Or will Maddie lose her nerve along with her heart?

Johannes Cabal the Necromancer Macmillan

"The Brothers Cabal is smart, funny, and dark in all the right places. Imagine Mycroft and Sherlock-if one were a polite vampire and the other were a surly necromancer-up against an army of monsters and magicians. Like Pratchett and Fforde, Jonathan L. Howard puts it all together and makes it look effortless." -Christopher Farnsworth, author of Blood Oath Horst Cabal has risen from the dead. Again. Horst, the most affable vampire one is ever likely to meet, is resurrected by an occult conspiracy that wants him as a general in a monstrous army. Their plan: to create a country of horrors, a supernatural homeland. As Horst sees the lengths to which they are prepared to go and the evil they cultivate, he realizes that he cannot fight them alone. What he really needs on his side is a sarcastic, amoral, heavily armed necromancer. As luck would have it, this exactly describes his brother. Join the brothers Cabal as they fearlessly lie quietly in bed, fight dreadful monsters from beyond reality, make soup, feel slightly sorry for zombies, banter lightly with secret societies that wish to destroy them, and—in passing—set out to save the world.* *The author wishes to point out that there are no zebras this time, so don't get your hopes up on that count. There is, however, a werebadger, if that's something that's been missing from your life.

Well . . . not really. He's pretty tired of getting beat up by everyone and their mother, for one thing, and he can't help but feel that his new house hates him. His best friend is a werewolf, someone is threatening his sister, and while Sam realizes that he himself has a lot of power at his fingertips, he's not exactly sure how to use it. Which, he has to admit, is a bit disconcerting. But when everything starts falling apart, he decides it's time to step up and take control. His attempts to do so just bring up more questions, though, the most important of which is more than a little alarming: Is Douglas really dead?

The Genesis Conflict Anchor

Similarities between esoteric and mystical currents in different religious traditions have long interested scholars. This book takes a new look at the relationship between such currents. It advances a discussion that started with the search for religious essences, archetypes, and universals, from William James to Eranos. The universal categories that resulted from that search were later criticized as essentialist constructions, and questioned by deconstructionists. An alternative explanation was advanced by diffusionists: that there were transfers between different traditions. This book presents empirical case studies of such constructions, and of transfers between Judaism, Christianity, and Islam in the premodern period, and Judaism, Christianity, and Western esotericism in the modern period. It shows that there were indeed transfers that can be clearly documented, and that there were also indeed constructions, often very imaginative. It also shows that there were many cases that were neither transfers nor constructions, but a mixture of the two.
