Originally published in 1992. This book brings together the work of a number of distinguished international researchers engaged in basic research on beginning reading. Individual chapters address various processes and problems in learning to read - including how acquisition gets underway, the contribution of story listening experiences, what is involved in learning to read words, and how readers represent information about written words in memory. In addition, the chapter contributors consider how phonological, onset-rime, and syntactic awareness contribute to reading acquisition, how learning to spell is involved, how reading ability can be explained as a combination of decoding skill plus listening comprehension skill, and what causes reading difficulties and how to study these causes.

Everyone reads the compelling story of Anne Frank and wants to know more. How many others were hidden away during the war? How and where? Were they separated from their families? Did they ever find each other again? Hidden tells the stories of 14 young people who were hidden throughout the Netherlands during World War Two. Their stories create a wider picture of what it meant to be Jewish in Europe during World War Two, and what it took to survive.

KS2 Maths Study Book - Year 3 Henry Holt and Company (BYR)
The change process is described in this text which examines the historical, social and economic influences on education policy reform. Chapters look at cross-cultural experiences of educational change and policy implementation as the authors lead us to an understanding of processes and forces involved. The three themes covered in this volume are: politics and reform; politics into policy and policy implementation; and educational reform phenomena. The authors argue that change takes a predictable format and, once understood, can be directed and managed.; This text is intended to be of interest to those involved in the planning and implementation of change and, along with Volume 2 "Case Studies in Educational Change", point the way to effective management of such change processes.

The Mystery of Easter Island Collins
The baby owls came out of their house, and they sat on the tree and waited. A big branch for Sarah, a small branch for Percy, and an old piece of ivy for Bill. When three baby owls awake one night to find their mother gone, they can't help but wonder where she is. Stunning illustrations from unique and striking perspectives capture the owls as they worry about their mother: What is she doing? When will she be back? What scary things move all around them? Not surprisingly, a joyous flapping and dancing and bouncing greets her return, lending a celebratory tone to the ending of this comforting tale. Never has the plight of young ones who miss their mother been so simply told or so beautifully rendered.
