Dark Parties Houghton Mifflin Harcourt
Just when he thinks he's got the girl...life
has a few more curveballs to throw his way. Ford "Truck" Laughlin and Mary Weston have weathered their share of storms over the last couple years. Truck's job, Mary's health. His bossiness, her bitchiness. All while dancing around their intense attraction. Mary's tried to push him away for his own good but Truck won't let her give up...on herself or on them. Just when she decides they deserve a fair shot, disaster strikes. Truck has wanted Mary since the moment he saw her. The prickly woman pushes all his buttons and looks beyond his scarred exterior, something few women have managed. His plan to take their relationship to the next level is stalled when he's injured on a mission. And he's barely feeling like his old self again before the couple is dealt another blow, one that could permanently end their chances...and their lives. **Rescuing Mary is the 9th book in the Delta Force Heroes Series. Usually my books are stand-alones, but in this case, I feel you would get more enjoyment out of the story if you read the other books first, since Mary and Truck's relationship evolves throughout the series. If nothing else, I recommend reading the first book in the series, Rescuing Rayne, where their relationship began. --- Read what others are saying about New York Times bestselling author, Susan Stoker: "Susan Stoker is the master of military romantic suspense. A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. *The Case for Marriage* is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced – physically, materially, and

spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society.

"A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of *The Book of Virtues*

"Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- *The Wall Street Journal*

"How do citizens in poor communities benefit from and perceive state interventions? How do citizens in poor communities interact with others in the community to promote the well-being of themselves and their families? What are the implications of the above for community based research, policy and practice? Development, Social Policy and Community Action: Lessons from Below addresses these questions based on rigorous and multi-faceted research conducted in the poor, urban area of Doornkop, Soweto, using a range of different methodological approaches and theoretical perspectives that all broaden our understanding of citizen-community-state interactions indisadvantaged, urban communities in Soth Africa. Solutions to poverty and inequality are often designed, implemented and evaluated in a topdown manner, thereby disregarding the views and agency of the poor citizens themselves. Addressing this gap, the authors explore how government assistance, through social grants and services, as well as community support mechanisms provide solutions to citizens in poorcommunities and the ways that the citizens perceive and make use of such interventions. This research study points to the need for more nuanced policy strategies and interventions pertinent to local challenges which also resonate with the global search for solutions in similar contexts. With a fresh perspective that addresses the interconnections between state interventions, community and citizens in sustainable social development, this book provides a case for the importance of conducting community-based research that

effectively encourages research findings to support communities to effect positive change."--

Scholarly essays on the achievements of female artists working in and inspired by the American South Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In Central to Their Lives, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bong é , Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lo ï s Mailou Jones, Alma Thomas, and Helen

Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C.
