Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

A sweeping, lyrical tale of historical fiction that tells the unbelievable story of the early days of the Mormon church through the eyes of the woman who saw it all—Emma, the first wife of the prophet Joseph Smith. In 1825, in rural Pennsylvania, Emma Hale marries an itinerant treasure-digger, a man who has nothing but a peep-stone in his pocket and a conviction that he can speak directly to God. His name is Joseph Smith and in a few short years, he will found his own religion, gather zealous adherents by the tens of thousands, and fracture Emma ’ s life and faith While the Mormon religion finds its feet and runs beyond the grasp of its founder, Emma struggles to maintain her place in Joseph ’ s heart—and in the religion that has become her world. The Mormons make themselves outcasts everywhere they go. Joseph can only maintain his authority by issuing ever-stranger commandments on God ’ s behalf, culminating in an edict that men should marry as many women as they please. The Mormons ’ adoption of polygamy only sets them further apart, and soon their communities are ravaged by violence at the hands of their outraged fellow Americans. For Emma, things take a more personal toll as Joseph brings in a new wife—a woman whom Emma considers a sister. As Emma ’ s family grows along with Joseph ’ s infamy, she knows there will never be peace until Joseph faces the law. But on the half-wild edge of the frontier, he ’ s more likely to find death at the hands of a vigilante posse than a fair trial. For the sake of her people—and her soul—Emma must convince the Prophet of God to surrender... and perhaps to sacrifice his life.

An LA Times Best Book of the Year • A New York Times Editors' Pick • A Newsweek 25 Best Fall Books • A The Millions Most Anticipated Book of the Year "Gripping and beautiful. With the artistry of a poet and the intensity of a revolutionary, Lovato untangles the tightly knit skein of love and terror that connects El Salvador and the United States." —Barbara Ehrenreich, author of *Natural Causes* and *Nickel and Dimed* An urgent, no-holds-barred tale of gang life, guerrilla warfare, intergenerational trauma, and interconnected violence between the United States and El Salvador, Roberto Lovato's memoir excavates family history and reveals the intimate stories beneath headlines about gang violence and mass Central American migration, one of the most important, yet least-understood humanitarian crises of our time—and one in which the perspectives of Central Americans in the United States have been silenced and forgotten. The child of Salvadoran immigrants, Roberto Lovato grew up in 1970s and 80s San Francisco as MS-13 and other notorious Salvadoran gangs were forming in California. In his teens, he lost friends to the escalating violence, and survived acts of brutality himself. He eventually traded the violence of the streets for human rights advocacy in wartime El Salvador where he joined the guerilla movement against the U.S.-backed, fascist military government responsible for some of the most barbaric massacres and crimes against humanity in recent history. Roberto returned from war-torn El Salvador to find the United States

on the verge of unprecedented crises of its own. There, he channeled his own pain into activism and journalism, focusing his attention on how trauma affects individual lives and societies, and began the difficult journey of confronting the roots of his own trauma. As a child, Roberto endured a tumultuous relationship with his father Ramón. Raised in extreme poverty in the countryside of El Salvador during one of the most violent periods of its history, Ramón learned to survive by straddling intersecting underworlds of family secrets, traumatic silences, and dealing in black-market goods and guns. The repression of the violence in his life took its toll, however. Ramón was plagued with silences and fits of anger that had a profound impact on his youngest son, and which Roberto attributes as a source of constant reckoning with the violence and rebellion in his own life. In *Unforgetting*, Roberto interweaves his father's complicated history and his own with first-hand reportage on gang life, state violence, and the heart of the immigration crisis in both El Salvador and the United States. In doing so he makes the political personal, revealing the cyclical ways violence operates in our homes and our societies, as well as the ways hope and tenderness can rise up out of the darkness if we are courageous enough to unforget. *Dark Parties* Sourcebooks Casablanca

Scholarly essays on the achievements of female artists working in and inspired by the American South Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by *Life* magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lois Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C. *Half Lives* Little, Brown Books for Young Readers

Focusing on the development of a single African American community in eastern New Jersey, Hodges examines the experience of slavery and freedom in the rural north. This unique social history addresses many long held assumptions about the experience of slavery and emancipation outside the south. For example, by tracing the process by which whites maintained "a durable architecture of oppression" and a rigid racial hierarchy, it challenges the notions that slavery was milder and that racial boundaries were more permeable in the north. Monmouth County, New Jersey, because of its rich African American heritage and equally well-preserved historical record, provides an outstanding opportunity to study the rural life of an entire community over the course of two centuries. Hodges weaves an intricate pattern of life and death, work and worship, from the earliest settlement to the end of the Civil War.

A passionate, thought-provoking exploration of walking as a political and cultural activity, from the author of *Orwell's Roses* Drawing together

many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car-dependent and accelerated world.
