The death of the book has been duly announced, and with it the end of brick-and-mortar libraries, traditional publishers, linear narrative, authorship, and disciplinarity, along with the emergence of a more equitable discursive order. These essays suggest that it won't be that simple. While the contributors to this volume are enthusiastic about the possibilities created by digital technologies, they also see the new media raising serious critical issues that force us to reexamine basic notions about rhetoric, reading, and the nature of discourse itself.

Social Transformation in Post-conflict Nepal Teach Yourself  
Are reports of the death of conventional fieldwork in anthropology greatly exaggerated? This book takes a critical look at the latest developments and key issues in fieldwork. The nature of 'locality' itself is problematic for both research subjects and fieldworkers, on the grounds that it must now be maintained and represented in relation to widening (and fragmenting) social frames and

networks. Such developments have raised questions concerning the nature of ethnographic presence and scales of comparison. From the social space of a cybercafe to cities in India, the UK and South Africa among others, this book features a wide range of ethnographic studies that provide new ways of looking at the concepts of 'locality' and 'site'. It shows that rather than taking key fieldwork processes such as globalization and mobility for granted, anthropologists are well-placed to examine and critique the totalizing assumptions behind these notions.

*Battles of the New Republic: A Contemporary History of Nepal* is a story of Nepal's transformation from war to peace, monarchy to republic, a Hindu kingdom to a secular state, and a unitary to a potentially federal state. Part-reportage, part-history, part-analysis, part-memoir, and part-biography of the key characters, the book breaks new ground in political writing from the region. With access to the most powerful leaders in the country as well as diplomats, it gives an unprecedented glimpse into Kathmandu's high politics. But this is coupled with ground-level reportage on the lives of ordinary citizens of the hills and the plains, striving for a democratic, just and equitable society. It tracks the hard grind of political negotiations at the heart of the instability in Nepal. It traces the rise of a popular rebellion, its integration into the mainstream, and its steady decline. It investigates Nepal's status as a partly-sovereign country, and reveals India's overwhelming role. It examines the angst of having to prove one's loyalties to one's own country, and exposes the Hindu hill upper-caste dominated power structures. *Battles of the New Republic* is a story of the deepening of democracy, of the death of a dream, and of that fundamental political dilemma - who exercises power, to what end, and for whose benefit.

The powerful, poignant, bestselling National Book Award Finalist gives voice to a young girl robbed of her childhood yet determined to find the strength to

triumph Lakshmi is a thirteen-year-old girl who lives with her family in a small hut on a mountain in Nepal. Though she is desperately poor, her life is full of simple pleasures, like playing hopscotch with her best friend from school, and having her mother brush her hair by the light of an oil lamp. But when the harsh Himalayan monsoons wash away all that remains of the family's crops, Lakshmi's stepfather says she must leave home and take a job to support her family. He introduces her to a glamorous stranger who tells her she will find her a job as a maid in the city. Glad to be able to help, Lakshmi journeys to India and arrives at "Happiness House" full of hope. But she soon learns the unthinkable truth: she has been sold into prostitution. An old woman named Mumtaz rules the brothel with cruelty and cunning. She tells Lakshmi that she is trapped there until she can pay off her family's debt-then cheats Lakshmi of her meager earnings so that she can never leave. Lakshmi's life becomes a nightmare from which she cannot escape. Still, she lives by her mother's words- Simply to endure is to triumph-and gradually, she forms friendships with the other girls that enable her to survive in this terrifying new world. Then the day comes when she must make a decision-will she risk everything for a chance to reclaim her life? Written in spare and evocative vignettes by the co-author of I Am Malala (Young Readers Edition), this powerful novel renders a world that is as unimaginable as it is real, and a girl who not only survives but triumphs.

International development efforts aimed at improving girls' lives and education have been well-intended, somewhat effective, but ultimately short-sighted and incomplete. This is because international development efforts often operate under a reductive understanding of the term 'gender' and how it influences the lives of girls and boys.

Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour. In particular, the analysis in Gender Trouble Makers focuses on the social constructions of gender and the ways in which gender was reinforced and maintained through a case study in rural Nepal. In developing countries like Nepal, promoting access to and participation in existing formal education programme is clearly necessary, but it is not, in itself, sufficient to transform gender power relations in the broader society. When gender is properly addressed as a process, then all stakeholders involved - researchers, governmental officials, and community members - can begin to understand and devise more effective ways to increase both girl and boy students' enrollment, participation, and success in school.

The Human Development Report, now in its seventh edition, updates the unique Human Development Indicators comparing human development in most countries of the world, and the data tables on all aspects of human development. The special focus of this edition is on the important link between economic growth and human development. The Report maintains that the link is not automatic but can be established through proper policy management, arguing the case for initiating and accelerating economic growth and at the same time accelerating and sustaining human development in

different parts of the world. The Report also maintains that the quality of growth is as important as its quantity; otherwise, growth can be jobless, voiceless, ruthless, rootless, and futureless. It identifies employment as an important instrument in translating the benefits of economic growth into people's lives. An indispensable resource for courses in international development, the Report ranks 174 countries according to the Human Development Index (HDI). It also gives the global ranking of more than 100 countries in terms of Gender-Related Development Index (GDI) and the Gender Empowerment Measure (GEM). The first index represents HDI, taking into account gender inequality in capabilities, and the second represents female opportunities in selected economic and political areas. New to this edition is the Capability Poverty Measure (CPM), which is used as an alternative to the traditional income poverty measure. The Report concludes that the future challenge is how to forge and sustain the desired kind of linkage between economic growth and human development in a globalized world which represents both opportunities and threats for the nations of the world.

South Asia is the region with the highest number of slaves globally according to the Global Slavery Index. Bonded labour affects between 15 and 20 million labourers within the region, and is shaped by locally specific interconnections between ethnicity, class, caste and, critically, gender structures. Masculinity and Modern Slavery in Nepal explores the role of masculinity in shaping the structures and experience of slavery and subsequent freedom. While many I/NGOs and human rights organisations use freedom from slavery as a powerful and emotive goal, the lived reality of freedom for many bonded labourers often results in disappointment and frustration as they navigate diverse expectations of masculinity. Taking Nepal as a case study, the book illustrates how men's gendered experiences of bondedness and freedom can inform perspectives on the transition to freedom and modernity in South Asia more broadly. Researchers of modern slavery, gender studies, and South Asian studies will be interested in the rich analysis on offer in this book.

The concept of social transformation has been increasingly used to study significant political, socio-economic and cultural changes affected by individuals and groups. This book uses a novel approach from the gender perspective and from bottom up to analyse social transformation in Nepal, a country with a complex traditional structure of caste, class, ethnicity, religion and regional locality and the experience of the ten-year of People's War (1996-2006). Through extensive interviews with women in post-conflict Nepal, this book analyses the intended and unintended impacts of conflict and traces the transformations in women's understandings of themselves and their positions in public life. It raises important questions for the international community about the inevitable victimization of women during mass violence, but it also identifies positive impacts of armed conflict. The book also discusses how the Maoist insurgency had empowering effects on women. The first study to provide empirical evidence on the relationship between armed

conflict and social transformation from gender's perspectives, this book is a major contribution to the field of transitional justice and peacebuilding in post-armed-conflict Nepal. It is of interest to academics researching South Asia, Gender, Peace and Conflict Studies and Development Studies.
