Advancing Equity and Achievement in America's Diverse Schools illustrates how educators, students, families and community partners can work in strategic ways to build on social, cultural, and ethnic diversity to advance educational equity and achievement. By drawing on the latest data on demographic change, constructions of culture and cultural difference, and the politics of school reform in urban, rural, and suburban school communities, this volume looks toward solutions and strategies for meaningful educational improvement. Contributors consider both the diversity of youth and families served in public schools, and the culture of U.S. schooling, highlighting the influence of policy and reform agendas; students' identities and agency; experiences and approaches of diverse educators; and the workings of effective school partnerships. Chapters also focus on those often overlooked in educational scholarship such as Native Americans, students experiencing poverty and/or homelessness, Muslim students, students with special needs, and students and educators who are lesbian, gay, bisexual, transgender, intersex, or queer. In all, this edited collection stresses the need for high quality education that is inclusive, culturally responsive and unifying so all students can experience academic success. This book is a meaningful resource for educators, policymakers, and community-based leaders interested in doing such transformative work.

REVIEWING 2013 New World Translation of Jehovah's Witnesses is going to challenge your objectivity. Being objective means that personal feelings or opinions do not influence you in considering and representing facts. Being subjective means that your understanding is based on or influenced by personal feelings, tastes, or ideas. If the reader finds these insights offense, it might be a little mind control at work from years of being told the same misinformation repeatedly, so ponder things objectively. We can also have preconceived ideas that have been a part of our thinking for so long; we do not question them. Preconceived is an idea or opinion that is formed before having the evidence for its truth. If we are to be effective, we must

season our words, so that they are received well. Then there is the term preconception, which means a preconceived idea or prejudice. Seasoned words, honesty, and accuracy are distinctive features of effective apologetic evangelism.

New York Travel Writers Society 2013 Annual Report CreateSpace

Authorship's Wake examines the aftermath of the 1960s critique of the author, epitomized by Roland Barthes's essay, *The Death of the Author*. This critique has given rise to a body of writing that confounds generic distinctions separating the literary and the theoretical. Its archive consists of texts by writers who either directly participated in this critique, as Barthes did, or whose intellectual formation took place in its immediate aftermath. These writers include some who are known primarily as theorists (Judith Butler), others known primarily as novelists (Zadie Smith, David Foster Wallace), and yet others whose texts are difficult to categorize (the autofiction of Chris Kraus, Sheila Heti, and Ben Lerner; the autotheory of Maggie Nelson). These writers share not only a central motivating question—how to

move beyond the critique of the author-subject—but also a way of answering it: by writing texts that merge theoretical concerns with literary discourse. Authorship's Wake traces the responses their work offers in relation to four themes: communication, intention, agency, and labor.

Developing countries in the East Asia Pacific region will see stable economic growth this year, bolstered by a recovery in high-income economies and the market's modest response so far to the Federal Reserve's tapering of its quantitative easing, according to the East Asia Pacific Economic Update. Developing East Asia will grow by 7.1 percent this year, largely unchanged from 2013, the report says. As a result, East Asia remains the fastest growing region in the world, despite a slowdown from the average growth rate of 8.0 percent from 2009 to 2013. In China, growth will ease slightly, to 7.6 percent this year from 7.7 percent in 2013. Excluding China, the developing countries in the region will grow by 5.0 percent, slightly down from 5.2 percent last year.

China weathered the global financial crisis better than most, thanks to a large and timely stimulus. This stimulus, however, was mainly in the form of off-budget infrastructure spending and thus not visible in the headline fiscal data. We construct a time series for the augmented fiscal deficit and debt—augmented to include off-budget activity—that better illustrates the counter-cyclical role of fiscal policy. The results also show that the augmented fiscal deficit and debt are both considerably higher than the headline government data suggest. Nonetheless, at around 45 percent of GDP, the augmented debt is still at a manageable level.

Whether attending conferences, visiting clients, or going to sales meetings, travel is an unavoidable necessity for many businesspeople. Today ' s high-tech enabled businessperson travels with electronic devices such as smartphones, tablets, laptops, health sensors, and Google Glass. Each of these devices offers new levels of productivity and efficiency, but they also become the weak link in the security chain: if a device is lost or stolen during travel, the resulting data breach can put the business in danger of physical, financial, and reputational loss. Online Security for the Business Traveler provides an overview of this often overlooked problem, explores cases highlighting specific security issues, and offers practical advice on what to do to ensure business security while traveling and engaging in online activity. It is an essential reference guide for any travelling business person or security professional. Chapters are organized by travel stages for easy reference, including planning, departure, arrival, and returning home Touches on the latest technologies that today's business traveler is using Uses case studies to highlight specific security issues and identify areas for improved risk mitigation

Canada ' s automotive "Dr. Phil" says there ' s never been a better time to buy a new car or truck. For deals on wheels, 2013 will be a "perfect storm." There ' s never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that ' s still reeling from a series of natural disasters. In addition to lower prices and more choices, 2013 car buyers will see more generous cash rebates, low financing rates, bargain leases, and free auto maintenance programs. Buy, sell, or hold? Which cars and trucks are "wallet-friendly" and can easily last 15 years? Which vehicles offer the most features to best accommodate senior drivers? Do ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers? Is GM ' s 2013 Volt electric car destined to become an electric Edsel? These questions and more are answered in this informative guide.
