heart of Filthy Animals, set among young creatives in the American Midwest, a young man treads delicate emotional waters as he navigates a series of sexually fraught encounters with two dancers in an open relationship, forcing him to weigh his vulnerabilities against his loneliness. In other stories, a young woman battles with the cancers draining her body and her family; menacing undercurrents among a group of teenagers explode in violence on a winter night; a little girl tears through a house like a tornado, driving her babysitter to the brink; and couples feel out the jagged edges of connection, comfort, and cruelty. One of the breakout literary stars of 2020, Brandon Taylor has been hailed by Roxane Gay as “ a writer who wields his craft in absolutely unforgettable ways. ” With Filthy Animals he renews and expands on the promise made in Real Life, training his precise and unsentimental gaze on the tensions among friends and family, lovers and others. Psychologically taut and quietly devastating, Filthy Animals is a tender portrait of the fierce longing for intimacy, the lingering presence of pain, and the desire for love in

a world that seems, more often than not, to withhold it.

"In a tiny settlement on the west coast of Greenland, 11-year-old Aleq and his best friend, frequent trespassers at a mining site exposed to mountains of long-buried and thawing permafrost, carry what they pick up back into their village, and from there Shepard's harrowing and deeply moving story follows Aleq, one of the few survivors of the initial outbreak, through his identification and radical isolation as the likely index patient. While he shoulders both a crushing guilt for what he may have done and the hopes of a world looking for answers, we also meet two Epidemic Intelligence Service investigators dispatched from the CDC--Jeannine, an epidemiologist and daughter of Algerian immigrants, and Danice, an MD and lab wonk. As they attempt to head off the cataclysm, Jeannine--moving from the Greeland hospital overwhelmed with the first patients to a Level 4 high-security facility in the Rocky Mountains--does what she can to sustain Aleq."--Publisher's description.

From the bestselling and PEN/Faulkner Award-winning author of *Netherland*, a fascinating, personal, and beautifully crafted family history. Joseph O'Neill's grandfathers--one Turkish, one Irish--were both imprisoned for suspected subversion during the Second World War. The Irish grandfather, a handsome rogue from a family of small farmers, was an active member of the IRA. O'Neill's other grandfather, a debonair hotelier from the tiny and threatened Turkish Christian minority, was interned by the British in Palestine on suspicion of being an Axis spy. With intellect, compassion, and grace, O'Neill sets the stories of these individuals against the history of the last century's most inhuman events.

Dominion Basic Books

A brilliant condemnation of political hobbyism—treating politics like entertainment—and a call to arms for well-meaning, well-informed citizens who consume political news, but do not take political action. Who is to blame for our broken politics? The uncomfortable answer to this question starts with ordinary citizens with good intentions. We vote (sometimes) and occasionally sign a petition or attend a rally. But we mainly “engage” by consuming politics as if it’s a sport or a hobby. We soak in daily political gossip and eat up statistics about who’s up and who’s down. We tweet and post and share. We crave outrage. The hours we spend on politics are used mainly as pastime. Instead, we should be spending the same number of hours building

political organizations, implementing a long-term vision for our city or town, and getting to know our neighbors, whose votes will be needed for solving hard problems. We could be accumulating power so that when there are opportunities to make a difference—to lobby, to advocate, to mobilize—we will be ready. But most of us who are spending time on politics today are focused inward, choosing roles and activities designed for our short-term pleasure. We are repelled by the slow-and-steady activities that characterize service to the common good. In *Politics Is for Power*, pioneering and brilliant data analyst Eitan Hersh shows us a way toward more effective political participation. Aided by political theory, history, cutting-edge social science, as well as remarkable stories of ordinary citizens who got off their couches and took political power seriously, this book shows us how to channel our energy away from political hobbyism and toward empowering our values.

Ghost Light Penguin

A New York Times Notable Book Nominated for the Man Booker Prize In this extraordinary, both comic and philosophically profound novel, the acclaimed author of *Netherland* uncovers the hidden contours of a glittering Middle Eastern city—and the quiet dilemmas of modernity. When our unnamed hero, a self-sabotaging and oddly existential lawyer, finds his life in New York falling apart, he seizes an opportunity to flee to Dubai, taking a mysterious job for a fabulously wealthy Lebanese family. As he struggles with his position as the “family officer” of the capricious Batros brothers, he also struggles with the “doghouse,” a condition of culpability in which he

feels trapped, even as he composes endless electronic correspondence—both sent and unsent—in an attempt to find a way out. An unforgettable fable for our globalized times, *The Dog* is told with Joseph O'Neill's hallmark eloquence, empathy, and stylistic mastery.

New York Times bestseller! If your funny older sister were the former deputy chief of staff to President Barack Obama, her behind-the-scenes political memoir would look something like this... Alyssa Mastromonaco worked for Barack Obama for almost a decade, and long before his run for president. From the then-senator's early days in Congress to his years in the Oval Office, she made Hope and Change happen through blood, sweat, tears, and lots of briefing binders. But for every historic occasion-meeting the queen at Buckingham Palace, bursting in on secret climate talks, or nailing a campaign speech in a hailstorm-there were dozens of less-than-perfect moments when it was up to Alyssa to save the day. Like the time she learned the hard way that there aren't nearly enough bathrooms at the Vatican. Full of hilarious, never-before-told stories, *WHO THOUGHT THIS WAS A GOOD IDEA?* is an intimate portrait of a president, a book about how to get stuff done, and the story of how one woman challenged, again and again, what a "White House official" is supposed to look like. Here Alyssa shares the strategies that made her successful in politics and beyond, including the importance of confidence, the value of not being a jerk, and why ultimately everything comes down to hard work (and always carrying a spare tampon). Told in a smart, original voice and topped off with a couple of really good cat stories, *WHO THOUGHT THIS WAS A GOOD IDEA?* is a promising debut from a savvy political star.

From the acclaimed historian and New Yorker writer comes this urgent manifesto on the dilemma of nationalism and the erosion of liberalism

in the twenty-first century. At a time of much despair over the future of liberal democracy, Jill Lepore makes a stirring case for the nation in *This America*, a follow-up to her much-celebrated history of the United States, *These Truths*. With dangerous forms of nationalism on the rise, Lepore, a Harvard historian and *New Yorker* staff writer, repudiates nationalism here by explaining its long history—and the history of the idea of the nation itself—while calling for a “new Americanism”: a generous patriotism that requires an honest reckoning with America’s past. Lepore begins her argument with a primer on the origins of nations, explaining how liberalism, the nation-state, and liberal nationalism, developed together. Illiberal nationalism, however, emerged in the United States after the Civil War—resulting in the failure of Reconstruction, the rise of Jim Crow, and the restriction of immigration. Much of American history, Lepore argues, has been a battle between these two forms of nationalism, liberal and illiberal, all the way down to the nation’s latest, bitter struggles over immigration. Defending liberalism, as *This America* demonstrates, requires making the case for the nation. But American historians largely abandoned that defense in the 1960s when they stopped writing national history. By the 1980s they’d stopped studying the nation-state altogether and embraced globalism instead. “When serious historians abandon the study of the nation,” Lepore tellingly writes, “nationalism doesn’t die. Instead, it eats liberalism.” But liberalism is still in there, Lepore affirms, and *This America* is an attempt to pull it out. “In a world made up of nations, there is no more powerful way to fight the forces of prejudice, intolerance, and injustice than by a dedication to equality, citizenship, and equal rights, as guaranteed by a nation of laws.” A manifesto for a better nation, and a call for a “new Americanism,” *This America* reclaims the nation’s future by reclaiming its past.

In this loose retelling of *Howard's End*, Zadie Smith considers the big questions: Why do we fall in love with the people we do? Why do we visit our mistakes on our children? What makes life truly beautiful? Set in New England mainly and London partly, *On Beauty* concerns a pair of feuding families—the Belseys and the Kippes—and a clutch of doomed affairs. It puts low morals among high ideals and asks some searching questions about what life does to love. For the Belseys and the Kippes, the confusions—both personal and political—of our uncertain age are about to be brought close to home: right to the heart of family.

A “marvelous” (*Economist*) account of how the Christian Revolution forged the Western imagination. Crucifixion, the Romans believed, was the worst fate imaginable, a punishment reserved for slaves. How astonishing it was, then, that people should have come to believe that one particular victim of crucifixion—an obscure provincial by the name of Jesus—was to be worshipped as a god. *Dominion* explores the implications of this shocking conviction as they have reverberated throughout history. Today, the West remains utterly saturated by Christian assumptions. As Tom Holland demonstrates, our morals and ethics are not universal but are instead the fruits of a very distinctive civilization. Concepts such as secularism, liberalism, science, and homosexuality are deeply rooted in a Christian seedbed. From Babylon to the Beatles, Saint Michael to #MeToo, *Dominion* tells the story of how Christianity transformed the modern world.

[The Tapping Solution](#) HarperCollins UK

A masterly collection of eleven stories about the way we live now from the best-selling author of *Netherland*. From bourgeois facial-hair trends to parental sleep deprivation, Joseph O’Neill closely observes the mores of his characters, whose vacillations and second thoughts expose the mysterious pettiness, underlying

violence, and, sometimes, surprising beauty of ordinary life in the early twenty-first century. A lonely wedding guest talks to a goose; two poets struggle over whether to participate in a “pardon Edward Snowden” verse petition; a cowardly husband lets his wife face a possible intruder in their home; a potential co-op renter in New York City can’t find anyone to give him a character reference. On the surface, these men and women may be in only mild trouble, but in these perfectly made, fiercely modern stories O’Neill reminds us of the real, secretly political consequences of our internal monologues. No writer is more incisive about the strange world we live in now; the laugh-out-loud vulnerability of his people is also fodder for tears.

What exactly is goodness? Where is it found in the literary imagination?

Toni Morrison, one of American letters’ greatest voices, pondered these perplexing questions in her celebrated Ingersoll Lecture, delivered at Harvard University in 2012 and published now for the first time in book form.

Perhaps because it is overshadowed by the more easily defined evil, goodness often escapes our attention. Recalling many literary examples, from Ahab to Coetzee’s Michael K, Morrison seeks the essence of goodness and ponders its significant place in her writing. She considers the concept in relation to unforgettable characters from her own works of fiction and arrives at conclusions that are both eloquent and edifying. In a lively interview conducted for this book, Morrison further elaborates on her lecture’s ideas, discussing goodness not only in literature but in society and history—particularly black history, which has responded to centuries of brutality with profound creativity. Morrison’s essay is followed by a series of responses by scholars in the fields of religion, ethics, history, and

literature to her thoughts on goodness and evil, mercy and love, racism and self-destruction, language and liberation, together with close examination of literary and theoretical expressions from her works. Each of these contributions, written by a scholar of religion, considers the legacy of slavery and how it continues to shape our memories, our complicities, our outcries, our lives, our communities, our literature, and our faith. In addition, the contributors engage the religious orientation in Morrison’s novels so that readers who encounter her many memorable characters such as Sula, Beloved, or Frank Money will learn and appreciate how Morrison’s notions of goodness and mercy also reflect her understanding of the sacred and the human spirit.
