have chosen to what either

might write or say."—Robert Creeley A seminal figure in post-World War II literature, Charles Olson has helped define the postmodern sensibility. His poetry embraces themes of empowering love, political responsibility, the wisdom of dreams, the intellect as a unit of energy, the restoration of the archaic, and the transformation of consciousness—all carried in

a voice both intimate and grand, American and timeless, impassioned and coolly demanding. In this selection of some 70 poems, Robert Creeley has sought to present a personal reading of Charles Olson's decisive and inimitable work—"unequivocal instances of his genius"—over the many years of their friendship. George Oppen, *Man and Poet* Four Way Books

George Oppen's standing in American poetry has never been greater. Yet despite the mass of critical writing since his death in 1984, the essential basis of the verse—the words on the page and their acoustics—has rarely been the subject of discussion. In this book therefore Richard Swigg breaks away from the general trend of Oppen studies and offers the reader a direct way into the visual and auditory dimension of the poems. Ranging across the entire

span of the work, from the 1930s to the 1970s, he traces for the first time the full extent of Oppen's engagement with the concrete world and his important poetic relationships with Charles Reznikoff, Denise Levertov, Charles Tomlinson and others.

Oranges & Peanuts for Sale
HarperCollins

"Primitive by Massimo Leardini presents an unorthodox study of the female form. The result of the latest collaboration between the photographer and

his long-term muse, the Norwegian actress Viktoria Winge. Conventional landscape settings have been banished to be replaced only by a sense of place; sparse light penetrating deep within the Urskog (primordial forest). Nude portraiture, and the temptation to capture beauty, have been outlawed in favour of a study of essential femininity abstracted into raw images of flesh, hair and bone. The female body, but not as we know it. Contorted body parts reassembled

into impossible compositions that create abstruse sculptural forms. Recognisable as human, yet simultaneously strange, ambiguous and primitive."--editionsd

first book *Ring*
Song dazzled
critics with its
candor and
freshness of
language. Here at
long last is the new
and collected work
of a lifetime by a
writer hailed as
"one of the most
brilliant American
poets" by George
Oppen. Replansky
is a poet whose

verse combines the
compression of
Emily Dickinson, the
passion of Anna
Akmatova, and the
music of W.H.
Auden. These
poems, which Marie
Ponsot calls "sixty
years of a free
woman's song," are
Replansky's hymns
to the struggle for
justice and equality
and to the enduring
beauty of life in our
dangerous world.

work, the first in
many years,
provides a perfect

vantage from which to contemplate his achievement.

An Elemental Thing
Univ of California Press

"Magnificent ... a great poem really rolling in all its power and splendor of language."--James Laughlin.

George Oppen
McFarland

George Oppen (1908-1984) was a member of the 'Objectivist' group of poets, with Carl Rakosi, Charles Reznikoff and Louis Zukofsky, and was publisher of the associated press, To Publishers, in the early 1930s. He abandoned poetry later that decade

and, faced with the rise of Fascism, became a political activist and member of the Communist Party of the USA. Later, he and his family moved to Mexico to escape the attention of Senator McCarthy's House Un-American Activities Committee. He returned to the USA, and to poetry, in 1958 and, after a series of well-received books from New Directions, was awarded the Pulitzer Prize in 1969. Some thirty years after his death he is increasingly regarded as one

of the most significant American poets of his era. This volume of biography and literary criticism engages with a complex man, and a complex poet, the course of whose life was unlike any of his contemporaries. "Hoffman's narrative explores in considerable depth Oppen's thinking about his own work, his reasonings and judgments on himself and his contemporaries in life, politics and poetry. Throughout, Hoffman supplies a rich contextual background to the

Oppens' story, one in which public and private life continually intersect not only in the socio-cultural aspects of their lives but in the undergirdings of love, hope and guilt that empower the thought and poetry... Complex, highly-nuanced and well-documented, Hoffman's narrative makes clear that few careers in modern poetry are so entwined with biography as Oppen's." --from Michael Heller's introduction Primitive New Directions Publishing "George Oppen's

New Collected Poems gathers in one volume all of the poet's books published in his lifetime (1908-84), as well as his previously uncollected poems and a selection of his unpublished work." "Editor Michael Davidson has written an introduction to the poet's life and work and supplies generous notes that give readers a deeper understanding of the background of the individual books and references in the poems. Essayist Eliot Weinberger provides a personal remembrance of the poet in his preface, "Oppen Then." This new, revised paperback edition also includes an

extraordinary CD of the poet reading from each of his poetry books. Culled from obscure, rarely heard recordings of Oppen when he was in New York, San Francisco, and London at different times in his life, the CD adds a unique dimension to the lifework of one of America's finest poets."--BOOK JACKET.

Collected Poems
New Directions
Publishing
This book offers
a detailed look
into the life and
works of Pulitzer
Prize-winning
Jewish American
poet George
Oppen. Born in
1908 in New
York State,
Oppen spent
parts of his life
working as a die
cutter and
carpenter and
later running a
furniture factory.
Like the work he
did with his
hands during
those years, his
poetry used
basic materials;

he favored short,
simple nouns
and focused on
concrete objects
rather than
abstractions.
This book
examines the
characteristics of
Oppen's work,
particularly his
use of small and
often odd
phrasings and
unusual line
formations to
express the
ultimately
inexpressible.
The first three
chapters delve
into his primitive
modes, language
and materials.
Subsequent
chapters tackle
his subjects:
cityscapes, light

and water, and
then animals and
their relation to
human history
and struggles.
His final
collection of
poems, *Primitive*,
is examined in its
own chapter,
which is followed
by an exploration
of recurring
specific phrases
and concrete
images. The
author
demonstrates
how Oppen's
poetry restores
to readers an
essential
dimension of
communication
and experience
that has been
ignored or
forgotten.

"A" New York Review of Books This is the first comprehensive critical edition of the unpublished writings of Pulitzer Prize-winning objectivist poet George Oppen (1908-1984). Editor Stephen Cope has made a judicious selection

of Oppen's extant writings outside of poetry, including the essay "The Mind's Own Place" as well as "Twenty-Six Fragments," which were found on the wall of Oppen's study after his death. Most notable are Oppen's "Daybooks," composed in the decade following his return to poetry in 1958. Selected Prose, Daybooks, and Papers is an inspiring portrait of this essential writer and a testament to the creative process itself.

Digest Univ of California Press Presents a collection of the

Pulitzer Prize-winning poet's previously unpublished journals, essays, and book reviews.

Nothing Doing

University of Iowa Press
Pulitzer Prize winner Sylvia Plath's complete poetic works, edited and introduced by Ted Hughes. By the time of her death on 11, February 1963, Sylvia Plath had written a large bulk of poetry. To my

knowledge, she never scrapped any of her poetic efforts. With one or two exceptions, she brought every piece she worked on to some final form acceptable to her, rejecting at most the odd verse, or a false head or a false tail. Her attitude to her verse was artisan-like: if she couldn't get a table out of the material, she was quite happy to get a chair, or even a toy. The end product for her was not so much a successful poem,

as something that had temporarily exhausted her ingenuity. So this book contains not merely what verse she saved, but—after 1956—all she wrote. — Ted Hughes, from the Introduction
What Happened Here New Directions Publishing
His poems are what all fine poems should be: not only a delight but a solace, not only a fascination but, in the end, a source of repose and wisdom. --Hayden Carruth. Nobody knows how to do so much with so few words as Corman. And Nothing Doing is rich with his

austerities, poems
full of wisdom and
tenderness and
absurdities. It feels
to me like the
summa poetica of
Corman's work,
where he stands up
to be counted. And
shows the power
and grace of what
he does so well.
--Robert Kelly.
