Thirty years after its publication, The Death and Life of Great American Cities was described by The New York Times as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bitingly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

A beloved classic that captures the powerful bond between man and man’s best friend. Billy has long dreamt of owning not one, but two, dogs. So when he’s finally able to save up enough money for two pups to call his own–Old Dan and Little Ann–he’s ecstatic. It doesn’t matter that times are tough; together they’ll roam the hills of the Ozarks. Soon Billy and his hounds become the finest hunting team in the valley. Stories of their great achievements spread throughout the region, and the combination of Old Dan’s brawn, Little Ann’s brains, and Billy’s sheer will seems unbeatable. But tragedy awaits these determined hunters–now friends–and Billy learns that hope can grow out of despair, and that the seeds of the future can come from the scars of the past.
