardous to Health Regulations 1988 (COSHH). It

replaces COSHH Assessments: A Step by Step Guide to Assessment and the Skills Needed for it published by HSE when COSHH was first introduced. This guidance takes note of the experience in assessment that has been gained since 1988 and the new requirement for regular review. The principles of assessment have not changed since COSHH first appeared, but this booklet illustrates them with extensive examples.

Among the many factors that contribute to the deterioration of the working environment, noise and vibration have an important place. This code of practice, adopted at a meeting of experts convened by the ILO, sets out the principles that

should be followed for the control of workplace noise and vibration, and contains the information required for the establishment of control programmes for individual plants. The latest impression of the code incorporates modifications resulting from the adoption of IEC and ISO standards and relevant extracts from recently published ILO codes of practice. Routledge

As conservation of the environment plays an increasingly important role within society, Birnie, Boyle, and Redgwell's *International Law and the Environment* continues to be an essential read for students and practitioners alike. Whilst remaining rooted within the substantive law, the book places legislation on the protection of the environment firmly at the core of the text. Written by experts in the field, the

authors employ sharp and thorough analysis of the laws, allowing them to share their extensive knowledge and experience with the reader. The authors provide a unique perspective on the implications of international regulation, promoting a wider understanding of the pertinent issues impacting upon the law.

The costs of failure to manage health and safety successfully are high. This manual was prepared by HSE's Accident Prevention Advisory Unit as a practical guide for directors, managers and health and safety professionals intent on improving health and safety performance. The advice given here will be increasingly used by HSE inspectors as a basis for testing the performance of organizations against the general duties of the Health and Safety at Work etc Act 1974. Don'T Study Hard, Just Study Smart Routledge

This revised version of HS(G)96 (0 7176

1343 7) continues to publicize the message that most companies do not realize the extent of their losses due to accidents. It emphasizes that there is no contradiction between profitability and good health and safety management. TUC figures show that unions secured damage awards totalling 304m for workplace injuries and ill health to their members in 1995. The revision is aimed primarily at management and applies to all industries. It replaces 0 7176 1343 7, with the same series number.
